<p><b>Principle 2:</b> The fiduciary roles, responsibilities and accountabilities of the Board as provided under the law, the company's articles and by-laws and other legal pronouncements and guidelines should be clearly made known to all directors as well as to stockholders and other stakeholders.</p>			
<p><b>Recommendation 2.1</b></p>			
1. Directors act on a fully informed basis, in good faith, with due diligence and care, and in the best interest of the company.	COMPLIANT	<p>The Bank's CGM provides the specific duties and responsibilities of a Director which will be the basis as well for the assessment of their performance.</p> <p><i>"The position of a director is a position of trust. A director assumes certain responsibilities to different constituencies or stakeholders, i.e., the Bank itself, its stockholders, its depositors and other creditors, its management and employees, the regulators, deposit insurer and the public at large. These constituencies or stakeholders have the right to expect that the Bank is being run in a prudent and sound manner. The members of the board should exercise their "duty of care" and "duty of loyalty" to the Bank."</i></p> <p>Hence the Directors are expected, among others to:</p> <p><i>Act honestly and in good faith, with loyalty and in the best interest of the Bank, its stockholders, regardless of the amount of their stockholdings, and other stakeholders such as its depositors, investors, borrowers, other clients and the general public.</i></p>	

*A director must always act in good faith, with the due diligence and care which an ordinarily prudent man would exercise under similar circumstances. While a director should always strive to promote the interest of all stockholders, he should also give due regard to the rights and interests of other stakeholders.”*

Further, Annual Performance Ratings are conducted to assess the Director’s performance in the discharge of their duties. This is coursed through the Corporate Governance and Compensation Committee (CGCCom). The following are excerpts from the CGM on self-assessment:

**ANNUAL SELF-ASSESSMENT**

*The Board shall conduct an annual self-assessment of its performance, including the performance of the Chairman, the President and individual members and committees.*

*The Board has created an internal self-rating system and procedures to determine and measure compliance with this Manual on Corporate Governance vis-à-vis good corporate governance principles and practices: (i) each Director self-rates and collectively rates the Board, the President and the Chairman (ii) Corporate Governance, Audit, Risk Oversight and other Board committees respectively rate themselves. Every three (3) years, as much as practicable, the assessment should be supported by an external facilitator.*

- 1. The evaluation shall cover the period April of the previous year to March of the following year (whole term).*
- 2. In order to properly assess the Board, its individual Directors, the President, the Board Committees, etc., self-assessment forms shall be used. The Secretary of the Corporate Governance and Compensation Committee shall initiate the performance evaluation every March of each year.*
- 3. Self-assessment forms must be accomplished as objectively as possible. The rating to be assigned shall reflect the personal view of the evaluator to the various corporate governance mechanisms.*
- 4. The baseline on the assessment of the effectiveness of the performance of the Board, individual Directors and various Board Committees are the duties and responsibilities as mentioned in the Manual, the Bank’s By-laws, various rules and regulations and in the respective committee charters.*
- 5. After the assessment forms have been duly accomplished, the Secretary of the Corporate Governance and Compensation Committee shall collate the forms and prepare a summary. For the various Board Committees, the secretary shall coordinate with the respective secretaries of the committees for the results of the assessment of each*

Committee. The Audit Committee shall perform its self-assessment in accordance with SEC Memorandum Circular No. 4, S.2012.

6. The Committee Secretary shall review the results and report the results to the Board through the Corporate Governance and Compensation Committee. To allow for a feedback mechanism, the criteria, process and collective results of the assessments should, as a rule, be disclosed to ensure transparency and allows shareholders and other stakeholders to determine if the directors are performing their responsibilities.

If transactions with the Bank cannot be avoided, it should be done in the regular course of business and upon terms not less favorable to the Bank than those offered to others. The basic principle to be observed is that a director should not use his position to make profit or to acquire benefit or advantage for himself and/or his related interests. He should avoid situations that would compromise his impartiality. Directors are required to abstain from participating in the Board discussion on a particular agenda when they are conflicted.</p>

6. Board has a process for identifying the quality of directors that is aligned with the strategic direction of the company. When identifying or screening potential candidates, the Committee may consult whatever resources it deems appropriate, including but not limited to, referrals from existing directors and officers, recommendations from a third-party search firm or suggestions from stockholders. They may also make use of external databases of the Institute of Corporate Directors or other professional search firms.	
		4) Only nominees whose names appear in the Final List of Candidates shall be eligible for election as director.	
		<u>Stockholders' Rights and Protection of Minority Stockholders' Interests</u>	

