INVESTMENT OBJECTIVE AND STRATEGY

The Fund is a Peso-denominated medium term bond Unit Investment Trust Fund that aims to achieve for its participants, income generation and capital appreciation by investing in a diversified portfolio of predominantly peso-denominated corporate fixed income securities with a maximum weighted average duration of five years. The Fund's composite benchmark is composed of 80% BPI Philippine Corporate Bond Index and 20% average rate of the most recent 91-day Philippine Treasury Bill auction, net of taxes.

CLIENT SUITABILITY

A client profiling process is performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are encouraged to update the resulting profile every three (3) years or if there's any change in his/her personal/financial circumstances. Before deciding to invest, clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, or seek an independent/professional opinion when necessary.

The METRO CORPORATE BOND FUND is suitable only for investors who:

- Have a Moderate profile.
- Want income generation and capital appreciation over the medium-term.
- Recommended investment horizon is at least five (5) years
- Participation in the Fund shall be open to Filipino individuals, resident and non-resident aliens and corporate accounts.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Interest Rate Risk:	The possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
Market/Price Risk:	The possibility for an investor to experience losses due to changes in the market prices of bonds. It refers to the portfolio's exposure to marked-to-market valuation due to market price fluctuations of the bonds.
Liquidity Risk:	The possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a price that could result in a loss. This may be caused by low trading volume due to different reasons such as securities with small or few outstanding issues, absence of buyers and/or sellers (limited buy/sell activity) or underdeveloped capital market.
Credit Risk / Default Risk:	The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of fixed income security which the borrower issued. This inability of the borrower or counterparty to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security.
Reinvestment Risk:	The possibility of having lower returns or earnings when funds mature and are reinvested. Investors in the UITF who redeem and realize their gains run the risk of reinvesting their funds in an alternative investment outlet with lower yields. Similarly, the UIT fund manager is faced with the risk of not being able to find better yielding alternative investment outlets as some of the securities in the fund matures.
Other Risks:	Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by Metrobank. These transactions may include own-bank deposits; purchase of own-institution or affiliate obligations (stocks, mortgages); purchase of assets from or sales to own institution, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts.

The Fund invests only in high-credit quality assets which are evaluated using a rigorous internal scoring model required under the Trustee's accreditation process and BSP regulations. Internal risk limits and position limits together with regulatory exposure limits are monitored, reviewed and strictly adhered to on a daily basis. The Fund may also use financial derivatives solely for hedging risk exposures.

THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).

RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY.

WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.

THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

FUND PERFORMANCE AND STATISTICS as of September 30, 2021

(Purely for reference purposes and is not a guarantee of future results)

NAVPu GRAPH

NAVPu OVER THE PAST 12 MONTHS

Highest	1.174352
Lowest	1.153340

STATISTICS

Weighted Average Duration (in years)	3.23
Volatility, Past 1 Year (in %) ²	1.80%
Sharpe Ratio ³	-0.25
Information Ratio ⁴	-1.15

² Volatility measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time. The lower the number, the more stable the Fund's return is relative to its average return over time. Starting December 2017, computation is based on the annualized standard deviation of monthly returns.

³ Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

⁴ Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

Unit Investment Trust Funds

INVESTMENT POLICY

The Fund may be invested and reinvested in the following instruments:

- Deposits
- BSP deposit facilities
- Repurchase Agreements (Repos)
- Government Securities
- Corporate Bonds
- Other investments allowed under BSP regulations

OUTLOOK AND STRATEGY

The local government bond yield curve continued to steepen as yields rose by 10-20 bps in the short-end to the intermediate part of the curve and as much as 30-50 bps in the long-ends. The move was driven by the rise in US Treasury yields overseas prompted by the hawkish statements from the Fed with regard to the unwinding of the monetary stimulus as economy showed signs of recovery. The Philippine Peso depreciated against the US Dollar closing the month at USDPHP 51, up by Php 1.24 from previous month.

As widely expected, the Bangko Sentral ng Pilipinas (BSP) maintained its policy rates at 2% while raising inflation expectations to 4.4% (from 4.1%), 3.3% (from 3.1%), 3.2% from (3.1%) for 2021, 2022, 2023, respectively. September inflation printed at 4.8% YoY vs. 5.1% YoY consensus, well-within BSP's expectations of 4.8%-5.6% mostly driven by oil, electricity and basic goods.

Meanwhile, starting mid-September, our nation continuously battle the effects of the pandemic with Metro Manila was placed in Alert Level 4 under the new granular lockdown. Vaccination rates however have slowed for the month while improvement is seen for new COVID-19 infections. Economic numbers showed some signs of resiliency as loan growth improved for the month at 1.3% YoY, the fastest for the past 10 months. Supported by current monetary policy regime, domestic liquidity growth rose by 6.9% YoY, highest since March 2021. BSP noted that the financial markets are well-insulated from the shocks coming from the Chinese property troubles overseas.

The Bureau of Treasury successfully raised funds in September with Treasury bills oversubscribed by an average of 3 to 5 times compared from last month's 3 to 4.5 times. All five domestic bond sale by the government are well received with average awarded yields are higher by an average of 20-40 bps from August with healthy demand as oversubscription reached 2-3 times its respective offer size. October borrowing schedule shifted to just 5 to 7 years compared to previous month's 5 to 10 years while keeping offer sizes unchanged at Php 35B for bonds and Php 15B for bills.

IMPORTANT NOTICE
