### **Key Performance Indicators**

The performance of the Metrobank Group and its significant majority-owned subsidiaries are measured by the following key indicators:

			Performance In	dicators	
Company Name	Book Value Per Share	Basic/ Diluted Earnings Per Share	Return on Average Equity	Return on Average Assets	Net Interest Margin on Average Earning Assets

### For the Year 2023

Metrobank Group	₽79.33	₽9.39	12.51%	1.42%	3.90%
FMIC (a)	2,200.97*	74.09*	3.46%	1.72%	5.29%
ORIX METRO	140.69	6.48	4.70%	2.22%	8.31%
PSBank	94.07	10.61	11.72%	1.80%	5.18%

### For the Year 2022

Metrobank Group	P70.84	P7.29	10.29%	1.23%	3.56%
FMIC (a)	41.59	0.98	2.35%	1.12%	2.47%
ORIX METRO	135.10	3.29	2.47%	0.94%	7.83%
PSBank	87.01	8.62	10.21%	1.40%	4.66%

<sup>(</sup>a) FMIC and Subsidiaries

A separate schedule showing financial soundness indicators of the Metrobank Group as of December 31, 2023 and 2022 is presented in Exhibit "A" as an attachment to this report.

<sup>\*</sup> On September 15, 2023, the SEC approved the amendment on the Articles of Incorporation of FMIC thereby decreasing the number of authorized common shares from 800 million to 16 million shares with increase in par value from \$\mathbb{P}\$10 to \$\mathbb{P}\$500 per share.

### 2023 Performance

#### Financial Position

As of December 31, 2023, the audited consolidated total assets and total liabilities of the Metrobank Group stood at  $\upmathbb{P}3.10$  trillion and  $\upmathbb{P}2.74$  trillion, respectively. Compared with December 31, 2022, total assets and total liabilities went up by  $\upmathbb{P}261.81$  billion or 9.21% and by  $\upmathbb{P}223.16$  billion or 8.87%, respectively. On the other hand, equity attributable to equity holders of the Parent Company was higher by  $\upmathbb{P}38.16$  billion or 11.98% from  $\upmathbb{P}318.51$  billion to  $\upmathbb{P}356.67$  billion.

Due from BSP decreased by 17.74% driven by lower level of term deposit partially offset by the increase in level of overnight facility placements both maintained with BSP. Due from Other Banks increased by £15.06 billion or 19.96% as a result of the net movements in the balances maintained with various local and foreign banks.

Total investment securities which consisted of FVTPL, FVOCI and securities at amortized cost represents 34.85% and 32.07% of the Group's total assets as of December 31, 2023 and 2022, respectively, went up by P170.28 billion or 18.67%. Securities at amortized cost went up by P152.86 billion particularly on treasury notes and government bonds. FVTPL securities consist of debt and equity securities and derivative assets amounting to P46.13 billion, P6.80 billion and P21.92 billion, respectively, as of December 31, 2023 and P32.0 billion, P7.16 billion and P24.44 billion, respectively, as of December 31, 2022. FVOCI securities increased by P6.16 billion due to higher portfolio of debt securities particularly treasury notes and bonds.

Net loans and receivables, representing 49.51% and 49.89% of the Group's total assets as of December 31, 2023 and 2022, respectively, went up by P118.78 billion or 8.37% driven by the growths in corporate loans, consumer loans and credit card portfolios.

Investments in Associates and a Joint Venture went up by ₱0.36 billion or 6.19% due to the net income and other comprehensive income contributed by the associates of FMIC. Deferred Tax Assets increased by ₱0.81 billion or 6.05% due to movements on temporary tax differences particularly on allowance for credit and impairment losses. In 2023, the Group recognized impairment loss of ₱474.3 million on the outstanding goodwill. Other Assets on the other hand, increased by ₱3.53 billion or 32.52% from ₱10.86 billion to ₱14.39 billion primarily due to the movements in miscellaneous assets.

Deposit liabilities represent 87.02% and 88.32% of the consolidated total liabilities as of December 31, 2023 and 2022, respectively, wherein, low cost deposits represent 60.41% and 66.61% of the Group's total deposits, respectively. The Group's deposit level, sourced by the Bank, PSBank and MBCL reached P2.38 trillion as of December 31, 2023, an increase of P161.65 billion or 7.28% from P2.22 trillion as of December 31, 2022. The increment came from time deposits by P210.47 billion partially offset by the P40.18 billion decrease in CASA deposits and the maturity of the P8.65 billion LTNCD of the Parent Company.

Bills Payable and SSURA went up by \$\mathbb{P}65.57\$ billion or 71.81% mainly due to higher level of SSURA from \$\mathbb{P}67.12\$ billion as of December 31, 2022 to \$\mathbb{P}134.80\$ billion as of December 31, 2023. Manager's Checks and Demand Drafts Outstanding increased by \$\mathbb{P}0.55\$ billion or 8.41% as a result of the normal banking operations of the Bank and PSBank. Income taxes payable increased by \$\mathbb{P}2.12\$ billion or 143.64% due to higher tax base for the last quarter of 2023.

Accrued Interest and Other Expenses went up by \$\mathbb{P}\$5.83 billion or 41.77% wherein accrued interest increased by \$\mathbb{P}\$3.53 billion while accrual for other bank expenses increased by \$\mathbb{P}\$2.30 billion. Bonds payable decreased by \$\mathbb{P}\$18.32 billion or 20.72% due to maturities of the \$\mathbb{P}\$13.75 billion and \$\mathbb{P}\$4.65 billion fixed rate bonds of the Parent Company and PSBank, respectively. Subordinated debts decreased by 100% due to maturity of the \$\mathbb{P}\$1.17 billion peso notes of the Parent Company. Other liabilities increased by \$\mathbb{P}\$6.81 billion or 10.64% due to movements in accounts payable, retirement liability, bills purchased contra account and marginal deposits.

The ₱0.49 billion or 5.12% increase in equity of non-controlling interest was attributed to the net income generated by the majority-owned subsidiaries of the Parent Company for the year ended December 31, 2023. On the other hand, equity attributable to equity holders of the Parent Company increased by ₱38.16 billion or 11.98% on account of the ₱42.24 billion net income reported during the year reduced by the ₱13.49 billion total cash paid by the Parent Company plus the favorable movement in net unrealized loss recognized in investment securities at FVOCI from ₱23.08 billion in 2022 to ₱10.07 billion in 2023.

### Results of Operations

Net income attributable to equity holders of the Parent Company for the year ended December 31, 2023 amounted to \$\mathbb{P}42.24\$ billion and improved by \$\mathbb{P}9.46\$ billion or 28.87% from the \$\mathbb{P}32.78\$ billion net income reported in the previous year. The improvement was driven by the following:

Interest income went up by \$\mathbb{P}\$51.24 billion or 50.06% on account of higher interest income on loans and receivables by \$\mathbb{P}\$30.36 billion, on investment securities by \$\mathbb{P}\$17.96 billion, on interbank loans receivable by \$\mathbb{P}\$1.88 billion and on deposit with banks and others by \$\mathbb{P}\$1.05 billion. Meanwhile, increase in interest expense on deposit liabilities particularly on time deposits by \$\mathbb{P}\$29.70 billion and in interest expense on borrowings by \$\mathbb{P}\$2.10 billion accounted for the increase of \$\mathbb{P}\$31.80 billion or 188.83% in interest and finance charges. As a result, net interest income improved by \$\mathbb{P}\$19.44 billion or by 22.73%.

Other operating income of \$\text{P}28.50\$ billion increased by \$\text{P}1.71\$ billion or 6.39% from \$\text{P}26.79\$ billion in 2022 on account of the \$\text{P}1.36\$ billion increase in fee-based income, the \$\text{P}1.22\$ billion increase in profit from assets sold and the positive movement in foreign exchange gain from a loss of \$\text{P}2.43\$ billion in 2022 to a gain of \$\text{P}4.10\$ billion in 2023; reduced by the negative movement in trading and securities gain from a gain of \$\text{P}6.40\$ billion in 2022 to a loss of \$\text{P}94\$ million in 2023 and the \$\text{P}0.65\$ billion decrease in miscellaneous income.

Total operating expenses went up by ₱8.53 billion or 13.98% from ₱61.00 billion to ₱69.52 billion due to increases in taxes and licenses by ₱3.40 billion, manpower cost by ₱2.13 billion, and miscellaneous expenses by ₱1.94 billion. Total provision for credit and impairment losses of the Group amounted to ₱8.98 billion for the year ended December 31, 2023 or ₱0.87 billion higher compared with ₱8.11 billion provision in 2022. Provision for income tax was higher by ₱2.27 billion from ₱10.62 billion to ₱12.89 billion due to net movements in corporate, final and deferred income taxes.

Income attributable to non-controlling interests went up by P0.20 billion or 38.12% from P0.52 billion to P0.72 billion due to higher net income of majority owned subsidiaries.

Total comprehensive income went up by \$\mathbb{P}38.29\$ billion from \$\mathbb{P}14.00\$ billion for the year ended December 31, 2022 to \$\mathbb{P}52.29\$ billion for the same year in 2023 due to the net effect of the higher net income and favorable movement in net unrealized gain(loss) recognized on FVOCI investments for the year 2023 partially offset by the movement in remeasurement loss recognized on retirement plans. This caused the total comprehensive income attributable to equity holders of the Parent Company to increase by \$\mathbb{P}38.15\$ billion from \$\mathbb{P}13.50\$ billion for the year ended December 31, 2022 to \$\mathbb{P}51.65\$ billion for the year ended December 31, 2023. Total comprehensive income attributable to non-controlling interest increased by \$\mathbb{P}0.14\$ billion or 26.98%.

Market share price as of December 31, 2023 was at P51.30 (from P54.00 as of December 31, 2022) with a market capitalization of P230.72 billion.

### **2022 Performance**

### Financial Position

The audited consolidated total assets and total liabilities of the Metrobank Group as of December 31, 2022 stood at \$\mathbb{P}2.84\$ trillion and \$\mathbb{P}2.52\$ trillion, respectively. Compared with December 31, 2021, total assets and total liabilities went up by \$\mathbb{P}340.27\$ billion or 13.60% and by \$\mathbb{P}339.92\$ billion or 15.63%, respectively. On the other hand, equity attributable to equity holders of the Parent Company stood at \$\mathbb{P}318.51\$ billion as of December 31, 2022 and 2021.

Due from BSP which represents 8.89% of the Group's total assets decreased by 0.25% on account of lower levels of term deposit and overnight facility placements maintained with BSP. Due from Other Banks increased by \$\mathbb{P}\$26.64 billion or 54.56% as a result of the net movements in the balances maintained with various local and foreign banks.

Total investment securities which consisted of FVTPL, FVOCI and securities at amortized cost represents 32.07% and 31.30% of the Group's total assets as of December 31, 2022 and 2021, respectively, went up by P128.43 billion or 16.39%. The increase was due to the net effect of the growth in the portfolios of FVTPL and securities at amortized cost partially reduced by lower portfolio of FVOCI securities. Securities at amortized cost went up by P233.97 billion particularly on investments in treasury notes and bonds. FVTPL securities consist of HFT securities and derivative assets amounting to P39.16 billion and P24.44 billion, respectively, as of December 31, 2022 and P40.94 billion and

P9.85 billion, respectively, as of December 31, 2021. FVOCI securities decreased by P118.34 billion due to lower portfolio of debt securities.