	<p>The Bank treats all its shareholders fairly and equitably, and also recognizes, protects and facilitates the exercise of their rights. The Board shall respect the rights of the stockholders as provided for in the Corporation Code, namely:</p> <ol style="list-style-type: none"> <li>1) Right to vote on all matters that require their consent or approval;</li> <li>2) Right to inspect books and records of the Bank;</li> <li>3) Right to information;</li> <li>4) Right to dividends; and</li> <li>5) Appraisal right.</li> </ol> <p>The Board encourages active shareholder participation by making the result of the votes taken during the most recent Annual or Special Shareholders’ Meeting publicly available the next working day. A confirmed director/officer or officer not requiring confirmation found to possess any of the disqualifications shall be subject to the following disqualification procedures:</p> <ol style="list-style-type: none"> <li>a. The Board and Management shall be responsible for determining the existence of the ground for disqualification of a director/officer or employee and for reporting the same to BSP. While the Bank may conduct its own investigation and impose appropriate sanction/s as are allowable, this shall be without prejudice to the authority of the Monetary Board to disqualify a director/officer/employee from being elected/appointed as director/officer. Grounds for disqualification made known to the Bank, shall be reported to BSP within seventy-two (72) hours from knowledge thereof.</li> <li>b. On the basis of knowledge and evidence on the existence of any of the grounds for disqualification mentioned in BSP MORB Secs. 		<p>of the ground for his disqualification and shall be allowed to submit within fifteen (15) calendar days from receipt of such notice an explanation on why he should not be disqualified and included in the watchlisted file, together with the evidence in support of his position. BSP may allow an extension on meritorious ground.</p> <p>c. Upon receipt of the reply explanation of the director/officer concerned, BSP shall proceed to evaluate the case. The director/officer concerned shall be afforded the opportunity to defend/clear himself/herself.</p> <p>d. If no reply has been received from the director/officer concerned upon the expiration of the period prescribed under Item "b" above, said failure to reply shall be deemed a waiver and BSP shall proceed to evaluate the case based on available records/evidence.</p> <p>f. If the ground for disqualification is delinquency in the payment of obligation, the concerned director or officer shall be given a period of thirty (30) calendar days within which to settle said obligation or, restore it to its current status or, to explain why he should not be disqualified and included in the watchlisted file, before the evaluation on his disqualification and watchlisting is elevated to the Monetary Board.</p> <p>g. If the disqualification is based on dismissal from employment for cause, BSP shall, as much as practicable, endeavor to establish the specific acts or omissions constituting the offense or the ultimate facts which resulted in the dismissal to be able to determine if the disqualification of the director/officer concerned is warranted or not. The evaluation of the case shall be made for the purpose of determining if disqualification would be appropriate and not for the purpose of passing judgment on the findings and decision of the entity concerned. BSP may decide to recommend to the Monetary Board a penalty lower than disqualification (e.g., reprimand, suspension, etc.) if, in its judgment the act committed or omitted by the director/officer concerned does not warrant disqualification.</p> <p>h. All other cases of disqualification, whether permanent or temporary shall be elevated to the Monetary Board for approval and shall be subject to the procedures provided in Items "a","b","c" and "d" above.</p> <p>i. Upon approval by the Monetary Board, the concerned director/officer shall be informed by BSP in writing either by personal service or through registered mail with registry return receipt card, at his last known address of his disqualification from being elected/appointed as director/officer in any financial institution under the supervision of BSP and/or of his inclusion in the masterlist of watchlisted persons so disqualified.</p> <p>j. The Board shall be immediately informed of cases of disqualification approved by the Monetary Board and shall be directed to act thereon not later than the following Board meeting. Within seventy two (72) hours thereafter, the corporate secretary shall report to the BSP Governor the action taken by the Board on the director/officer involved.</p> <p>k. Persons who are elected or appointed as director or officer in any of the BSP-supervised institutions for the first time but are subject to any of the grounds for disqualification provided for under BSP MORB Secs. X143.1 and X143.2, shall be afforded the procedural due process prescribed above.</p>	
--	--	---	--

		<p>l. Whenever a director/officer is cleared in the process mentioned under Item “c” above or, when the ground for disqualification ceases to exist, he would be eligible to become director or officer of any bank, QB, trust entity or any institution under the supervision of the BSP only upon prior approval by the Monetary Board. It shall be the responsibility of BSP to elevate to the Monetary Board the lifting of the disqualification of the concerned director/officer and his delisting from the masterlist of watchlisted persons.</p> <p><u>Removal Procedures</u></p> <p>a. A director may be removed from office by a vote of the stockholders holding or representing at least two-thirds (2/3) of the outstanding capital stock.</p> <p>b. The removal shall take place either at the regular stockholder’s meeting or at a special meeting called for the purpose, and in either case, after previous notice to stockholders of the intention to propose such removal at the meeting.</p> <p>c. The Corporate Secretary shall call a special meeting, on order of the President or on the written demand of the stockholders representing or holding at least a majority of the outstanding capital stock for the purpose of removal of a director.</p> <p>Should the Corporate Secretary fail or refuse to call the special meeting upon such demand or fail or refuse to give the notice, or if there is no secretary, the call for the meeting shall be addressed directly to the stockholders by any stockholder signing the demand. Notice of the time and place of such meeting, as well as of the intention to propose such removal, must be given by publication or by written notice prescribed in the Corporation Code of the Philippines. Removal may be with or without cause: provided that removal without cause may not be used to deprive minority stockholders the right of representation to which they may be entitled under Section 24 of the Corporation Code of the Philippines.</p> <p>d. Conflict of interest may also exist where a favor of any form is accepted by an employee that compromises one’s ability to faithfully discharge his/her duties and obligations to the Bank.</p> <p>Business gifts or any form of gratuity and entertainment are courtesies designed to build understanding and goodwill among parties in a business relationship. A problem arises when a business gift compromises – whether potentially or actually – the recipient’s ability to make objective and fair business decisions, or when they are contrary to applicable laws. Metrobank prohibits the direct or indirect offering or receiving by an employee of any gift, gratuity, favor, benefit, accommodation, other payment or entertainment by an employee from any person, be they clients, vendors, suppliers, business partners or subordinates, etc. that might affect the employees’ ability to discharge his/her duties to the Bank.</p> <p>The employee is expected to effectively manage his/her personal affairs and avoid any situation or business endeavors arising from associations, interests or relationships that may lead to conflict or potential conflict between his/her personal interests and that of the Bank.</p> <p>Engaging in lending, trading or other similar business activity, borrowing and lending of money between/among employees and clients, engaging in another employment without management approval and solicitation of personal business for personal gain from clients or the Bank’s business partners are among the examples of non-acceptable behavior under this standard of conduct.</p> <p><b>Related Party Transaction Policy</b></p> <p>To ensure that the highest ethical standards consistent with the Principles for Enhancing Corporate Governance are observed, the Bank’s Board of Directors and the Board’s Related Party Transactions Committee reviews the propriety of transactions with related parties and ensures that these are conducted at arm’s-length terms.</p> <p>After the appropriate review of related party transactions, the Related Party Transactions Committee which is composed of 3 members, all of whom are independent directors, discloses all information and endorses the proposed related party</p>

