INVESTMENT OBJECTIVE AND STRATEGY

The Fund intends to achieve for its participants income from a portfolio of preferred shares listed at the Philippine Stock Exchange (PSE) and peso-denominated fixed income securities.

The Fund may invest up to 40% of its total assets in preferred shares.

The Fund's composite benchmark is composed of 60% Markit iBoxx ALBI Philippines 1-5 and 40% BPI Philippine Corporate Bond Index.

UNIT PAYING FEATURE MECHANICS

Eligibility for Unit Income Distribution	All registered participants with outstanding investment in the Fund as of one (1) Banking Day (ex-date) prior to scheduled date of distribution shall be entitled to receive their pro-rata share of income through units.
Unit Distribution Frequency	Eligible participants shall receive unit income on a quarterly basis every third Monday of February, May, August and November of the year.
Basis of Units to be Paid-out	The units to be distributed to all eligible participants shall be based on one hundred percent of the collected effective income of the Fund from interest and cash dividends within the three month period, less applicable taxes, fees and expenses. There is no guaranteed income amount for distribution.
Unit Distribution Settlement	Units received by the participant shall be automatically redeemed on distribution date and credited to the participant's settlement account one banking day after distribution date.

CLIENT SUITABILITY

A client profiling process is performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are encouraged to update the resulting profile every three (3) years or if there's any change in his/her personal/financial circumstances. Before deciding to invest, clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, or seek an independent/professional opinion when necessary.

The METRO UNIT PAYING FUND is suitable only for investors who:

- Have a Moderate profile.
- Want income to be distributed on a quarterly basis, and capital appreciation over time by investing in a portfolio of fixed income instruments and preferred shares listed in the Philippine Stock Exchange.
- Recommended investment horizon is at least five (5) years
- Participation in the Fund shall be open to Filipino individuals, resident and non-resident aliens and corporate accounts.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Interest Rate Risk:	The possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
Market/Price Risk:	The possibility for an investor to experience losses due to changes in the market prices of bonds and stocks/equities. It refers to the portfolio's exposure to marked-to-market valuation due to market price fluctuations of the bonds and stocks/equities.
Liquidity Risk:	The possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a price that could result in a loss. This may be caused by low trading volume due to different reasons such as securities with small or few outstanding issues, absence of buyers and/or sellers (limited buy/sell activity) or underdeveloped capital market.
Credit Risk / Default Risk:	The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of fixed income security which the borrower issued. This inability of the borrower or counterparty to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security.
Reinvestment Risk:	The possibility of having lower returns or earnings when funds mature and are reinvested. Investors in the UITF who redeem and realize their gains run the risk of reinvesting their funds in an alternative investment outlet with lower yields. Similarly, the UIT fund manager is faced with the risk of not being able to find better yielding alternative investment outlets as some of the securities in the fund matures.
Other Risks:	Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by Metrobank. These transactions may include own-bank deposits; purchase of own-institution or affiliate obligations (stocks, mortgages); purchase of assets from or sales to own institution, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts.

The Fund invests only in high-credit quality assets which are evaluated using a rigorous internal scoring model required under the Trustee's accreditation process and BSP regulations. Internal risk limits and position limits together with regulatory exposure limits are monitored, reviewed and strictly adhered to on a daily basis. The Fund may also use financial derivatives solely for hedging risk exposures.

THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC). RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY. WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.

THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

Unit Investment Trust Funds

INVESTMENT POLICY

The Fund may be invested and reinvested in the following instruments:

- Deposits
- BSP deposit facilities
- Repurchase Agreements (Repos)
- Government Securities
- Corporate Bonds
- Other money market instruments that are traded in an organized exchange
- Preferred shares listed in the Philippine Stock Exchange
- Other investments allowed under BSP regulations

OUTLOOK AND STRATEGY

The BSP raised its policy rate by 75bps last Nov 17, this time mirroring the US Federal Reserve's move in early Nov. BSP Governor Medalla said the aggressive hike was necessary in view of the elevated core inflation and the need to soften risks of second-round effects. Inflation continues to sizzle; 7.8% in October reached 7.8% then 8.0% in Nov. With its sixth hike, the RRP now stands at 5.0% from 2.0% at the start of the year and is just 100 basis points ahead of the Fed's 4.0%, its narrowest spread in history. The BSP also raised its full-year inflation forecasts to 5.8% in 2022, 4.3% in 2023, and 3.1% in 2024 (previously at 5.6%, 4.1%, and 3.0%, respectively).

Peso GS yields were generally flat, up by just an average of 2bps across the curve, while the 7y and 10y yields fell by 22bps and 25bps respectively.

The Bureau of Treasury (BTR) partially met their funding requirements as investors demanded for higher yields. One notable auction was the re-issuance of FXT2014 at a high of 7.50% last November 8 which disrupted the market somewhat although some semblance of order was restored with the auctions of the 12yrs and 20yrs which fetched 8.168% and 8.012% respectively. The BTR will offer Php 105 Bn worth of bills and bonds in December, lower than the 140Bn size last month. While BTR's December bond borrowing program will cover 5Y, 12Y, and 20Y bonds.

Note: The KIIDS of the Metro Unit Paying Fund is issued every end of February, May, August and November of the year.

IMPORTANT NOTICE

Metropolitan Bank and Trust Company is regulated by the Bangko Sentral ng Pilipinas (BSP).