Net loans and receivables, representing 49.89% and 49.39% of the Group's total assets as of December 31, 2022 and December 31, 2021, respectively, went up by P182.31 billion or 14.75% contributed by the growths in all segments – corporate, commercial and consumer (particularly credit card portfolio). Property and Equipment increased by P1.37 billion or 5.31% due to acquisitions of various furniture, fixture and office equipment, renovations of various branches and recognition of ROU assets on new assets/properties leased in 2022. Investment Properties increased by P0.57 billion or 7.83% due to new foreclosures during the year. Other Assets decreased by P1.39 billion or 11.38% from P12.25 billion to P10.86 billion primarily due to the net movements in miscellaneous assets and software cost.

Deposit liabilities represent 88.32% and 88.75% of the consolidated total liabilities of the Group as of December 31, 2022 and 2021, respectively, wherein, low cost deposits represent 66.61% and 75.78% of the Group's total deposits, respectively. The Group's deposit level, sourced by the Bank, PSBank and MBCL reached \$\mathbb{P}2.22\$ trillion as of December 31, 2022, an increase of \$\mathbb{P}290.84\$ billion or 15.07% from \$\mathbb{P}1.93\$ trillion as of December 31, 2021 on account of the growth in time deposits by \$\mathbb{P}277.37\$ billion and CASA deposits by \$\mathbb{P}16.83\$ billion partially reduced by the maturity of the \$\mathbb{P}3.36\$ billion LTNCD of PSBank.

Bills Payable and SSURA went up by \$\text{P20.99}\$ billion or 29.84% largely on account of the \$\text{P16.32}\$ billion increase in SSURA and \$\text{P4.67}\$ billion increases in other borrowings including interbank borrowings. Derivative Liabilities which represent mark-to-market of foreign currency forwards, interest rate swaps, cross currency swaps, foreign currency options and bond futures with negative fair value increased by \$\text{P8.52}\$ billion or 102.0%. The increase of \$\text{P1.11}\$ billion or 20.48% in Manager's Checks and Demand Drafts Outstanding resulted from the normal banking operations of the Bank and PSBank. Income Taxes Payable decreased by \$\text{P0.27}\$ billion or 15.49%. Accrued Interest and Other Expenses went up by \$\text{P4.10}\$ billion or 41.57% due to the increase in interest accruals for deposit liabilities and borrowings (volume-related) and other bank expenses. Bonds payable increased by \$\text{P8.59}\$ billion or 10.76% due to the net effect of the \$\text{P23.7}\$ billion additional bonds issued in October 2022; redemption of \$\text{P17.5}\$ billion fixed rate bonds in April 2022; and the movement in the peso value of the USD-denominated senior unsecured notes issued by the Parent Company. Other Liabilities increased by \$\text{P6.53}\$ billion or 11.36% primarily due to the increases in accounts payable, bills purchased contra account and marginal deposits.

Equity attributable to equity holders of the Parent Company stood at \$\mathbb{P}\$318.51 billion as of December 31, 2022 or a very minimal movement compared with previous year. The \$\mathbb{P}\$32.78 billion net income for the year reduced by the \$\mathbb{P}\$13.49 billion total cash dividends paid by the Bank and the \$\mathbb{P}\$19.33 billion increase in net unrealized loss recognized in investment securities at FVOCI, accounted for the minimal movement in this account.

### Results of Operations

For the year ended December 31, 2022, net income attributable to equity holders of the Parent Company improved to \$\mathbb{P}\$32.78 billion or by 47.93% (\$\mathbb{P}\$10.62 billion) from the \$\mathbb{P}\$22.16 billion net income reported in previous year. The increase was driven by the following:

Interest income went up by P15.19 billion or 17.43% mainly due to increases in interest income on investment securities by P9.62 billion (due to higher volume of investment securities at amortized cost), interest income on loans and receivables by P4.66 billion and interest income on interbank loans receivable by P0.68 billion. Meanwhile, total interest expense increased by P4.71 billion or 38.86% due to the net effect of the higher interest expense on deposit liabilities by P5.92 billion and lower interest expense on borrowings by P1.21 billion (mainly due to maturities of various fixed rate bonds). As a result, net interest income improved by P10.48 billion or by 13.96%.

Other operating income of \$\mathbb{P}26.79\$ billion was up by \$\mathbb{P}0.96\$ billion or 3.72% from \$\mathbb{P}25.83\$ billion in 2021 on account of higher fee-based income by \$\mathbb{P}1.62\$ billion and profit from asset sold by \$\mathbb{P}0.52\$ billion reduced by the \$\mathbb{P}1.33\$ billion decrease in net trading securities and foreign exchange gain.

Total operating expenses were maintained at almost same level with previous year and increased only by \$\text{P}1.52\$ billion or 2.56% from \$\text{P}59.47\$ billion to \$\text{P}61.0\$ billion contributed mainly by higher compensation and fringe benefits of \$\text{P}0.86\$ billion or 3.41% and miscellaneous expenses of \$\text{P}1.07\$ billion or 6.0% on account of the increases in IT expenses and advertising and publicity. Total provision for credit and impairment losses of the Group amounted to \$\text{P}8.11\$ billion for the year ended December 31, 2022 or \$\text{P}3.72\$ billion lower compared with \$\text{P}11.83\$ billion provision in 2021. Provision for income tax was higher by \$\text{P}2.84\$ billion from \$\text{P}7.78\$ billion to \$\text{P}10.62\$ billion due to net movements in corporate, final and deferred income taxes. Provision for income taxes in 2021 included the one-time adjustments on the corporate and deferred income taxes due to the effectivity of the new tax rate under CREATE law.

Income attributable to non-controlling interests went up to P0.52 billion from P0.21 billion or by P0.31 billion or 150.96% due to higher net income of majority owned subsidiaries.

Total comprehensive income went up by P1.30 billion from P12.70 billion for the year ended December 31, 2021 to P14.0 billion for the year ended December 31, 2022 mainly due to improvement in net income reduced by the increase in net unrealized loss recognized this year on FVOCI investments. This caused the total comprehensive income attributable to equity holders of the Parent Company to increase by P1.20 billion from P12.30 billion in 2021 to P13.50 billion for the year ended December 31, 2022.

Market share price as of December 31, 2022 was at P54.0 (from P55.70 as of December 31, 2021) with a market capitalization of P242.86 billion.

### **2021 Performance**

#### Financial Position

As of December 31, 2021, the Metrobank Group posted a total assets of \$\mathbb{P}2.50\$ trillion or higher by \$\mathbb{P}47.65\$ billion compared with \$\mathbb{P}2.46\$ trillion as of December 31, 2020. Total liabilities of the Group increased to \$\mathbb{P}2.18\$ trillion from \$\mathbb{P}2.12\$ trillion or by \$\mathbb{P}53.10\$ billion. On the other hand, equity attributable to equity holders of the Parent Company was lower by \$\mathbb{P}5.70\$ billion from \$\mathbb{P}324.20\$ billion to \$\mathbb{P}318.51\$ billion.

Cash and Other Cash Items increased by \$\mathbb{P}2.83\$ billion or 7.36%. Due from BSP which represents 10.12% of the Group's total assets decreased by 16.94% on account of lower level of overnight deposit facility placement partially offset by the increases in term deposit and reserve requirement. Due from Other Banks increased by \$\mathbb{P}10.60\$ billion or 27.72% as a result of the net movements in the balances maintained with various local and foreign banks. Interbank Loans Receivable and SPURA went down by \$\mathbb{P}8.95\$ billion or 11.27% due to the \$\mathbb{P}22.12\$ billion decrease in SPURA offset by the \$\mathbb{P}13.17\$ billion increase in interbank loans receivable.

Total investment securities which consisted of FVTPL, FVOCI and securities at amortized cost and represents 31.30% and 27.30% of the Group's total assets as of December 31, 2021 and 2020, respectively, went up by P113.12 billion or 16.88%. The increase was due to the net effect of the growth in FVOCI and securities at amortized cost and decrease in FVTPL securities. FVOCI securities increased by P79.36 billion particularly on treasury notes and bonds (P90.88 billion) and BSP bonds (P48.42 billion) offset by the decrease in treasury bills (P63.44 billion). Securities at amortized cost went up by P60.52 billion particularly on treasury bills, notes and bonds. In 2020, the Group disposed of investment securities at amortized cost with total carrying value of P113.5 billion. FVTPL securities consist of HFT securities and derivative assets amounting to P40.94 billion and P9.85 billion, respectively, as of December 31, 2021 and P65.71 billion and P11.85 billion, respectively, as of December 31, 2020.

Net loans and receivables, representing 49.39% and 51.03% of the Group's total assets as of December 31, 2021 and 2020, respectively, went down by P16.86 billion or 1.35% due to lower portfolio of consumer loans offset by the higher portfolios of corporate loans. Investments in Associates and a Joint Venture went down by P0.40 billion or 6.35% due to lower net income of the associates and additional impairment recognized on the investment in LCMC. Deferred Tax Assets decreased by P0.93 billion or 6.66% due to net effect of the decrease in tax rate under the CREATE Law and movements on temporary tax differences. Other Assets decreased by P0.94 billion or 7.09% from P13.18 billion to P12.25 billion primarily due to movements in miscellaneous assets, chattel properties acquired in foreclosures, amortization of software cost and prepaid expenses.

Deposit liabilities represent 88.75% and 84.69% of the consolidated total liabilities as of December 31, 2021 and 2020, respectively, wherein, low cost deposits represent 75.78% and 72.97% of the Group's total deposits, respectively. The Group's deposit level, sourced by the Bank, PSBank and MBCL reached P1.93 trillion as of December 31, 2021, an increase of P133.07 billion or 7.40% from P1.80 trillion as of December 31, 2020. The increment came from demand and savings deposits by P73.06 billion and P78.30 billion, respectively, while time deposits went down by P12.06 billion. Further, the P6.25 billion LTNCD of the Parent Company had matured in November 2021.

Bills Payable and SSURA representing 3.23% and 6.58% of the Group's total liabilities as of December 31, 2021 and 2020, respectively, went down by P69.28 billion or 49.62% due to the P42.26 billion decrease in SSURA and lower borrowings from foreign banks, local banks and deposit substitutes by P12.09 billion, P10.66 billion and P4.27 billion, respectively. Derivative Liabilities which represent mark-to-market of foreign currency forwards, interest rate swaps, cross currency swaps, credit default swaps and foreign currency options with negative fair value decreased by P5.12 billion or 37.99%.

The decrease of P0.63 billion or 10.42% in Manager's Checks and Demand Drafts Outstanding resulted from normal banking operations of the Bank and PSBank. Income taxes payable decreased by P0.96 billion or 35.49% due to lower tax base and new tax rate and Accrued Interest and Other Expenses went up by P0.71 billion or 7.75% due to the increase in accruals of other bank expenses. Total bonds payable decreased by P11.57 billion on account of the movements on the fixed rate bonds issued by the Parent Company - P19.0 billion additional bonds issued in June 2021 and redemption of the P11.25 billion and P10.5 billion bonds in July and September of this year, respectively; and the redemption of the P6.3 billion fixed rate bonds of PSBank in July 2021 and the P4.16 billion fixed rate bonds of ORIX METRO.

Non-equity Non-controlling Interest representing the portion of net income and net assets of the mutual fund subsidiaries of FMIC not attributed to the Group went up by P2.30 billion or 27.71% on account of the net increase in income of these mutual funds. Other Liabilities increased by P4.57 billion or 8.64% primarily due to the P7.83 billion increase in marginal deposits offset by the P4.76 billion decrease in bills purchased contra account.

Equity attributable to equity holders of the Parent Company decreased by \$\mathbb{2}5.70\$ billion or 1.76% primarily due to the \$\mathbb{P}17.99\$ billion total cash dividends paid by the Bank, net unrealized loss on investments securities at FVOCI recognized during the year offset by the \$\mathbb{P}22.16\$ billion net income for the year.