Towards this end, the Bank instituted a Whistle blowing policy where acts of fraud, malpractice, conflict of interest or violation of internal/regulatory policies, procedures and control may be reported to the Chief Audit Officer.</p> <p>The Whistle blowing policy applies in cases when an employee deems it more prudent to report violations or offenses to another authorized unit/person within the Bank, when the matter which is brought to the attention of the immediate superior is not acted upon in accordance with the standard reporting procedures, or is concealed, or the immediate superior is himself involved in the infraction, or the reporting employee fears reprisal.</p> <p>Under the policy, the Bank shall maintain the identity of the reporting employee as confidential and retaliation against any reporting employee shall not be allowed. Consistent with the principles of good governance, the Chief Audit Officer reports to the Board’s Audit Committee.</p> <p><b>Source:</b></p> <ul style="list-style-type: none"> <li>• <a href="#">Website: About Us &gt; Corporate Governance &gt; Metrobank Company Policies</a></li> <li>• <a href="#">Website: About Us &gt; Corporate Governance &gt; Metrobank Board Committees &gt; Audit Committee</a></li> </ul>	
3. Board approves the Internal Audit Charter.	COMPLIANT	Internal Audit Charter is reviewed annually; updates made thereto were approved by the Audit Committee on June 11, 2019 and noted by the Board of Directors on June 19, 2019.	
<b>Recommendation 2.11</b>			
1. Board oversees that the company has in place a sound enterprise risk management (ERM) framework to effectively identify, monitor, assess and manage key business risks.	COMPLIANT	<p><b><u>The Risk Management Process</u></b></p> <p>Metrobank acknowledges that the business of banking is fundamentally that of managing risk vs. reward, as various risks are inherent across all of its business lines. As a financial institution entrusted with the responsibility of providing as well as protecting value for all its stakeholders especially depositors, Metrobank does not take risks that it does not understand, cannot manage, mitigate, or accept. It conducts its business following a risk management framework suited to its scope and complexity, and consistent with international and regulatory standards.</p>	
2. The risk management framework guides the board in identifying units/business lines and enterprise-level risk exposures, as well as the effectiveness of risk management strategies.	COMPLIANT	<p>As risks emanate from most, if not all, processes in the conduct of its business, the Bank engenders its risk culture across all its employees—from client facing units to middle and back offices, from staff personnel to senior management—and all its products and services.</p> <p><b><u>Risk Management Principles</u></b></p> <p>Ultimately the philosophy of balancing risk and reward translates to the following risk management principles:</p>	

		<ol style="list-style-type: none"> <li>1. Because risk is native to the banking business, the Bank manages risks that correspond to its goals and objectives as an ongoing business;</li> <li>2. As the business landscape evolves, the Bank’s risk management practices must likewise remain appropriate and practicable, but always in consonance with standards set by its regulators;</li> <li>3. The Bank must ensure that it has the right risk governance structure in order to minimize the chances of risks becoming real losses while exploiting the gains that may accrue from business opportunities; and;</li> <li>4. Risk management is everyone’s concern – from the Board who sets the overall tone, to the officers and staff who execute the Bank’s risk management strategy.</li> </ol> <p><b>Source:</b></p> <ul style="list-style-type: none"> <li>• <a href="#">Website: About Us &gt; Company Disclosure &gt; 2019 Combined Annual Report and Sustainability Report, pages 54-55</a></li> </ul>	
<b>Recommendation 2.12</b>			
1. Board has a Board Charter that formalizes and clearly states its roles, responsibilities and accountabilities in carrying out its fiduciary role.	COMPLIANT	<p>The Bank’s CGM (CGM) serves as the Board Charter which clearly defines the roles, responsibilities and accountabilities of the Board in carrying out its fiduciary role. In the same token the CGM provides guidance for the Directors in the conduct of their performance.</p> <p>The CGM is available and posted in the Bank’s website:</p> <p><b>Source:</b></p> <ul style="list-style-type: none"> <li>• <a href="#">Website: About Us &gt; Corporate Governance &gt; Metrobank Corporate Governance Manual 2019</a></li> </ul>

