APPENDIX I

METRO\$ US EQUITY FEEDER FUND
(formerly Metro\$ S&P 500 Feeder Fund)
FUND SPECIFICATIONS
(Amended)

1. Investment Objective (Sec. 3, Art. II)

- a. The Fund aims to provide market returns from a representative portfolio of stocks that comprise the US Equity Market by investing at least 90% of its assets in the **ISHARES CORE S&P 500 ETF**.

The Investor Fund will have only one Target Fund at any given time. The Target Fund may be changed from time-to-time subject to regulations and the stipulations contained in this DOT.

The Fund is suitable for clients with an aggressive risk profile.

- b. **The benchmark of the fund is the S&P 500 Total Return Index, the same benchmark as the target fund, iShares Core S&P 500 ETF. The fund's benchmark, being the same as the target fund, provides reference for acceptable returns on a diversified equity portfolio composed of US equities representing about 80% of all US publicly-listed equities.**

This provides investors ample exposure in the US markets.

Key Characteristics of the benchmark. The fund's benchmark includes the 500 leading US companies and covers approximately 80% of the available market capitalization in the US equity market. Constituents are rebalanced on a quarterly basis on the third Friday of March, June, September, and December.

Further details regarding the benchmark are available from Bloomberg and at the official website of S&P Global/ S&P Dow Jones Indices.

2. Investment Policy (Sec. 3, Art. II)

- a. Pursuant to the foregoing objectives, the Investor Fund may be invested and reinvested in the following instruments:
- i. US Dollar-denominated units/shares in collective investment schemes subject to the conditions enumerated under BSP Circular 767;
 - ii. US Dollar-denominated deposits with local banks/branches of foreign banks operating in the Philippines;
 - iii. US Dollar-denominated money market instruments that are traded in an organized exchange; or
 - iv. Other US Dollar-denominated Investments allowed under regulations issued by the Bangko Sentral Ng Pilipinas; and

- v. Financial derivatives instruments solely for the purpose of hedging risk exposures of the existing investments of the Investor Fund, provided these are accounted for in accordance with existing BSP hedging guidelines and disclosed to participants.
 - b. The Investor Fund may invest a minimum of 90% of its fund in the Target Fund and a maximum of 10% in cash, deposits and other money market instruments. The investment of the Investor Fund in any one Target Fund shall not exceed ten percent (10%) of the Total Net Asset Value of the Target Fund.
 - c. The Investor Fund may temporarily hold cash and deposits for a maximum period of thirty (30) calendar days in excess of regulatory or defined cash allocation limits during the transitory period while the Investor Fund switches Target Fund or when the 10% exposure limit to the Target Fund has been breached and the Fund Manager is in the process of divesting the excess exposure.
 - d. The Target Fund's investment objectives must be aligned with that of the Investor Fund.
 - e. The Target Fund may be invested and reinvested in the following instruments:
 - i. Global-denominated Investments allowed under regulations issued by the Bangko Sentral Ng Pilipinas;
 - ii. Global-denominated Exchange-listed securities; or
 - iii. Global-denominated deposits with local banks/foreign banks.
 - f. The Target Fund may not invest in other collective investment schemes.
 - g. The combined exposure of the Target Fund to any entity and its related parties shall not exceed fifteen percent (15%) of the market value of the Target Fund: Provided, that the Target Fund invested, partially or substantially, in exchange traded equity securities shall be subject to the 15% exposure limit to a single entity/issuer: Provided further, that, in the case of an exchange traded equity security which is included in an index and tracked by the Target Fund, the exposure of the Target Fund to a single entity shall be the actual benchmark weighting of the issuer or 15%, whichever is higher. **The limitation shall not apply to non-risk assets as defined by the Bangko Sentral ng Pilipinas.**
 - h. A Target Fund constituted in another jurisdiction shall be registered/authorized/approved, as the case may be, in its home jurisdiction by a regulatory authority that is a member of the International Organization of Securities Commissions (IOSCO).
3. **Target Fund Description** The chosen Target Fund is the **iShares Core S&P 500 ETF** ("Fund"). The pertinent features of this Fund and the Target Fund are as follows:
- a. Domicile – United States of America
 - b. Investment Objective, Strategy and Policy of the Fund - The Fund seeks to track the investment results of the S&P 500 (the "Underlying Index"), which measures the performance of the large-capitalization sector of the U.S equity market. The Fund will concentrate its investments in a particular industry or group of industries to approximately the same extent

that the Underlying Index is concentrated. The securities of the US government (including its agencies and instrumentalities) and repurchase agreements collateralized by US government securities are not considered to be issued by members of any industry.

The Fund generally invests at least 90% of its assets in securities of the Underlying Index and in depositary receipts representing securities of the Underlying Index. The Fund may also invest the remainder of its assets in certain futures, options and swap contracts, cash and cash equivalents, including shares of money market funds, as well as in securities not included in the Underlying Index. It may also lend securities representing up to one-third of the value of the Fund's total assets (including the value of the any collateral received).¹

- c. Target Fund Structure – The Fund is designed to track an index. Shares of the Fund are listed for trading on NYSE Arca Inc. (“NYSE Arca”) and invested in a particular segment of the securities markets and seeks to track the performance of a securities index that generally is not representative of the market as a whole. The market price for a share of the Fund may be different from the Fund's most recent NAV. Similar to shares of an index mutual fund, each share of the Fund represents an ownership interest in an underlying portfolio of securities and other instruments intended to track a market index. Unlike shares of a mutual fund, which can be bought and redeemed from the issuing fund by all shareholders at a price based on NAV, shares of the Fund may be purchased or redeemed directly from the Fund at NAV solely by the Authorized Participants. Also unlike shares of a mutual fund, shares of the Fund are listed on a national securities exchange and trade in the secondary market at market prices that change throughout the day. Further, the Fund is designed to be used as part of broader asset allocation strategies. Accordingly, an investment in the Fund should not constitute a complete investment program².

As of March 31, 2016, the Underlying Index included approximately 80.73% of the market capitalization of all publicly-traded U.S. equity securities. The component stocks are weighted according to the float-adjusted market value of their outstanding shares. The Underlying Index consists of stocks from a broad range of industries. Components primarily include financials, healthcare and information technology companies. The components of the Underlying Index, and the degree to which these components represent certain industries, are likely to change over time.³

- d. Performance comparison index – S&P 500 TR 4 JAN 1988 (SPTR Index).
- e. General risks – The Fund is subject to various risks, such as but not limited to market risk, operational risk, industrial risk, sectoral risk, currency risk and country/political risk, which may adversely affect the Fund's NAV, trading price, yield, total return and ability to meet its investment objective. Investors may lose all or part of his investment in the Fund, and the Fund could underperform other investments.⁴
- f. The investments of the Target Fund shall be reviewed by the Investment Management Group of the Trustee to ensure that it complies with all regulatory requirement and investment restrictions for Target Funds and will be subject to validation by the Trustee's Risk Management Group;