### Results of Operations

For the year ended December 31, 2021, interest income went down by P20.61 billion or 19.12% mainly due to lower interest income on loans and receivables by P20.17 billion (volume related and interest rate cap on credit card) and interest income on investment securities by P0.96 billion partially offset by the P0.52 billion increase in interest income on deposit with banks and others. Meanwhile, lower interest expense on deposit liabilities by P5.82 billion and on borrowings by P3.73 billion accounted for the decrease of P9.55 billion or 44.06% in interest and finance charges. These resulted to a P11.06 billion or 12.84% decline on net interest income.

Other operating income of P25.83 billion decreased by P9.30 billion or 26.47% from P35.13 billion in 2020 on account of lower net trading and securities gain by P11.38 billion (due to last year's disposal of investment securities at amortized cost by the Group with total carrying value of P113.5 billion) and the P2.46 billion decrease in foreign exchange gain offset by the increases in fee-based income by P1.71 billion, profit from assets sold by P0.37 billion and miscellaneous income by P2.33 billion.

Total operating expenses was maintained at same level with slight decrease of P0.65 billion or 1.08% from P60.12 billion to P59.47 billion with lower occupancy and equipment-related costs by P0.13 billion or 6.35% and taxes and licenses by P2.0 billion or 20.09% offset by the increases in miscellaneous expenses by P0.21 billion or 1.21% and compensation and fringe benefits by P0.38 billion or 1.52%. Total provision for credit and impairment losses of the Group amounted to P11.83 billion for the year ended December 31, 2021 or P28.93 billion lower compared with P40.76 billion provision in 2020. Provision for income tax, after considering the net impact of the new tax rate under CREATE Law, was higher by P0.73 billion from P7.05 billion to P7.78 billion due to net movements in corporate, final and deferred income taxes.

Income attributable to non-controlling interests went up to P0.21 billion from P0.14 billion or by P0.07 billion or 45.45% due to higher net income of majority owned subsidiaries.

As a result, net income attributable to equity holders of the Parent Company for the year ended December 31, 2021 improved by P8.33 billion or 60.19% to P22.16 billion from the P13.83 billion net income reported in 2020.

Total comprehensive income went down by P6.62 billion from P19.32 billion to P12.70 billion for the year ended December 31, 2021 and 2020, respectively, due to the net effect of the net unrealized loss recognized this year on FVOCI investments compared with gain in previous year, mitigated by the higher net income and increase in translation adjustment and others. This caused the total comprehensive income attributable to equity holders of the Parent Company to decrease by P6.84 billion from P19.14 billion in 2020 to P12.30 billion for the year ended December 31, 2021.

Market share price as of December 31, 2021 was at P55.70 (from P49.05 as of December 31, 2020) with a market capitalization of P250.51 billion.

#### INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Stockholders Metropolitan Bank & Trust Company

### Report on the Consolidated and Parent Company Financial Statements

### **Opinion**

We have audited the consolidated financial statements of Metropolitan Bank & Trust Company and its subsidiaries (the Group) and the parent company financial statements of Metropolitan Bank & Trust Company (the Parent Company), which comprise the consolidated and parent company statements of financial position as at December 31, 2023 and 2022, and the consolidated and parent company statements of income, consolidated and parent company statements of comprehensive income, consolidated and parent company statements of changes in equity and consolidated and parent company statements of cash flows for each of the three years in the period ended December 31, 2023, and notes to the consolidated and parent company financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated and parent company financial statements present fairly, in all material respects, the financial position of the Group and the Parent Company as at December 31, 2023 and 2022, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2023, in accordance with Philippine Financial Reporting Standards (PFRS).

### **Basis for Opinion**

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report. We are independent of the Group and the Parent Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated and parent company financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and parent company financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and parent company financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated and parent company financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated and parent company financial statements.

### Applicable to the audit of the consolidated and parent company financial statements

### Allowance for Credit Losses

The Group's and the Parent Company's application of the expected credit loss (ECL) model in calculating the allowance for credit losses on loans and receivables is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Group's and the Parent Company's credit risk exposures; determining the method to estimate ECL; defining default; identifying exposures with significant deterioration in credit quality, taking into account extension of payment terms; determining assumptions to be used in the ECL model such as the counterparty credit risk rating, the expected life of the financial asset, expected recoveries from defaulted accounts, and impact of any financial support and credit enhancements extended by any party; and incorporating forward-looking information in calculating ECL.

Allowance for credit losses on loans and receivables as of December 31, 2023 for the Group and the Parent Company amounted to ₱51.59 billion and ₱40.96 billion, respectively. Provision for credit losses of the Group and the Parent Company in 2023 amounted to ₱7.93 billion and ₱6.19 billion, respectively.

Refer to Notes 2, 3 and 15 of the financial statements for the disclosure on the details of the allowance for credit losses using the ECL model.

### Audit response

We obtained an understanding of the Board approved methodologies and models used for the Group's and the Parent Company's different credit exposures and assessed whether these considered the requirements of PFRS 9, *Financial Instruments*, to reflect an unbiased and probability-weighted outcome, and to consider time value of money and the best available forward-looking information.

We (a) assessed the Group's and the Parent Company's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default and significant increase in credit risk criteria against historical analysis of accounts, credit risk management policies and practices in place, and management's assessment of the impact of the coronavirus pandemic on the counterparties; (c) tested the Group's and the Parent Company's application of internal credit risk rating system, including the impact of the coronavirus pandemic on the borrowers, by reviewing the ratings of sample credit exposures; (d) assessed whether expected life is different from the contractual life by testing the maturity dates reflected in the Group's and the Parent Company's records and considering management's assumptions regarding future collections, advances, extensions, renewals and modifications; (e) tested loss given default by inspecting historical recoveries and related costs, write-offs and collateral valuations, and the effects of any financial support and credit enhancements provided by any party; (f) tested exposure at default considering outstanding commitments and repayment scheme; (g) checked

the forward-looking information used for overlay through statistical test and corroboration using publicly available information and our understanding of the Group's and the Parent Company's lending portfolios and broader industry knowledge, including the impact of the coronavirus pandemic; and (h) tested the effective interest rate used in discounting the expected loss.

Further, we checked the data used in the ECL models by reconciling data from source system reports to the data warehouse and from the data warehouse to the loss allowance analysis/models and financial reporting systems. To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets of debt financial assets with similar risk characteristics, we traced or re-performed the disaggregation from source systems to the loss allowance analysis.

We recalculated impairment provisions on a sample basis. We involved our internal specialists in the performance of the above procedures. We reviewed the completeness of the disclosures made in the financial statements.

### Realizability of Deferred Tax Assets

As of December 31, 2023, the deferred tax assets of the Group and the Parent Company amounted to ₱14.17 billion and ₱11.9 billion, respectively. The recognition of deferred tax assets is significant to our audit because it requires significant judgment and is based on assumptions such as availability of future taxable income and the timing of the reversal of the temporary differences that are affected by expected future market or economic conditions and the expected performance of the Group and the Parent Company.

The disclosures in relation to deferred income taxes are included in Notes 3 and 28 of the financial statements.

### Audit Response

We involved our internal specialist in interpreting the tax regulations, testing the temporary differences identified by the Group and the Parent Company and the applicable tax rate. We also re-performed the calculation of the deferred tax assets. We reviewed the management's assessment on the availability of future taxable income in reference to financial forecast and tax strategies. We evaluated management's forecast by comparing the loan portfolio and deposit growth rates to the historical performance of the Group and Parent Company and the industry, including future market circumstances and taking into consideration the impact associated with the coronavirus pandemic.

### Applicable to the audit of the consolidated financial statements

### Recoverability of Goodwill

As of December 31, 2023, the Group has goodwill amounting to ₱4.72 billion as a result of various business acquisitions. Under PFRS, the Group is required to annually test the amount of goodwill for impairment. The Group performed the impairment testing using the cash generating unit's (CGU) fair value less costs to sell (FVLCTS). The annual impairment test is significant to our audit because the determination of the CGU's FVLCTS requires significant judgment and is based on assumptions which are subject to higher level of estimation uncertainty. The CGU's assets include significant investments in unquoted equity shares and their fair values were determined using price-to-earnings (P/E) ratios of comparable companies and adjusted net asset valuation (NAV) method. Other assets of the CGU include investments in quoted equity shares and debt financial assets, and real properties, while liabilities include unquoted debt financial liabilities.

The disclosures relating to goodwill are included in Notes 3 and 11 to the financial statements.

### Audit response

We involved our internal specialist in obtaining an understanding of the Group's impairment assessment process including methodology and assumptions used in the assessment and in evaluating the assumptions and methodology used by the Group in determining the FVLCTS of the CGU, in particular those relating to the use of P/E ratios of comparable companies and adjusted NAV method in the valuation of the unquoted equity shares. We tested the fair value of the other assets and liabilities by referring to the quoted prices of listed equity and debt instruments, agreeing the appraised values of real estate properties to the appraisal reports, comparing the future cash flows of unquoted debt instruments to the related contracts, and comparing the discount rates used against prevailing interest rates for similar instruments. We also re-performed the calculation of the FVLCTS.

### Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2023, but does not include the consolidated and parent company financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2023 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and parent company financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated and parent company financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and parent company financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

## Responsibilities of Management and Those Charged with Governance for the Consolidated and Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and parent company financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and parent company financial statements, management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Parent Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated and parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and parent company financial statements, including the disclosures, and whether the consolidated and parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.
   We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and parent company financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on the Supplementary Information Required Under Bangko Sentral ng Pilipinas (BSP) Circular No. 1074 and Revenue Regulations No. 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under BSP Circular No. 1074 in Note 37 and Revenue Regulations No. 15-2010 in Note 38 to the financial statements is presented for purposes of filing with the BSP and Bureau of Internal Revenue, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of the Parent Company. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditor's report is Miguel U. Ballelos, Jr..

### NOTES TO FINANCIAL STATEMENTS

### 1. Corporate Information

Metropolitan Bank & Trust Company (the Parent Company) is a universal bank incorporated in the Philippines on April 6, 1962. The Securities and Exchange Commission (SEC) approved the renewal on November 19, 2007. The Parent Company's shares were listed with the Philippine Stock Exchange, Inc. (PSE) on February 26, 1981, as approved by the SEC in November 1980. It has a universal banking license granted by the Bangko Sentral ng Pilipinas (BSP) on August 21, 1981.

The Parent Company and its subsidiaries (the Group) are engaged in all aspects of banking, financing, leasing, real estate and stock brokering. As of December 31, 2023, the Group has 954 branches, 1,295 Automated Teller Machines (ATMs) in the branches (on-site) and 1,031 ATMs in other locations (off-site). As a bank, the Parent Company, which is the ultimate parent of the Group, provides products and services such as deposits, loans and trade finance, credit card products, programs and facilities, electronic banking facilities, cash management, domestic and foreign fund transfers, treasury products, remittances, institutional fund-management, private banking and trust services. The Bank temporarily changed its business address from Metrobank Plaza, Sen. Gil Puyat Avenue, Urdaneta Village, Makati City to GT Tower International, 6813 Ayala Ave., corner H.V. Dela Costa St., Brgy. Bel-Air, Makati City, effective August 14, 2023.

### 2. Summary of Material Accounting Policies

### **Basis of Preparation**

The accompanying financial statements have been prepared on a historical cost basis, except for financial assets and financial liabilities at fair value through profit or loss (FVTPL) and fair value through other comprehensive income (FVOCI) that have been measured at fair value.