Further, information is considered Material Nonpublic if it has not been generally</p>	

		<p>disclosed to the public and, if disclosed, would likely affect the price of the securities whether positively or negatively.</p> <p>The policy which is annexed in the Bank's CGM requires that the disclosure of Material Nonpublic Information about any of the companies within the Metrobank Group or any Partner shall be made on a reasonable need-to-know basis and in furtherance of a legitimate business purpose. It further requires the reporting insiders to confirm their respective beneficial ownership of listed shares of stock in their respective companies, if any, and report any changes thereto on the next trading day from the date of the change pursuant to the requirements of the Securities and Exchange Commission and the Philippine Stock Exchange.</p> <p><b>2019 Combined Annual Report and Sustainability Report</b></p> <p><b><u>Insider Trading Policy</u></b></p> <p>Metrobank as a publicly traded company is governed by securities laws and regulations. The Bank strictly enforces and monitors compliance with its Insider Trading Policy to uphold applicable laws and ensure shareholders protection and that individuals do not benefit from knowledge which is not generally available to the market. <b>Recommendation 4.2</b>

Non-executive directors concurrently serve in a maximum of five publicly-listed companies to ensure that they have sufficient time to fully prepare for minutes, challenge Management's proposals/views, and oversee the long-term strategy of the company.	COMPLIANT	<p>The Bank has a policy on multiple board seats that sets the limit of board seats a non-executive director can hold simultaneously. The policy is embedded in the Bank's CGM and posted in the website, excerpts below:</p> <p><u>Multiple Board Seats</u></p> <p>Taking into consideration the capacity of a director to diligently and efficiently perform his duties and responsibilities, the nature and kind of corporations he may be director of and the limitations on concurrent directorship between banks or between a bank and a quasi-bank under existing regulations, non-executive directors of the Board could, as a rule, concurrently serve as directors only to a maximum of five (5) publicly listed companies, making sure however that the shareholders' legal right to vote and be voted directors remains inviolable. In applying this provision to concurrent directorship in entities within a conglomerate, each entity where the non-executive director is concurrently serving as director shall be considered separately in assessing compliance with this requirement.</p> <p>A director should notify the Board before accepting a directorship in another company.</p>

<b>Recommendation 5.6</b>			
1. Directors with material interest in a transaction affecting the corporation abstain from taking part in the deliberations on the transaction.	COMPLIANT	<p>The Bank's CGM provides that <i>Directors should conduct fair business transactions with the Bank and ensure that personal interest does not bias Board decisions.</i></p> <p><i>Directors should, whenever possible, avoid situations that would give rise to a conflict of interest. If transactions with the Bank cannot be avoided, it should be done in the regular course of business and upon terms not less favorable to the Bank than those offered to others. The basic principle to be observed is that a director should not use his position to make profit or to acquire benefit or advantage for himself and/or his related interests. He should avoid situations that would compromise his impartiality. <b>Principle 6:</b> The best measure of the Board’s effectiveness is through an assessment process. The Board should regularly carry out evaluations to appraise its performance as a body, and assess whether it possesses the right mix of backgrounds and competencies.			
<b>Recommendation 6.1</b>			
1. Board conducts an annual self-assessment of its performance as a whole.	COMPLIANT	<p><b><u>Board Performance Evaluation and Self- Assessment</u></b></p> <p>Board effectiveness can only be gauged if the Board regularly assesses its own performance and the performance of the individual directors. At Metrobank, to determine the effectiveness of the Board, Chairman of the Board, President, Board Committees and each of the individual directors, annual evaluation of their performance is conducted using approved rating sheets. The performance rating sheet normally circulated on paper or online using questionnaires that are tailor-made to the Bank’s needs and objectives. This evaluation process allows the Board to consider the accomplishments of individuals and the group of individuals within the Board and this also serves as an avenue to revisit existing process or areas in need of improvement within the Board.</p> <p>The Board conducts its annual evaluation process through the Corporate Governance and Compensation Committee. It has adopted an internal self-rating system and procedure to determine and measure compliance vis-à-vis good corporate governance principles and practices as prescribed in the Code of Corporate Governance: (i) Each Director self-rates and collectively rates the Board, the Chairman of the Board, and the President; (ii) Corporate Governance, Audit, Risk Oversight and other Board committees conduct self-rating.</p> <p>The summary results of the performance evaluation are presented to the Corporate Governance and Compensation Committee and endorsed to the Board. For 2019, the overall assessment showed that the Board, Board committees, the individual directors, the Chairman, and the President possess the right mix of backgrounds and competencies to fulfill their duties and the Bank has fully complied with the materials requirements of the SEC Code of Corporate Governance.</p> <p><b>Source:</b></p> <ul style="list-style-type: none"> <li>• <b><u>Website: About Us &gt; Corporate Governance &gt; Metrobank Corporate Governance Manual 2019, page 50</u></b></li> <li>• <b><u>Website: About Us - Company Disclosure - 2019 Combined Annual Report and Sustainability Report, page 50</u></b></li> </ul>

**2019 FINANCIAL STATEMENTS**

- Summary of Financial Statements (p. 1)
- Results of Operation (p. 2)

Metropolitan Bank & Trust Company (Metrobank) posted an audited consolidated net income of Php28.1 billion in 2019, representing a 27% increase year-on-year.