The financial statements of the Parent Company and Philippine Savings Bank (PSBank) a subsidiary, include the accounts maintained in the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The functional currency of RBU and FCDU is Philippine Peso (PHP or ₱) and United States Dollar (USD), respectively. For financial reporting purposes, FCDU accounts and foreign currency-denominated accounts in the RBU are translated into their equivalents in PHP (see accounting policy on Foreign Currency Translation). The financial statements of these units are combined after eliminating inter-unit accounts.

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. The respective functional currencies of the subsidiaries are presented under Basis of Consolidation. The financial statements are presented in PHP, and all values are rounded to the nearest million pesos (\$\mathbb{P}000,000\$), except when otherwise indicated.

### Statement of Compliance

The financial statements of the Group and the Parent Company have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

### Presentation of Financial Statements

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability

simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statement of financial position. Income and expense are not offset in the statement of income unless required or permitted by any accounting standard or interpretation, and as specifically disclosed in the accounting policies of the Group.

### Basis of Consolidation

The consolidated financial statements include the financial statements of the Parent Company and of its subsidiaries and are prepared for the same reporting period as the Parent Company using consistent accounting policies. The following are the wholly and majority-owned foreign and domestic subsidiaries of the Parent Company in 2023 and 2022 (Note 11):

All significant intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in full at consolidation (Note 32). Subsidiaries are fully consolidated from the date on which control is transferred to the Group. Control is achieved where the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Consolidation of subsidiaries ceases when control is transferred out of the Group or the Parent Company. The results of subsidiaries acquired or disposed of during the year are included in the consolidated statements of income and consolidated statements of comprehensive income from the date of acquisition or up to the date of disposal, as appropriate.

In process of liquidation

Changes in the Parent Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for within equity. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid (or to be paid) or received is recognized directly in equity included as part of 'Translation adjustment and others' and attributed to the owners of the Parent Company.

When a change in ownership interest in a subsidiary occurs which results in a loss of control over the subsidiary, the Parent Company:

- a. Derecognizes the assets (Including goodwill) and liabilities of the subsidiary;
- b. Derecognizes the carrying amount of any non-controlling interest;
- c. Derecognizes the related other comprehensive income (OCI) recorded in equity and recycles the same to statement of income or 'Surplus';
- d. Recognizes the fair value of the consideration received;
- e. Recognizes the fair value of any investment retained;
- f. Recognizes any surplus or deficit in the statement of income; and
- g. Reclassifies the Parent Company's share of components' gains (losses) previously recognized in OCI to profit or loss or surplus, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

### Entity with Significant Influence over the Group

GT Capital Holdings, Inc. (GT Capital) holds 37.15% interest in the Parent Company as of December 31, 2023 and 2022 (Note 32).

### Non-controlling Interest

Non-controlling interest represents the portion of profit or loss and the net assets of the funds not held by the Group and is presented separately in the consolidated statement of income, consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to the Parent Company. Any losses applicable to the non-controlling interests in excess of the non-controlling interests are allocated against the interests of the non-controlling interest even if this results in the non-controlling interest having a deficit balance. Acquisitions of non-controlling interests are accounted for as equity transactions.

### Non-equity Non-controlling Interest

The Group has seed capital investments in a number of funds where it is in a position to be able to control those funds. These funds are consolidated.

Non-equity non-controlling interest represents the portion of net assets of the consolidated funds not attributed, directly or indirectly, to the Parent Company and is presented separately in the liability section in the consolidated statement of financial position. This liability is accounted for at FVTPL and measured using net asset value per unit with changes recognized in 'Trading and securities gain - net' in the consolidated statement of income.

### Legal Merger between Parent Company and Subsidiary (Note 20)

In the parent company financial statements, the legal merger between the Parent Company and its subsidiary, with the Parent Company as the surviving entity, is accounted for as follows:

- The acquired assets and assumed liabilities are recognized at the carrying amounts in the consolidated financial statements as of the date of the legal merger (Note 20);
- The difference between the carrying amount of the net assets of the subsidiary and the carrying amount of the investment in the merged subsidiary before the legal merger is recognized under "Translation adjustment and others" account in the equity section of the parent company statement of financial position; and

• The comparative financial information in the parent company financial statements for period prior to the legal merger is not restated. The financial position and results of operations of the merged subsidiary are reflected in the parent company financial statements only from the date of the legal merger.

The legal merger has no impact in the consolidated financial statements.

### Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2023. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the consolidated financial statements of the Group.

Amendments to PAS 12, *International Tax Reform-Pillar Two Model Rules*The amendments to PAS 12 have been introduced in response to the Organization for Economic Cooperation and Development's Base Erosion and Profit Shifting Pillar Two rules and include:

- A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
- Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

In periods in which Pillar Two legislation is (substantively) enacted but not yet effective, the amendment requires disclosure of known or reasonably estimable information that helps users of financial statements understand the entity's exposure arising from Pillar Two income taxes, including both qualitative and quantitative information about its exposure to Pillar Two income taxes at the end of the reporting period. Once the legislation is effective, additional disclosures are required for the current tax expense related to Pillar Two income taxes.

The Bank has reviewed its corporate structure in light of the introduction of Pillar Two Model Rules and has determined that it will not be subject to Pillar Two taxes once the legislation becomes effective since its effective tax rate is above 15% in all the jurisdictions in which it operates.

Amendments to PAS 12, *Income Taxes, Deferred tax related to assets and liabilities arising from a single transaction* 

The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities.

The amendments also clarify that judgement should be applied in assessing whether the tax deductions on the lease payments are related to the lease asset (and interest expense) or lease liability (and interest expense) after considering the applicable tax law.

Amendments to PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors, Definition of accounting estimates

The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an

input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

Amendments to PAS 1, *Presentation of Financial Statements*, and PFRS Practice Statement 2, *Disclosure of Accounting Policies* 

The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

- Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies; and
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Group's disclosures of accounting policies, but not on the measurement, recognition and presentation of any items in the Group's financial statements.

### **Material Accounting Policies**

### Foreign Currency Translation

Transactions and balances

For financial reporting purposes, the foreign currency-denominated monetary assets and liabilities in the RBU are translated in Philippine peso based on the Bankers Association of the Philippines (BAP) closing rate prevailing at the statement of financial position date and foreign currency-denominated income and expenses, at the prevailing exchange rates as at the date of transaction. Foreign exchange differences arising from revaluation and translation of foreign currency-denominated assets and liabilities are credited to or charged against operations in the year in which the rates change. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

### FCDU, foreign branches and subsidiaries

As at the reporting date, the assets and liabilities of foreign branches and subsidiaries and FCDU of the Parent Company and PSBank are translated into the Parent Company's presentation currency (the PHP) at BAP closing rate prevailing at the statement of financial position date, and their income and expenses are translated at historical rate (except for the foreign subsidiaries in which the income and expenses are translated at monthly average rate). Exchange differences arising on translation are taken to the statement of comprehensive income under 'Translation adjustment and others'. Upon disposal of a foreign entity or when the Parent Company ceases to have control over the subsidiaries or upon actual remittance of FCDU profits to RBU, the deferred cumulative amount recognized in the statement of comprehensive income is recognized in the statement of income.

### Fair Value Measurement

The Group measures certain financial instruments, such as derivatives, at fair value at each statement of financial position date. Fair values of financial instruments measured at amortized cost and investment properties are disclosed in Note 5.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (that is, an exit price). The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability; or in the absence of a

principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

If an asset or a liability measured at fair value has a bid price and an ask price, the price within the bid - ask spread that is most representative of fair value in the circumstances shall be used to measure fair value regardless of where the input is categorized within the fair value hierarchy.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets and liabilities not listed in an active market, the Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each statement of financial position date. The Group determines the policies and procedures for both recurring fair value measurement, such as financial assets and liabilities at FVTPL, and for non-recurring measurement, such as investment properties.

External valuers are involved for valuation of significant assets, such as investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

## <u>Financial Instruments - Initial Recognition and Subsequent Measurement</u> *Date of recognition*

Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date. Derivatives are recognized on trade date basis. Deposits, amounts due from banks and customers and loans and receivables are recognized when cash is received by the Group or advanced to the borrowers.

### Initial recognition of financial instruments

All financial instruments are initially measured at fair value. Except for financial assets and financial liabilities at FVTPL, the initial measurement of financial instruments includes transaction costs.

### 'Day 1' difference

Where the transaction price in a non-active market is different from the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a 'Day 1' difference) in the statement of income. In cases where the transaction price used is made of data which is not observable, the difference between the transaction price and model value is only recognized in the statement of income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' difference amount.

### Classification and subsequent measurement

Financial assets are measured at FVTPL unless these are measured at FVOCI or at amortized cost. Financial liabilities are classified as either financial liabilities at FVTPL or financial liabilities at amortized cost. The classification of financial assets depends on the contractual terms and the business model for managing the financial assets. Subsequent to initial recognition, the Group may reclassify its financial assets only when there is a change in its business model for managing these financial assets. Reclassification of financial liabilities is not allowed.

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios. If cash flows after initial recognition are realized in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

As a second step of its classification process, the Group assesses the contractual terms of financial assets to identify whether they pass the contractual cash flows test (SPPI test). For the purpose of the SPPI test, principal is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium or discount). The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are SPPI. In such cases, the financial asset is required to be measured at FVTPL.

### Financial assets at FVTPL

These are recorded in the statements of financial position at fair value with changes in fair value recognized in 'Trading and securities gain - net'. Interest earned is recorded in 'Interest income' while dividend income is recorded in 'Dividends' when the right to receive payment has been established. Included in this classification are debt and equity securities which have been acquired principally for the purpose of selling or repurchasing in the near term.

### Derivatives recorded at FVTPL

The Parent Company and some of its subsidiaries are counterparties to derivative contracts, such as currency forwards, currency swaps, interest rate swaps (IRS), call options, non-deliverable forwards (NDF) and other interest rate derivatives. These derivatives are entered into as a service to customers and as a means of reducing or managing their respective foreign exchange and interest rate exposures,

as well as for trading purposes. Such derivative financial instruments are initially recorded at fair value on the date at which the derivative contract is entered into and are subsequently remeasured at fair value. Any gains or losses arising from changes in fair values of derivatives (except those accounted for as accounting hedges) are taken directly to the statement of income and are included in 'Trading and securities gain/(loss) - net'. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

#### Investment securities at FVOCI

Investment securities at FVOCI include debt and equity securities. After initial measurement, investment securities at FVOCI are subsequently measured at fair value. The unrealized gains and losses arising from the fair valuation of investment securities at FVOCI are excluded, net of tax as applicable, from the reported earnings and are included in the statement of comprehensive income as 'Change in net unrealized gain (loss) on investment in debt securities at FVOCI' or 'Change in net unrealized gain (loss) on equity securities at FVOCI'. Debt securities at FVOCI are those that meet both of the following conditions:

- a. The asset is held within a business model whose objective is to hold the financial assets in order to both collect contractual cash flows and sell financial assets; and
- b. The contractual terms of the financial asset give rise on specified dates to cash flow that are SPPI on the outstanding principal amount.

The effective yield component of debt securities at FVOCI, as well as the impact of restatement on foreign currency-denominated debt securities at FVOCI is reported in the statement of income. Interest earned on holding debt securities at FVOCI are reported as 'Interest Income' using the effective interest rate (EIR) method. When the debt securities at FVOCI are disposed of, the cumulative gain or loss previously recognized in the statement of comprehensive income is recognized as 'Trading and securities gain - net' in the statement of income. The expected credit loss (ECL) arising from impairment of such investments are recognized in OCI with a corresponding charge to 'Provision for credit and impairment losses' in the statement of income.

Equity securities designated at FVOCI are those that the Group made an irrevocable election to present in OCI the subsequent changes in fair value. Dividends earned on holding equity securities at FVOCI are recognized in the statement of income as 'Dividends' when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery part of the cost of the instrument, in which case, such gains are recorded in OCI. Gains and losses on disposal of these equity securities are never recycled to profit or loss, but the cumulative gain or loss previously recognized in the statement of comprehensive income is reclassified to 'Surplus' or any other appropriate equity account upon disposal. Equity securities at FVOCI are not subject to impairment assessment.

### Financial assets at amortized cost

Financial assets at amortized cost are debt financial assets that meet both of the following conditions:

- a. These are held within a business model whose objective is to hold the financial assets in order to collect contractual cash flows; and
- b. The contractual terms give rise on specified dates to cash flows that are SPPI on the outstanding principal amount.

This accounting policy relates to the statement of financial position captions 'Due from BSP', 'Due from other banks', 'Interbank loans receivable and securities purchased under resale agreements (SPURA)', 'Investment securities at amortized cost' and 'Loans and receivables'.

After initial measurement, financial assets at amortized cost are subsequently measured at amortized cost using the EIR method, less impairment in value. Amortized cost is calculated by taking into

account any discount or premium on acquisition and fees that are an integral part of the EIR. The amortization is included in 'Interest income' in the statement of income. Gains and losses are recognized in statement of income when these investments are derecognized or impaired, as well as through the amortization process. The ECL are recognized in the statement of income under 'Provision for credit and impairment losses'. The effects of revaluation on foreign currency-denominated investments are recognized in the statement of income.

#### Financial liabilities at FVTPL

These are recorded in the statements of financial position at fair value with changes in fair value recognized in 'Trading and securities gain - net', with the exception of movements in fair value of liabilities designated at FVTPL due to changes in the Group's own credit risk. Such changes in fair value are recorded in OCI and do not get recycled to the statement of income. Interest incurred is accrued in 'Interest expense' using the EIR, taking into account any discount/premium and qualifying transaction costs being an integral part of the instrument.

#### Financial liabilities at amortized cost

Issued financial instruments or their components, which are not designated at FVTPL, are classified as liabilities under 'Deposit liabilities', 'Bills payable and securities sold under repurchase agreements (SSURA)', 'Bonds payable', or 'Subordinated debts' or other appropriate financial liability accounts, where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

After initial measurement, bills payable and similar financial liabilities not qualified as and not designated at FVTPL, are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the EIR.

#### Financial guarantees and undrawn loan commitments

The Group issues financial guarantees and loan commitments. Financial guarantees are those issued by the Group to creditors as allowed under existing rules and regulations whereby it guarantees third party obligations by signing as guarantor in the contract/agreement. Undrawn loan commitments and letters of credit are commitments under which over the duration of the commitment, the Group is required to provide a loan with pre-specified terms to the customer. The nominal contractual value of financial guarantees and undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the statement of financial position. These contracts are in the scope of the ECL requirements where the Group estimates the expected portion of the undrawn loan commitments that will be drawn over their expected life. The ECL related to financial guarantees and undrawn loan commitments is recognized in 'Miscellaneous liabilities' under 'Other liabilities'.

# Derecognition of Financial Assets and Financial Liabilities

Financial assets

A financial asset (or, when applicable, a part of a financial asset or part of a group of financial assets) is derecognized when:

- The rights to receive cash flows from the asset have expired; or
- The Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or

- The Group has transferred its rights to receive cash flows from the asset and either:
  - a. Has transferred substantially all the risks and rewards of the asset; or
  - b. Has neither transferred nor retained the risks and rewards of the asset but has transferred the control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. The extent of the Group's continuing involvement in the transferred asset is the extent to which it is exposed to changes in the value of the transferred asset

When the Group's continuing involvement takes the form of guaranteeing the transferred asset, the extent of the Group's continuing involvement is the lower of:

- a. The amount of the asset; and
- b. The maximum amount of the consideration received that the Group could be required to repay ('the guarantee amount').

When the Group's continuing involvement takes the form of a written or purchased option (or both) on the transferred asset, the extent of the Group's continuing involvement is the amount of the transferred asset that the Group may repurchase. However, in case of a written put option to an asset that is measured at fair value, the extent of the Group's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price. When the Group's continuing involvement takes the form of a cash-settled option or similar provision on the transferred asset, the extent of the Group's continuing involvement is measured in the same way as that which results from non-cash settled options.

The Group derecognizes a financial asset such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognized loans are classified as Stage 1 for ECL measurement purposes, unless the new loan is deemed to be purchased or originated credit impaired (POCI) assets.

When assessing whether or not to derecognize a loan to a customer, amongst others, the Group considers the following factors:

- Change in currency of the loan
- Introduction of an equity feature
- Change in counterparty
- If the modification is such that the instrument would no longer meet the SPPI criterion

If the modification does not result in cash flows that are substantially different as set out below, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Group records a modification gain or loss, to the extent that an impairment loss has not already been recorded. The Group considers a modification substantial based on qualitative factors.

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery. If a write-off is later recovered, any amounts formerly charged are credited to 'Recovery on charged-off assets' under 'Miscellaneous income' in the statement of income.

#### Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of income.

The Group considers a modification substantial based on qualitative factors and if it results in a difference between the adjusted discounted present value and the original carrying amount of the financial liability of or greater than ten percent (10%).

Similar with financial assets, when the modification of a financial liability is not considered substantial, the Group records a modification gain or loss based on the change in cash flows discounted at the original EIR.

## Repurchase and reverse repurchase agreements

Securities sold under agreements to repurchase at a specified future date ('repos') are not derecognized from the statement of financial position. The corresponding cash received, including accrued interest, is recognized in the statement of financial position as SSURA included in 'Bills payable and SSURA' and is considered as a loan to the Group, reflecting the economic substance of such transaction.

Conversely, securities purchased under agreements to resell at a specified future date ('reverse repos') are not recognized in the statement of financial position. The corresponding cash paid including accrued interest, is recognized in the statement of financial position as SPURA, and is considered a loan to the counterparty. The difference between the purchase price and resale price is treated as interest income and is accrued over the life of the agreement using the EIR method.

### Reclassification of Financial Assets

The Group reclassifies its financial assets when there is a change in its business model for managing financial assets. A change in business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. The Group applies the reclassification prospectively from the reclassification date (that is, the first day of the next quarterly reporting period following the change in business model) and does not restate any previously recognized gains, losses or interest.

## Impairment of Financial Assets

The Group follows the PFRS 9 loss impairment method on financial assets through a forward-looking ECL approach which covers all loans and other debt financial assets not held at FVTPL, together with loan commitments and financial guarantee contracts.

#### Overview of the ECL principles

ECL represents credit losses that reflect an unbiased and probability weighted amount which is based on reasonable and supportable information about past events, current conditions and forecasts of future economic conditions, and time value of money. The ECL allowance is based on the credit losses expected to arise on a 12-month duration if there has been no significant increase in credit risk (SICR) of the financial asset since origination. Otherwise, if a SICR is observed, then the ECL estimation is extended until the end of the life of the financial asset. The 12-month ECL represents the losses that result from default events on a financial asset which may happen within 12 months after the statement of financial position date. The Lifetime ECL on the other hand represents the losses that result from default events on a financial asset which may happen over its life. Both Lifetime ECLs and 12-month

ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

The major portfolios of financial assets identified upon initial analysis of the Group's credit exposure are loan receivables, treasury accounts, and other receivables. Loan receivables may be availed by specific individuals, corporations or organizations. Hence, these portfolios can be further segmented to commercial, consumer and credit card portfolios. After segmentation, financial assets are grouped into Stage 1, Stage 2, and Stage 3 as described below.

# Definition of "default" and "cure"

The Group defines a financial instrument as in default, which is fully aligned with the definition of non-performing loans that is, credit impaired, in all cases when the borrower becomes more than ninety (90) days past due on its contractual payments. As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances that may indicate unlikeliness to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted. An instrument is considered to be no longer in default (that is, to have cured) when it no longer meets any of the default criteria and has exhibited a satisfactory track record.

Treasury exposures are considered in default upon occurrence of a credit event such as but not limited to bankruptcy of counterparty, restructuring, failure to pay on agreed settlement date, or request for moratorium.

#### SICR

In order to determine whether an instrument is subject to 12-month or Lifetime ECL, the Group assesses whether there has been a SICR since initial recognition. The criteria for determining whether credit risk has increased significantly vary by portfolio and include quantitative and qualitative factors. The credit risk of a particular exposure is deemed to have increased significantly since initial recognition if, based on the Group's internal credit assessment, the borrower or counterparty is determined to have well-defined credit weaknesses (that is, with internal credit rating of 6 due to financial or repayment concerns or lower). These may include adverse trends or developments of financial, managerial, economic or political nature, or a significant weakness in collateral. Credit weakness may be manifested by unfavorable record or unsatisfactory characteristics or may only be potential that deserves management's close attention and may lead to significant losses or may result in collection or liquidation of the outstanding loan amount to be highly improbable. For exposures without internal credit grades, if contractual payments are more than 30 days past due, the credit risk is deemed to have increased significantly since initial recognition. The days past due (dpd) are determined by counting the number of days since the earliest elapsed due date in respect of which at least a partial payment has not been received. In subsequent reporting periods, if the credit risk of the financial asset improves over an observable period such that there is no longer a SICR since initial recognition, the Group reverts to recognizing a 12-month ECL.

#### Staging assessment

For non-credit-impaired financial assets:

- Stage 1 is comprised of all non-impaired financial assets which have not experienced a SICR since initial recognition. The Group recognizes a 12-month ECL for Stage 1 financial assets.
- Stage 2 is comprised of all non-impaired financial assets which have experienced a SICR since initial recognition. The Group recognizes a lifetime ECL for Stage 2 financial assets.

For credit-impaired financial assets:

• Financial assets are classified as Stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a financial asset or a portfolio of financial assets. ECL for Stage 3 exposure is computed per account, taking into consideration the present value of the expected recoverable cash flows from each transaction.

Financial assets that are credit-impaired on initial recognition are classified as POCI assets. These are recorded at fair value at original recognition and interest income is subsequently recognized based on a credit-adjusted EIR. ECL is only recognized or released to the extent that there is a subsequent change in the ECLs.

## Assessment of ECL on a collective basis

The Group calculates ECL either on an individual or a collective basis. The Group performs collective impairment by grouping exposures into smaller homogenous portfolios based on a combination of borrower and account characteristics. Accounts with similar risk attributes (that is, facility, security, credit rating, months-on-books, utilization and collateral type, etc.) are pooled together for calculating provisions based on the ECL models.

## ECL parameters and methodologies

ECL is a function of the probability of default (PD), exposure-at-default (EAD), and loss-given default (LGD), with the timing of the loss also considered, and is estimated by incorporating forward-looking economic information and through the use of experienced credit judgement.

The PD represents the likelihood that a credit exposure will not be repaid and will go into default in either a 12-month horizon for Stage 1 or lifetime horizon for Stage 2. The PD for each individual financial asset is modelled based on historical data and is estimated based on current market conditions and reasonable and supportable information about future economic conditions. The Group segmented its credit exposures based on homogenous risk characteristics and developed a corresponding PD methodology for each portfolio. The PD methodology for each relevant portfolio is determined based on the underlying nature or characteristic of the portfolio, behavior of the accounts and materiality of the segment as compared to the total portfolio.

LGD is the amount that may not be recovered in the event of default and is modelled based on historical cash flow recovery and reasonable and supportable information about future economic conditions, where appropriate. LGD takes into consideration the amount and quality of any collateral held.

EAD consists of the amortized cost and any accrued interest receivable. For off-balance sheet and undrawn committed amounts, EAD includes a credit conversion factor which is an estimate of any further amount to be drawn at the time of default. For the credit card business, EAD is modelled based on historical data on card limit utilization.