In 2019, net interest income expanded 12% to Php77.0 billion, accounting for 72% of Metrobank’s total revenues of Php106.9 billion, bringing net interest margin to 3.8%.

Meanwhile, non-interest income rose 26% to Php29.9 billion, benefiting from higher customer flows in fixed income and foreign exchange, on top of a favorable financial market environment. Service fees and commissions grew 12% to Php14.3 billion, while trading and FX gains more than tripled to Php9.3 billion.

With the continued focus on improving efficiency and productivity, operating expense grew at a manageable level of 8%. This, coupled with relatively strong revenue growth for the period, led to an improvement in the cost-to-income ratio to 54.6% from 58.5% in 2018.

In 2019, Metrobank allotted Php10.1 billion provision for credit and impairment losses and Php10.1 billion provision for income tax.

As a result, Metrobank registered 9.5% in return on average equity and 1.2% in return on average assets.

The Philippine Stock Exchange index (PSEi) closed 2019 at 7,815.26, up 5% year-on- year. Metrobank’s share price at the end of 2019 was at Php66.30 per share for a market capitalization of Php298.2 billion.

- Financial Condition (p. 3)

Metrobank grew CASA deposits by 12% from Php964.9 billion in 2018 to Php1.1 trillion in 2019, driving overall robust deposit growth of 10% to Php1.7 trillion. As such, the Bank closed 2019 with an improved 63% CASA ratio, providing liquidity to support loan growth of 7% to Php1.5 trillion. Aligned with continued Philippine economic expansion, the rise in credit demand was driven by the commercial segment’s 7% increase as well as sustained consumer lending growth led by the 23% jump in the credit cards business.

Modest portfolio growth ensured adherence to the Metrobank’s credit standards.

<p>5. The company discloses in the Annual Report the key risks to which the company is materially exposed to (i.e. financial, operational including IT, environmental, social, and economic).</p>	<p>COMPLIANT</p>	<p><b>2019 COMBINED ANNUAL REPORT AND SUSTAINABILITY REPORT: Material Risks</b></p> <p>As a Domestic Systemically Important Bank (DSIB), Metrobank faces a broad range of risks reflecting such a status. These risks include those resulting from its lending activity, treasury operations, and extensive client-facing network, including its branches. The Bank recognizes that it is not possible or necessarily desirable to eliminate some of the risks inherent in its activities. Acceptance of some risk, therefore, is often necessary to foster growth and efficiencies within business practices. At all times, however, the Bank ensures that any risk-taking activity is aligned with its corporate objectives and capabilities, and that an effective risk management process is in place. The following are some of the material risks the Bank faces and the strategies for managing the same. Supplemental discussions and disclosures are likewise found under Note 4 of the 2019 Audited Financial Statements (AFS).</p> <p><u>Credit Risk</u></p> <p>Credit Risk is the risk that the borrower, issuer or counterparty in a transaction may default and cause potential loss to the Bank. It arises from lending, trade finance, treasury, derivatives, and other similar activities. The Bank’s appetite for this risk is low-to-moderate, reflective of its core business and the social responsibility that comes with being one of the financial system’s largest lenders.</p> <p>As a matter of general strategy, the Bank manages this risk through a system of policies, metrics, and authorities that govern the processes and practices of all credit-originating and relationship management units, as well as other units involved in the credit cycle. On the transactional and portfolio levels, to ensure that financial undertakings are balanced with prudential control, the Bank is guided by a credit process that begins with the Bank’s defined strategies and risk appetite driving the ensuing steps of origination, evaluation, approval, availment, and monitoring.</p> <p>The Bank holds collateral against loans and advances to customers in the form of mortgage interests over property, other registered securities over assets and guarantees. Estimates of fair value are based on the value of collateral assessed at the time of borrowing and are updated regularly following internal and regulatory guidelines. Generally, collateral is not held over loans and advances to other banks, except when securities are held as part of reverse repurchase and securities borrowing activities. Collateral usually is not held against investment securities. The Bank also holds collateral against loans and receivables in the form of hold-out on deposits, real estate mortgage, standby letters of credit or bank guaranty, government guaranty, chattel mortgage, assignment of receivables, pledge of shares, personal and corporate guaranty, and other forms of security.</p> <p>The standards of acceptability, valuation, enforceability, and monitoring/reporting of sufficiency of risk mitigants are covered by Board approved policies and procedures. Notes 4 and 9 of the 2019 AFS present an estimate of the fair values of collaterals held against loans and receivables.</p>	