The Group applies a simplified ECL approach for its accounts receivables wherein the Group uses a provisioning matrix that considers historical changes in the behavior of the portfolio to predict conditions over the span of a given observation period.

The Parent Company offers credit card facilities, in which it has the right to cancel and/or reduce the facilities with one-day notice. It does not limit its exposure to credit losses to the contractual notice period, but instead, calculates ECL over a period that reflects its expectations of the customers' behavior, their likelihood of default, and its future risk mitigation procedures, which could include reducing or cancelling the facilities. Based on past experience and expectations, the period over which ECL is calculated for these products is two (2) years. The interest rate used to discount the

ECL for credit cards is based on contractual interest rate. These rates are also used to discount future recoveries over a period of five years as these cover the cost of securing an equivalent fund. The contractual interest rate is used as discounting factor since the Parent Company estimates that this rate is reflective of the EIR.

# Forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of a financial asset has increased significantly since its initial recognition and its measurement of ECL. A broad range of forward-looking information are considered as economic inputs, *such* as growth of the gross domestic product, inflation rates, unemployment rates, interest rates and BSP statistical indicators. The inputs and models used for calculating ECL may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

The following economic inputs were determined to be statistically significant in measuring ECL:

- GDP growth
- Inflation rate
- Unemployment rate
- Minimum wage
- USD:PHP exchange rate
- Consumer confidence index
- Peso interest rate
- USD interest rate
- WTI crude oil price
- Business confidence index
- GVA of some industries

## Debt investment securities measured at FVOCI

The ECL for debt securities at FVOCI does not reduce the carrying amount of these financial assets in the statement of financial position, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortized cost is recognized in 'Net unrealized gain (loss) on investment securities at FVOCI' as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognized in OCI is recycled to profit or loss upon derecognition of these financial assets.

## Restructured Loans

Where possible, the Group seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews and monitors restructured loans until derecognition to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original EIR. The difference between the recorded value of the original loan and the present value of the restructured cash flows, discounted at the original EIR, is recognized in 'Provision for credit and impairment losses' in the statement of income. When the loan has been restructured but not derecognized, the Group also reassesses whether there has been a SICR and considers whether the assets should be classified as Stage 3. If the restructuring terms are substantially different, the loan is derecognized and a new 'asset' is recognized at fair value using the revised EIR.

### Collateral Valuation of Financial Assets

Collateral, unless repossessed, is not recorded in the Group's statement of financial position. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed every other year. However, some collaterals, for example, cash or securities relating to margining requirements, are valued daily.

## Revenue Recognition

Revenue from contracts with customers is recognized upon transfer of services to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services.

The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as a principal or agent. The Group concluded that it is acting as a principal in all of its revenue arrangements except for certain brokerage transactions. The following specific recognition criteria must also be met before revenue is recognized.

#### Fee and commission income

The Group earns fee and commission income from a diverse range of services it provides to its customers, which are divided into the following two categories:

- a. Fee income earned from services that are provided over a certain period of time

  Fees earned for the provision of services over a period of time are accrued over that period as the
  customer simultaneously receives and consumes the benefits provided by the Group. Using an
  output method, revenue is recognized if the Group has a right to invoice the customer for services
  directly corresponding to performance completed to date. These fees include investment fund
  fees, custodian fees, fiduciary fees, asset management fees, and income from trust operations.
- b. Fee income from providing transaction services

  Fees arising from pegotiating or participating in

Fees arising from negotiating or participating in the negotiation of a transaction for a third party such as commission income, underwriting fees, corporate finance fees, advisory fees and brokerage fees for the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognized after fulfilling the corresponding criteria.

Discounts earned, membership fees and awards revenue on credit cards

The following table provides information about the nature and timing of the satisfaction of performance obligations for the Parent Company's credit card business including significant payment terms, and the related revenue recognition policies.

Type of Product/Service	Nature and Timing of Satisfaction of Performance Obligations, including Significant Payment Terms	Revenue Recognition under PFRS 15
Discounts earned	Charges arising from credit availments by the Parent Company's and other credit companies' cardholders when the Parent Company is acting as an acquirer. These discounts are computed based on certain agreed rates. These also include interchange income from transactions processed by other acquirers through VISA and Mastercard and fees from cash advance transactions of cardholders.	Recognized as revenue upon receipt from member establishments of charges arising from credit availments by the Parent Company's cardholders and other credit companies' cardholders when the Parent Company is acting as an acquirer.
Membership fees and dues	Periodically charged to cardholders upfront.	Deferred and recorded under 'Deferred revenue' and recognized on a straight-line basis over the period the fee entitles the cardholders to use the card.

Type of Product/Service	Nature and Timing of Satisfaction of Performance Obligations, including Significant Payment Terms	Revenue Recognition under PFRS 15
Awards revenue	The Parent Company operates a loyalty points program, which allows customers to accumulate points when they purchase from member establishments using the issued card of the Parent Company. The points accumulate and do not expire.	The Parent Company allocates a portion of the consideration received from discounts earned and interchange fees from credit cards to the reward points based on the estimated stand-alone selling prices. The amount allocated to the loyalty program is deferred, and is recognized as revenue when loyalty points are redeemed or the likelihood of the customer redeeming the loyalty points becomes remote.

## Revenues outside the scope of PFRS 15

#### Interest income

For all financial instruments measured at amortized cost and interest-bearing financial instruments classified as investment securities at FVOCI investments, interest income is recorded at the EIR, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options), including any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR. The adjusted carrying amount is calculated based on the original EIR. The change in carrying amount is recorded as 'Interest income'. Loan commitment fees that are likely to be drawn down are deferred (together with any incremental costs) and recognized as an adjustment to the EIR of the loan.

Under PFRS 9, when a financial asset becomes credit-impaired and is, therefore, regarded as Stage 3 (as discussed in "Impairment of Financial Assets" above), the Group calculates interest income by applying the EIR to the net amortized cost of the financial asset. If the financial asset cures and is no longer credit-impaired, the Group reverts to calculating interest income on a gross basis.

Purchases by credit cardholders, collectible on an installment basis, are recorded at the cost of the items purchased plus a certain percentage of cost. The excess over cost is credited to 'Unearned discount' and is shown as a deduction from 'Loans and receivables' in the statement of financial position. The unearned discount is taken up to interest income over the installment terms and is computed using the EIR method.

Interbank Offered Rate (IBOR) reform Phase 2 requires, as a practical expedient, that changes to the basis for determining contractual cash flows that are necessary as a direct consequence of IBOR reform are treated as a change to a floating rate of interest provided that the transition from IBOR to a risk-free-rate (RFR) takes place on a basis that is 'economically equivalent'. To qualify as 'economically equivalent', the terms of the financial instrument must be the same before and after transition except for the changes required by IBOR reform.

For changes that are not required by IBOR reform, the Group applies judgement to determine whether they result in the financial instrument being derecognized. Therefore, as financial instruments transition from IBOR to RFRs, the Group applies judgment to assess whether the transition has taken place on an economically equivalent basis. In making this assessment, the Group considers the extent of any changes to the contractual cash flows as a result of the transition and the factors that have given rise to the changes, with consideration of both quantitative and qualitative factors. Examples of changes that are economically equivalent include changing the reference interest rate from an IBOR to an RFR, changing the reset period for days between coupons to align with the RFR, adding a fallback to automatically transition to an RFR when the IBOR ceases, and adding a fixed credit adjustment spread based on that calculated by the International Swaps and Derivatives Association or which is implicit in market forward rates for the RFR.

# Recovery on charged-off assets

Income arising from collections on accounts or recoveries from impairment of items previously written off are recognized in the year of recovery.

### Leasing income - Finance lease

The excess of aggregate lease rentals plus the estimated residual value over the cost of the leased equipment constitutes the unearned lease income. Residual values represent estimated proceeds from the disposal of equipment at the time lease is estimated. The unearned lease income is amortized over the term of the lease, commencing on the month the lease is executed using the EIR method.

#### Dividend income

Dividend income is recognized when the Group's right to receive payment is established.

## Trading and securities gain - net

Results arising from trading activities include all gains and losses from changes in fair value for financial assets and financial liabilities at FVTPL and gains and losses from disposal of debt securities at FVOCI.

### Rental income

Rental income arising on leased properties is accounted for on a straight-line basis over the lease terms on ongoing leases and is recorded in the statement of income under 'Leasing'.

## Income on receivables financed

Income on loans and receivables financed with short-term maturities is recorded in 'Interest income' and is recognized using the EIR method. Interest and finance fees on finance leases and loans and receivables financed with long-term maturities and the excess of the aggregate lease rentals plus the estimated terminal value of the leased equipment over its cost are credited to unearned discount and amortized over the term of the note or lease using the EIR method.

## Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash and other cash items, amounts due from BSP and other banks, and interbank loans receivable and SPURA with original maturities of three months or less from dates of placements and that are subject to insignificant risk of changes in value.

#### **Property and Equipment**

Land is stated at cost and depreciable properties, including buildings, furniture, fixtures and equipment and leasehold improvements, are stated at cost less accumulated depreciation and amortization, and allowance for impairment losses. Such cost includes the cost of replacing part of the property and equipment when that cost is incurred, if the recognition criteria are met but excludes repairs and maintenance costs. Building under construction (BUC) is stated at cost and includes cost of construction and other direct costs. BUC is not depreciated until such time that the relevant asset is completed and put into operational use.

Depreciation is calculated on the straight-line method over the estimated useful life of the depreciable assets. Leasehold improvements are amortized over the shorter of the terms of the covering leases and the estimated useful lives of the improvements. The range of estimated useful lives of property and equipment follows:

Buildings
Furniture, fixtures and equipment
Leasehold improvements

25 to 50 years2 to 5 years5 to 20 years

The depreciation and amortization method and useful life are reviewed periodically to ensure that the method and period of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of income under 'Profit from assets sold' in the year the asset is derecognized.

## Investments in Subsidiaries, Associates and a Joint Venture (JV)

#### Investment in subsidiaries

Subsidiaries pertain to all entities over which the Group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group's voting rights.

#### Investment in associates

Associates pertain to all entities over which the Group and the Parent Company have significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. Investment in associates is accounted for under the equity method of accounting.

#### Investment in a JV

A JV is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the JV. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. Investment in a JV is accounted for under the equity method of accounting. The Group's investment in a JV represents the 30% interest of PSBank in Sumisho Motor Finance Corporation (SMFC) (Note 11).

Upon loss of significant influence over the associate or joint control over the JV, the Group and the Parent Company measure and recognize any retained investment at its fair value. Any difference between the carrying amount of the associate or JV upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognized in the statement of income.

Under the equity method, investments in associates and a JV are carried in the statement of financial position at cost plus post-acquisition changes in the Group's and the Parent Company's share of the net assets of the associate or JV less allowance for impairment losses. Post-acquisition changes in the share of net assets of the associate or a JV include the share in the:

- a. Income or losses; and
- b. Unrealized gain or loss on investment securities, remeasurement of retirement plans and others.

Dividends received are treated as a reduction in the carrying values of the investments. Goodwill relating to the associate and a JV is included in the carrying value of the investment and is not amortized.

When the Group and the Parent Company increase its ownership interest in an associate or a JV that continues to be accounted for under the equity method, the cost for the additional interest is added to the existing carrying amount of the associate or JV and the existing interest in the associate or JV is not remeasured. The share in an associate or a JV's post-acquisition profits or losses is recognized in the statement of income as 'Share in net income of subsidiaries, associates and a joint venture' while its share of post-acquisition movements in the associate or JV's equity reserves is recognized directly in the statement of comprehensive income. When the share of losses in an associate or a JV equals or exceeds its interest in the associate or JV, including any other unsecured receivables, the Group and the Parent Company do not recognize further losses, unless it incurred obligations or made payments on behalf of the associate or JV which is recognized as miscellaneous liabilities. Profits and losses resulting from transactions between the Group or the Parent Company and an associate or JV are eliminated to the extent of the Group or the Parent Company's interest in the associate or JV.