	<p>To ensure that the portfolio remains within the defined strategy and risk appetite, constant monitoring is performed by both front and middle offices. Lending units, in coordination with Credit Group, evaluate the performance of their accounts, and make regular presentations on watch-listed/ classified accounts to the Non- Performing Asset Committee (NPAC) which provides direction on the next steps for the concerned problem accounts.</p> <p>Independently, the RSK-Credit Risk Division monitors the Bank’s credit portfolio against set limits, and reviews sample accounts of the various business groups, focusing on credit quality and policy compliance, to provide assurance and control over the effectiveness of the credit risk management process throughout the Bank. The results of these activities are regularly reported to the ROC.</p> <p><u>Credit Concentration Risk</u>  Credit Concentration Risk is the current and prospective negative impact to earnings and capital arising from over-exposure to specific industries and/or borrowers or counterparties. The Bank has a moderate appetite for this risk, recognizing that specific growth areas may need credit support more than others, and that lending to highly integrated customers often lead to pockets of concentration. The Bank manages this risk via adherence to processes relating to industry and counterparty assessments, observance of regulatory ceilings, and setting of internal limits. Additional discussions and disclosures may be found in Note 4 of the 2019 AFS.</p> <p><u>Market Risk</u>  Market Risk results from adverse movements in the general level of or volatility of market rates or commodity/equity prices possibly affecting the Bank’s financial condition. With due consideration of macroeconomic conditions, financial markets trends, and possible events/regulations that would affect these, and of the risk appetite set by the Board of Directors, Senior Management, through the Asset and Liability Committee (ALCO), sets a general business model for its trading portfolio. This is implemented by the Financial Markets Sector which originates transactions and/or crafts new products needed by clients, whilst keeping itself updated on the financial environment and working within set limits and policies.</p> <p>The Bank’s appetite for this risk is low, and manages this risk via a process of identifying, analyzing, measuring, and controlling relevant market risk factors, and establishing appropriate limits for the various products and exposures. Quantitative expressions of this appetite include Value-at-Risk limits, rolling 21-day P/L triggers, rolling 21-day stop loss limits, YTD trigger/limits, product caps, sensitivity limits, tenor limits, and qualitative limits. These limits are always set against the expected returns to ensure that the risk taken is commensurate to the benefit that the Bank will reap from such trading activity. To remain relevant, they are reviewed at least annually, with possible changes within the year as dictated by the emergence of new regulations, developments in the market risk management landscape, complexity of the products being traded, and other major movements in the business environment.</p> <p>The Bank maintains Limits Monitoring and Reporting Guidelines which detail how the risk measures are compared against the approved limits. Included in the guidelines are the set of standard procedures in handling excesses or breaches in limits</p>

and loss trigger hits. On a daily basis, the RSK-Market and Liquidity Risk Division provides the limits compliance reports to key officers of the business units and RSK. The results of the limits monitoring process are also reported to ALCO on a weekly basis and to the ROC and BOD on a monthly basis.

Further discussions and disclosures are found under Note 4 of the 2019 AFS.

Interest Rate Risk in the Banking Book (IRRBB)

Interest Rate Risk in the Banking Book is the current and prospective negative impact to earnings and capital arising from movements or shifts in interest rates. The risk becomes inherent in the current and prospective interest gapping of the Bank's balance sheet, as the Bank's core business involves intermediation activities such as deposit-taking and lending that inadvertently creates both maturity and rate mismatch. This translates to a possible negative impact to the Net Interest Income (NII) and economic value, as interest rate movements affect interest earned/paid as well as the value of assets, liabilities, and off-balance sheet items. Thus, before embarking on any new asset and liability management (ALM) strategy, both the Financial Markets Sector and RSK perform separate assessments on profitability and risks considering the impact of movements in rates. This ensures that the strategy will not result to a risk level higher than what is deemed to be the appetite of the Bank.

The appetite for this risk is low. The Bank follows a set of policies on managing its assets and liabilities so as to ensure that exposure to fluctuations in interest rates are kept within acceptable limits. This set of limits is a major tool in monitoring and controlling the degree of interest rate risk that the banking book is exposed to at any given point in time. Limits include Earnings-at-Risk (NII-at-Risk) limits, management action triggers (MAT), Delta Economic Value of Equity ( $\Delta$ EVE) limits, FVOCI MtM loss triggers, position limits, and tenor limits.

The limits are proposed by the RSK, in coordination with the Strategic Planning Division and Treasury Group, against the expected income and capital, to ensure that risk taken is commensurate to the returns the Bank will generate from its banking book positions. Also considered are the actual NII, strategies, economic forecasts, and results of stress testing.

The limits are reviewed annually or on an interim basis to ensure that these reflect the business environment, changes in strategies, and regulations.

The Bank maintains Limits Monitoring and Reporting Guidelines which detail how the related risk measures are compared against the approved limits. Included in the guidelines are the set of standard procedures in handling excesses or breaches in limits and loss trigger hits.

On a daily basis, the RSK-Market and Liquidity Risk Division provides the IRRBB limits compliance reports to key officers of the business units and RSK. The results of the limits monitoring process are also reported to ALCO on a weekly basis and the ROC and BOD on a monthly basis.

Liquidity Risk

	<p>Liquidity Risk is the risk to earnings or capital arising from the Bank's inability to meet its obligations when they become due. The Bank considers liquidity risk as the most important considering that liquidity is the lifeline of any bank. As such, the appetite for liquidity risk is low.</p> <p>The Bank's strategy for managing this risk is generally via limiting the maturity mismatch between assets and liabilities, improving the stickiness of its deposit and liabilities profile, and by holding sufficient liquid assets of appropriate quality and marketability.</p> <p>The Bank's liquidity management practice is guided by a Funding Strategy Framework that serves as a blueprint for the utilization of the Bank's funding sources under both BAU and stress scenarios, while taking into consideration various internal and regulatory limits. The Bank's Macro Funding Strategy is to reduce liquidity risk by increasing the Bank's base for long term funding, which is put into motion with the Bank's Term Funding Plan over the next three years. In terms of short term funding, the Bank monitors various indicators of liquidity, including the Bank's usage of its BAU Funding Capacity and Intraday Liquidity. The Bank also maintains a Contingency Funding Plan to ensure preparedness to withstand stress scenarios.</p> <p>The Bank recognizes that liquidity risk is one of its most important risks, and that it has to be managed promptly and properly as any mistake can lead to a bank run and, ultimately, its insolvency which could further trickle down to the financial industry considering its role as a DSIB. As such, it sets limits or triggers on cashflows over specific periods of time (Maximum Cumulative Outflow limit), available funding sources (Liquidity Coverage Ratio MAT, Net Stable Funding Ratio MAT, Funding Utilization MAT) and funding concentration (Funding Concentration MAT) to ensure that the level of the Bank's liquidity is adequate to support funding requirements at all times.</p> <p>Similar with other risks, the liquidity risk limits and policy guidelines are reviewed annually or on an interim basis, as deemed necessary to ensure that they remain prudent and relevant.</p> <p>The Treasury Group-Asset &amp; Liability Management Division (TG-ALMD) is the primary unit responsible for managing the liquidity of the Bank, its foreign branches and selected subsidiaries. It manages and closely monitors the daily, as well as short-to-medium term liquidity positions of the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU) books. It also ensures that the Bank complies with regulatory liquidity and reserve requirements.</p> <p>On the other hand, the RSK-Market and Liquidity Risk Division generates liquidity risk reports on a daily basis. At a minimum, the reports provide the exposures and established thresholds to determine compliance with limits and identify emerging concerns on liquidity. The exposures and profiles are provided to TG-ALMD on a daily basis and reported to the ALCO on a weekly basis, and to the ROC and the BOD monthly. Any breach in liquidity risk limits are reported to the appropriate level of management for immediate action.</p> <p><u>Operational Risk</u> Operational Risk arises from the potential that inadequate information system, operations or transactional problems</p>	
--	---	--

	<p>(related to service or product delivery), breaches in internal controls, fraud or unforeseen catastrophes will result in unexpected loss.</p> <p>The Bank's operational risk management framework seeks to constantly identify, assess, monitor, mitigate, and control key areas where losses would most probably materialize or where losses would be significant. It espouses a mitigation and control culture of risk management being everyone's responsibility, and is to be performed by three (3) lines of defense:</p> <ol style="list-style-type: none"> <li>a. First Line of Defense – Business Units</li> <li>b. Second Line of Defense – RSK's Head Office Operational Risk Management Division (HOORMD) and Branch Operational Risk Management Division (BORMD)</li> <li>c. Third Line of Defense – Internal Audit Group</li> </ol> <p>Operational risk management tools include the following:</p> <ol style="list-style-type: none"> <li>a. Process Risk and Control Self-Assessment (Process RCSA)</li> <li>b. Risk Event Database (RED)</li> <li>c. Results of internal/external audit and supervisory issues raised in the BSP Report of Examination (ROE)</li> <li>d. Risk Incident Report (RIR)</li> <li>e. System Risk and Control Self- Assessment (System RCSA)</li> <li>f. Business Process Mappings</li> <li>g. Disaster Risk Assessment</li> <li>h. Business Impact Analysis</li> </ol> <p>The Bank's appetite for operational risk is low, and is managed via a framework involving various tools that promote a strong control environment, escalation, monitoring and reporting of risk events, and adequate mitigation of assessed risks. In particular, this appetite is manifested in the thresholds it sets for institutional and business unit level key risk indicators (KRIs) and key performance indicators (KPIs). KRIs are used to monitor main drivers of exposures associated with key risks; while KPIs give insight into the status of operational processes which may, in turn, provide an understanding of the operational weaknesses, failures, and potential losses. Both are used with escalation triggers to warn when risk levels approach or exceed acceptable ranges, and prompt mitigation plans.</p> <p>Mitigation and control of the Bank's identified operational risks call for the preparation of a Risk Treatment Plan which identifies, assesses, prepares, and implements a range of risk treatment options. Depending on the availability/feasibility of preventive/corrective measures, and the benefits that come from an exposure, the Bank may choose from the following approaches to treat risks: Acceptance, Avoidance, Transfer, and Reduction.</p> <p>Following the general risk management framework where risks are monitored in both individual and portfolio bases, institutional and business unit level KRIs and KPIs are regularly monitored and reported to appropriate management committees and to the Board of Directors through the Risk Oversight Committee.</p> <p>At the micro level, business/ operating units, as the Bank's first line of defense, are responsible for identifying, measuring,</p>	
--	--	--