Investments in subsidiaries in the separate financial statements are accounted for under the equity method similarly as investments in associates and JV. Equity in other comprehensive income (losses) of subsidiaries and changes therein are included in 'Remeasurement losses on retirement plans', 'Net unrealized gain (loss) on investment securities at FVOCI', and 'Translation adjustments and others', as appropriate, together with the Parent Company in the separate statement of financial position and statement of comprehensive income.

## **Investment Properties**

Investment properties are measured initially at cost, including transaction costs. An investment property acquired through an exchange transaction is measured at fair value of the asset acquired unless the fair value of such an asset cannot be measured, in which case, the investment property acquired is measured at the carrying amount of asset given up. The difference between the fair value of the asset received and the carrying amount of the asset given up is recorded as 'Gain on initial recognition of investment properties' under 'Miscellaneous income'. Foreclosed properties are classified under 'Investment properties' upon:

- a. Entry of judgment in case of judicial foreclosure;
- b. Execution of the Sheriff's Certificate of Sale in case of extra-judicial foreclosure; or
- c. Notarization of the Deed of Dacion in case of dation in payment (dacion en pago).

Subsequent to initial recognition, investment properties are carried at cost less accumulated depreciation (for depreciable investment properties) and allowance for impairment losses.

Investment properties are derecognized when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statement of income under 'Profit from assets sold' in the year of retirement or disposal.

Expenditures incurred after the investment properties have been put into operations, such as repairs and maintenance costs, are normally charged to operations in the year in which the costs are incurred. Depreciation is calculated on a straight-line basis using the remaining useful lives from the time of acquisition of the investment properties based on appraisal reports but not to exceed 50 years for buildings and condominium units.

Transfers are made to investment properties when, and only when, there is a change in use evidenced by ending of owner occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is a change in use evidenced by commencement of owner occupation or commencement of development with a view to sale.

## **Interest in Joint Operations**

The Group is a party to joint operations whereby it contributed parcels of land for development into residential and commercial units. In respect of the Group's interest in the joint operations, the Group recognizes the following:

- a. The assets that it controls and the liabilities that it incurs; and
- b. The expenses that it incurs and its share of the income that it earns from the sale of units by the joint operations.

The assets contributed to the joint operations are measured at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale (Note 14).

## **Chattel Mortgage Properties**

Chattel mortgage properties comprise of repossessed vehicles. Chattel mortgage properties are stated at cost less accumulated depreciation and allowance for impairment losses. Depreciation is calculated on a straight-line basis using the remaining useful lives from the time of acquisition of the vehicles. The useful lives of chattel mortgage properties are estimated to be five (5) years.

### **Subordinated Notes**

Subordinated notes issued by Special Purpose Vehicles (SPV) (presented as 'Investment in SPVs' under 'Other assets') are stated at amortized cost reduced by an allowance for credit losses. The allowance for credit losses is determined based on the difference between the outstanding principal amount and the recoverable amount which is the present value of the future cash flow expected to be received as payment for the subordinated notes.

# **Intangible Assets**

Software costs

Software costs (presented under 'Other assets') are capitalized on the basis of the cost incurred to acquire and bring to use the specific software. These costs are amortized over three to five years on a straight-line basis. Costs associated with maintaining the computer software programs are recognized as expense when incurred. Software costs are carried at cost less accumulated amortization.

#### Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of the business combination over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. With respect to investments in associates and a JV, goodwill is included in the carrying amounts of the investments. Following initial recognition, goodwill is measured at cost, net of allowance for impairment losses (see accounting policy on "Impairment of Non-financial Assets").

## Customized System Development Cost

Customized system development cost consists of payments for customization of various banking systems. This account will be reclassified to appropriate accounts upon completion and will be depreciated and amortized from the time the asset is ready for its intended use (Note 14).

## Impairment of Non-financial Assets

Property and equipment, investments in subsidiaries, associates and a JV, investment properties, chattel mortgage properties, intangible assets with finite useful lives and other assets

At each statement of financial position date, the Group assesses whether there is any indication that its non-financial assets may be impaired. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Group makes a formal estimate of recoverable amount. Recoverable amount is the higher of an asset's fair value less costs to sell (FVLCTS) and its value-in-

use (VIU) and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is assessed as part of the cash generating unit to which it belongs. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing VIU, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to operations in the year in which it arises.

An assessment is made at each statement of financial position date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of income. After such a reversal, the depreciation and amortization expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

Intangible assets with indefinite useful lives and customized system development cost not yet available for use

Intangible assets with indefinite useful lives such as exchange trading right and customized system development cost not yet available for use are tested for impairment annually at statement of financial position date either individually or at the cash generating unit (CGU) level, as appropriate.

## Goodwill

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of the CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated, an impairment loss is recognized immediately in the statement of income. The Group uses the higher of FVLCTS and VIU using cash flow projections from financial budgets approved by the Board of Directors (BOD) in determining the recoverable amount.

#### Leases

#### Group as lessee

The Group assesses at contract inception whether a contract is, or contains a lease. A contract contains a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use (ROU) assets representing the right-of-use the underlying assets.

#### ROU assets

The Group recognizes ROU assets (included in 'Property and Equipment') at the commencement date of the lease (that is, the date the underlying asset is available for use). ROU assets are measured at cost less any accumulated depreciation and allowance for impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of ROU assets includes the amount of lease liabilities

recognized and lease payments made at or before the commencement date less any lease incentives received. ROU assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Office space 2 to 30 years ATM site and equipment 1 to 5 years

#### Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest (included in 'Interest expense on bills payable and SSURA, bonds payable, subordinated debts and others') and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term or a change in the lease payments.

The Group's lease liabilities are included in Other Liabilities (Note 21).

#### Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of office spaces and ATM sites (that is, those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of ATM site and other equipment that are considered to be of low value (that is, those with value of less than ₱250,000). Lease payments on short-term leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

## Residual value of leased assets and deposits on lease contracts

The residual value of leased assets, which approximates the amount of guaranty deposit paid by the lessee at the inception of the lease, is the estimated proceeds from the sale of the leased asset at the end of the lease term. At the end of the lease term, the residual value of the leased asset is generally applied against the guaranty deposit of the lessee when the lessee decides to buy the leased asset.

#### Group as lessor

Finance leases, where the Group transfers substantially all the risks and benefits incidental to the ownership of the leased item to the lessee, are included in the statement of financial position under 'Loans and receivables'. All income resulting from the receivable is included in 'Interest income' in the statement of income.

Leases where the Group does not transfer substantially all the risks and benefits of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as the rental income. Contingent rents are recognized as revenue in the year in which they are earned.

#### Retirement Cost

The Group has a non-contributory defined benefit retirement plans, except for FMIIC and its subsidiary which follow the defined contribution retirement benefit plan and the Mandatory Provident Fund Scheme (MPFS). The retirement cost of the Parent Company and most of its subsidiaries is determined using the projected unit credit method. Under this method, the current service cost is the present value of retirement benefits payable in the future with respect to services rendered in the current year. The net defined benefit liability or asset is the aggregate of the present value of the

defined benefit obligation (DBO) at the end of the statement of financial position date reduced by the fair value of plan assets, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- Service cost; and
- Net interest on the net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the statement of income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries. Net interest on the net defined benefit liability or asset is the change during the year in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in the statement of income. Retirement expense is presented under 'Compensation and fringe benefits' in the statement of income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to the statement in income in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

If the fair value of the plan assets is higher than the present value of the DBO, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Group's right to be reimbursed of some or all of the expenditure required to settle a DBO is recognized as a separate asset at fair value when and only when reimbursement is virtually certain. Payments to the defined contribution retirement benefit plans and the MPFS are recognized as expenses when employees have rendered service entitling them to the contributions.

#### **Eauity**

When the shares are sold at a premium, the difference between the proceeds and par value is credited to 'Capital paid in excess of par value', net of direct costs incurred related to the equity issuance. If 'Capital paid in excess of par value' is not sufficient, the excess is charged against 'Surplus'. When the Group issues more than one class of stock, a separate account is maintained for each class of stock and the number of stocks issued.

Surplus represents accumulated earnings of the Group less dividends declared.

Own equity instruments which are reacquired or Parent Company's shares acquired by its subsidiaries (treasury stock) are recognized at cost and deducted from equity. No gain or loss is recognized in the statement of income on the purchase, sale, issue or cancellation of the Parent Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in 'Capital paid in excess of par value'. Voting rights related to treasury stocks are nullified and no dividends are allocated. When the stocks are retired, the Common stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to 'Capital paid in excess of par value' at the time the stocks were issued and to 'Surplus' for the remaining balance.

#### **Provisions**

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as 'Interest expense'.

## **Contingent Liabilities and Contingent Assets**

Contingent liabilities are not recognized in the financial statements but are disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized but are disclosed in the notes to financial statements when an inflow of economic benefits is probable.

#### **Income Taxes**

#### Current taxes

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the statement of financial position date.

#### Deferred taxes

Deferred tax is provided on temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- a. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- b. In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular income tax, and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforward of unused tax credits from MCIT and unused NOLCO can be utilized except:

- a. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- b. In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each statement of financial position date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the statement of financial position date.

Current tax and deferred tax relating to items recognized directly in equity are recognized in OCI and not in the statement of income.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to offset current tax assets against current tax liabilities and deferred taxes relate to the same taxable entity and the same tax authority.

#### Earnings Per Share

Basic earnings per share is computed by dividing net income for the year attributable to equity holders of the Parent Company by the weighted average number of common shares outstanding during the year after giving retroactive effect to stock dividends declared and stock rights exercised during the year. The Group does not have dilutive potential common shares.

## **Dividends on Common Shares**

Cash dividends on common shares are recognized as a liability and deducted from the equity when approved by the BOD of the Parent Company while stock dividends are deducted from equity when approved by BOD and shareholders of the Parent Company. Dividends declared during the year but are paid or issued after the statement of financial position date are dealt with as a subsequent event.

## **Debt Issuance Costs**

Issuance, underwriting and other related costs incurred in connection with the issuance of debt instruments are deferred and amortized over the terms of the instruments using the EIR method. Unamortized debt issuance costs are included in the related carrying amount of the debt instrument in the statement of financial position.

# Capital Securities Issuance Costs

Issuance, underwriting and other related costs incurred in connection with the issuance of the capital securities are treated as a reduction of equity against 'Capital paid in excess of par value'.

### Events after the Statement of Financial Position Date

Post year-end events that provide additional information about the Group's position at the statement of financial position date (adjusting event) are reflected in the financial statements. Post year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

## Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on business segments is presented in Note 6.

## Fiduciary Activities

Assets and income arising from fiduciary activities together with related undertakings to return such assets to customers are excluded from the financial statements where the Parent Company and PSBank act in a fiduciary capacity such as nominee, trustee or agent.

## Standards Issued but not yet Effective

New and amended standards and interpretations that are issued but not yet effective will not have a material impact on the Bank's combined financial statements.