		<p>controlling, monitoring, managing, and reporting operational risks on day-to-day basis. As risk incidents affecting their area of operation occur, they are mandated to report such within 24 hours through the Risk Incident Report (RIR). The units are further assisted by their Business Risk Managers (BRMs) who are expected to monitor the effectiveness of the internal controls in all activities and of the established KRIs.</p> <p>On a bank-wide level, the HOORMD and BORMD monitor the operational risk profiles, material exposures, and current status of established KRIs and KPIs of Head Office units and of the branches, respectively; and report these to senior management and the BOD through the ROC.</p> <p><u>Technology Risk</u> Technology Risk is the current and prospective negative impact to earnings arising from failure of the Bank's IT systems, including information and cyber security. The Bank's appetite for IT risk is low. Its strategy in managing this risk is embodied in a comprehensive information technology management policy that encompasses IT risk assessment, vulnerability testing, monitoring, controls, and mitigation.</p> <p><u>Reputation Risk</u> Reputation Risk is the current and prospective negative impact to earnings and capital arising from negative public opinion. As a bank essentially survives on its reputation, the Bank has very low appetite for reputation risk and always aims to proactively build on its good name. The Bank holds that reputation risk is a consequence of other risks. Its management therefore is tied closely to the manner by which it manages its other risks. By ensuring effective identification, assessment, control, monitoring, and reporting of the other material risks, reputation risk is likewise effectively managed.</p> <p><u>Compliance and Regulatory Risk</u> Compliance and Regulatory Risk is the current and prospective negative impact to earnings and capital arising from failure to comply with all applicable laws, regulations, and standards of good governance and practice. The appetite for this risk is low, and is managed via the conduct of a defined Compliance program. Specific to Money Laundering &amp; Terrorist Financing (ML/TF) Risk, the Bank has zero tolerance for the same, and is managed separately by the Bank's Anti- Money Laundering Division (AML) reporting directly to the Board's AML Committee.</p> <p><u>Strategic Risk</u> Strategic Risk is the current and prospective negative impact to earnings arising from adverse business decisions, improper implementation of decisions, and/or lack of responsiveness to industry changes. The Bank's strategy in managing this risk is to embed the same in the various business functions as espoused in its strategic and business planning processes.</p> <p><b>Source:</b></p> <ul style="list-style-type: none"> <li>• <b><u>Website: About Us &gt; Company Disclosure &gt; Metrobank 2019 Combined Annual Report and Sustainability Report, pages 57-60</u></b></li> </ul>

<p>2. Company has an adequate and effective enterprise risk management framework in the conduct of its business.</p>	<p>COMPLIANT</p>	<p>The Risk Management Group (RSK) is an independent unit of the Bank that identifies, analyzes, measures, and monitors identified material risks in close coordination with other business units. It exercises oversight on the risk management units of various subsidiaries and affiliates with the goal of ensuring compliance with relevant regulations, and the implementation of a consistent risk management framework across the Metrobank group.</p> <p>RSK reports directly to the Board of Directors through the Risk Oversight Committee, which is composed primarily of independent members of the Board. The Committee’s active role in overseeing the Bank’s risk infrastructure, operating policies, and exposures ensures a good balance between risk appetite and prudence.</p> <p><b>Risk Management Principles</b> Ultimately this philosophy of balancing risk and reward translates to the following risk management principles:</p> <ul style="list-style-type: none"> <li>○ Because risk is native to the banking business, the Bank manages risks that correspond to its goals and objectives as an ongoing business;</li> <li>○ As the business landscape evolves, the Bank’s risk management practices must likewise remain appropriate and practicable, but always in consonance with standards set by its regulators;</li> <li>○ The Bank must ensure that it has the right risk governance structure in order to minimize the chances of risks becoming real losses while exploiting the gains that may accrue from business opportunities; and</li> <li>○ Risk management is everyone’s concern – from the Board who sets the overall tone, to the officers and staff who execute the Bank’s risk management strategy.</li> </ul> <p><i>The Risk Management Process</i> The Bank’s risk management process focuses on the interplay among business, concomitant risks, and required capital with the goal of sustaining the franchise through the rise and ebb of the business cycle. It provides the engine for the determination of the Bank’s strategic goals, its material risks, and its appetite for said risks. Risk exposure identification, measurement, management, and monitoring provide the support on which business budgets are afforded the chance of being achieved and for which capital adequacy to support the effort is continuously assured.</p> <p>Metrics and risk assessment tools, both adopted from regulation and best practice and internal to the Bank are then used to measure identified risks. The use of these tools complements the conduct of business as they help prevent risks from being realized into serious issues, as well as cue the possibility of any instance that capital may be called to absorb losses.</p> <p><b>Sources:</b></p>