Effective beginning on or after January 1, 2024

- Amendments to PAS 1, Classification of Liabilities as Current or Non-current
- Amendments to PFRS 16, Lease Liability in a Sale and Leaseback
- Amendments to PAS 7 and PFRS 7, Disclosures: Supplier Finance Arrangements

Effective beginning on or after January 1, 2025

- PFRS 17, Insurance Contracts
- Amendments to PAS 21, Lack of exchangeability

## Deferred effectivity

• Amendments to PFRS 10, Consolidated Financial Statements, and PAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

## 3. Significant Accounting Judgments and Estimates

The preparation of the financial statements in compliance with PFRS requires the Group to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the disclosures of contingent assets and contingent liabilities. Future events may occur which can cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as they become reasonably determinable. Judgments and estimates are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The following are the critical judgments and key assumptions that have a significant risk of material adjustment to the carrying amounts of assets and liabilities within the next financial year:

## **Judgments**

a. Classification of financial assets

The Group classifies its financial assets depending on the results of the SPPI test and on the business model used for managing those financial assets.

When performing the SPPI test, the Group applies judgement and evaluates relevant factors and characteristics such as the behavior and nature of contractual cash flows, its original currency denomination, the timing and frequency of interest rate repricing, contingent events that would alter the amount and/or timing of cash flows, leverage features, prepayments or extension options and other features that may modify the consideration for the time value of momey.

As a second step, the Group performs business model assessment to reflect how financial assets are managed in order to generate net cash inflows based on the following factors:

- Business objectives and strategies for holding the financial assets;
- Performance measures and benchmarks being used to evaluate the Group's key management personnel accountable to the financial assets;
- Risks associated to the financial assets and the tools applied in managing those risks;
- Compensation structure of business units, including whether based on fair values changes of the investments managed or on the generated cash flows from transactions; and
- Frequency and timing of disposals.

In applying judgment, the Group also considers the circumstances surrounding the the transaction as well as the prudential requirements of the BSP.

## b. Consolidation of subsidiaries

The determination whether the Group has control over an investee company requires significant judgment. The Group considers that the following criteria are all met, including:

- An investor has the power over an investee;
- The investor has exposure, or rights, to variable returns from its involvement with the investee; and
- The investor has the ability to use its power over the investee to affect the amount of the investor's return.

In accordance with PFRS 10, the Group included the accounts of First Metro Save and Learn Balance Fund, Inc. (FMSALBF), First Metro Save and Learn Equity Fund, Inc. (FMSALEF), First Metro Save and Learn Dollar Bond Fund Inc. (FMSLDBF), First Metro Save and Learn Fixed Income Fund, Inc. (FMSLFIF), First Metro Philippine Equity Exchange Traded Fund, Inc. (FMPETF), First Metro Save and Learn F.O.C.C.U.S. Dynamic Fund, Inc. and First Metro Save and Learn Money Market Fund, Inc., collectively the "Funds", in its consolidated financial statements. The Group re-assessed the control conclusion for these Funds. Although the ownership is less than half of the voting power of these investees, the Group has control due to its power to direct the relevant activities of the Funds through First Metro Asset Management Inc. (FAMI), a subsidiary of FMIC, which acts as the fund manager of the Funds. Further, the Group has the exposure to variable returns from its investments and its ability to use its power over the Funds to affect their returns.

- c. Existence of significant influence over an associate with less than 20.00% ownership. As discussed in Note 11, there are instances that an investor exercises significant influence even if its ownership is less than 20.00%. The Group applies significant judgment in assessing whether it holds significant influence over an investee and considers the following:
  - Representation in the BOD or equivalent governing body of the investee;
  - Participation in policy-making processes, including participation in decisions about dividends or other distributions;
  - Material transactions between the investor and the investee;
  - Interchange of managerial personnel;

- Joint voting agreement with other investors; or
- Provision of essential technical information.

### d. Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded in the statement of financial position or disclosed in the notes to financial statements cannot be derived from active markets, these are determined using internal valuation techniques using generally accepted market valuation models. The inputs to these models are taken from observable markets where possible, but when this is not feasible, a degree of judgment is required in establishing fair values. These judgments may include considerations of liquidity and volatility for longer dated derivatives (Note 5).

## e. Contingencies

The Group is currently involved in legal proceedings. The estimate of the probable cost for the resolution of claims has been developed in consultation with and the aid of the outside legal counsel handling the Group's defense in this matter and is based upon an analysis of potential results. It is probable, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings (Note 30).

#### Estimates

## a. Credit losses on financial assets

The Group reviews its debt financial assets subject to ECL at least on a semi-annual basis with updating provisions made during the intervals as necessary based on the continuing analysis and monitoring of individual accounts by credit officers, as has been the case since 2020 when quarterly reviews and ECL adjustments are made in response to the changing credit environment. The measurement of credit losses under PFRS 9 across all categories of such financial assets requires judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining credit losses and the assessment of a SICR. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Group's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgments and estimates include, among others:

- Segmentation of the portfolio, where the appropriate model or ECL approach is used.
- Criteria for assessing if there has been a SICR and so allowances for debt financial assets should be measured on a lifetime ECL basis and the qualitative assessment.
  - The Group likewise performed quarterly reviews of its credit exposures to determine the occurrence of SICR notwithstanding said reprieves. Exposures belonging to sectors widely determined to be most at-risk and non-essential (for example, tourism, entertainment and leisure, hotels and restaurants, airlines), and projected to experience significant revenue and liquidity strain in the event of prolonged economic inactivity, were also included under Stage 2.
- Segmentation of debt financial assets when their ECL is assessed on a collective basis.
- Development of ECL models, including the various formulas and the choice of inputs. The Parent Company and the Group as a whole continuously review and calibrate their models based on the results of the model validation and regular backtesting.
- Determination of associations between macroeconomic scenarios and economic inputs, such as unemployment levels and collateral values, and the effect on PDs, LGDs and EADs.
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

The gross carrying amounts of financial assets subject to ECL as of December 31, 2023 and 2022 are disclosed in Note 4, while the related allowances for expected credit losses are disclosed in Note 15. In 2023, 2022 and 2021, provision for credit losses on these financial assets amounted to P7.9 billion, P7.8 billion and P11.7 billion, respectively, for the Group, and P6.2 billion, P5.7 billion and P7.7 billion, respectively, for the Parent Company (Note 15).

## b. Recognition of deferred income taxes

Deferred tax assets are recognized for all unused tax losses and deductible temporary differences to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The estimates of future taxable income indicate that certain temporary differences will be realized in the future. The recognized net deferred tax assets and unrecognized deferred tax assets for the Group and the Parent Company are disclosed in Note 28.

## c. Impairment of non-financial assets

The Group assesses impairment on non-financial assets (property and equipment, investments in subsidiaries, associates and a JV, investment properties, software costs, chattel mortgage properties and other assets) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following:

- Significant underperformance relative to expected historical or projected future operating results;
- Significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- Significant negative industry or economic trends.

The Group uses the higher of FVLCTS and VIU in determining the recoverable amount of the asset. In 2023 and 2022, the Group considered the impact of the COVID-19 pandemic in determining the VIU. Based on the Group's impairment testing as of December 31, 2023 and 2022, allowance for impairment losses on investment in associates amounted to ₱1.3 billion and ₱883.4 million, respectively for the Group, and ₱101.1 million for the Parent Company.

The carrying values of the property and equipment, investments in subsidiaries, associates and a JV, investment properties, software costs, chattel mortgage properties, and other assets of the Group and the Parent Company are disclosed in Notes 10, 11, 12 and 14, respectively.

#### Goodwill

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of the CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated, an impairment loss is recognized immediately in the statement of income. The recoverable amount of the CGU is determined based on FVLCTS.

The fair value of the CGU is determined using the cost approach, specifically the adjusted Net Asset Value (NAV) method. This method requires the measurement of the fair value of the individual assets and liabilities recognized in the CGU, as well as the fair value of any unrecognized assets and liabilities at the measurement date. The resulting net fair values of the assets and liabilities represent the fair value of the CGU. In determining the fair value of the CGU's net assets, the Group used the discounted cash flow method for unquoted debt financial assets/liabilities at the appropriate market rate, the price-to-earnings (P/E) valuation and adjusted NAV model for unquoted equity investments, and the appraisal reports for the valuation of real properties. Fair values of listed debt and equity securities are based on their quoted market prices. The Group applied the P/E valuation model by reference to P/E ratios of listed comparable companies of the investee company. The FVLCTS calculation of the CGU is most sensitive to the P/E ratios of listed comparable companies of the investee company. In 2023, the Group recognized impairment loss of \$\frac{P}{474.3}\$ million (Note 15). As of December 31, 2023 and 2022, the Group's goodwill amounted to \$\frac{P}{4.7}\$ billion and \$\frac{P}{5.2}\$ billion respectively.

# 4. Financial Risk and Capital Management

### **Introduction**

The Group has exposure to the following risks from its use of financial instruments:

- a. Credit:
- b. Liquidity; and
- c. Market risks.

#### Risk management framework

The BOD has overall responsibility for the oversight of the Parent Company's risk management process. On the other hand, the risk management processes of the subsidiaries are the separate responsibilities of their respective BOD. Supporting the BOD in this function are certain Board-level committees such as Risk Oversight Committee (ROC), Audit Committee (AC) and senior management committees through the Executive Committee (EXCOM) and Asset and Liability Committee (ALCO) among others.

The ROC, which is composed primarily of independent members of the BOD, is responsible for overseeing the Parent Company's risk infrastructure, the adequacy and relevance of risk policies, and the compliance to defined risk appetite and levels of exposure. The ROC is assisted in this responsibility by the Risk Management Group (RSK). The RSK undertakes the implementation and execution of the Parent Company's Risk Management framework which involves the identification, assessment, control, monitoring and reporting of risks.

The Parent Company and its subsidiaries manage their respective financial risks separately. The subsidiaries have their own risk management processes but are structured similar to that of the Parent Company. To a certain extent, the respective risk management programs and objectives are the same across the Group. The risk management policies adopted by the subsidiaries and affiliates are aligned with the Parent Company's risk policies. To further promote compliance with PFRS and Basel III, the Parent Company created a Risk Management Coordinating Council (RMCC) composed of risk officers of the Parent Company and its financial institution subsidiaries.

### Credit Risk

Credit risk is the risk of financial loss to the Group if a counterparty to a financial instrument fails to meet its contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, related groups of borrowers, market segments, and industry concentrations, and by monitoring exposures in relation to such limits,

among others. The same is true for treasury-related activities. Each business unit is responsible for the quality of its credit portfolio and monitoring and controlling all credit risks in its portfolio. Regular reviews and audits of business units and credit processes are undertaken by the RSK and Internal Audit Group, respectively.

## Management of credit risk

The Group faces potential credit risks every time it extends funds to borrowers, commits funds to counterparties, guarantees the paying performance of its clients, invests funds to issuers (for example, investment securities issued by either sovereign or corporate entities) or enter into either market-traded or over-the-counter derivatives, either through implied or actual contractual agreements (that is, on- or off-balance sheet exposures). The Parent Company manages its credit risk at various levels (that is, strategic level, portfolio level down to individual obligor or transaction) by adopting a credit risk management environment that has the following components:

- Formulating credit policies in consultation with business units, covering collateral requirements, credit/financial assessment, risk grading and reporting, and compliance with regulatory requirements;
- Establishment of authorization limits for the approval and renewal of credit facilities;
- Limiting concentrations of exposure to counterparties and industries (for loans), and by the issuer (for investment securities);
- Utilizing the Internal Credit Risk Rating System (ICRRS) to categorize exposures according to
  their risk profile. The risk grading system is used for determining loan loss provisions against
  credit exposures. The current risk grading framework consists of ten grades reflecting varying
  degrees of risk of default and the availability of collateral or other credit risk mitigation; and
- Monitoring compliance with approved exposure limits.

Borrowers, counterparties, or groups of related accounts across the Group are aggregated and managed by the Parent Company's Institutional Banking Sector as the "Control Unit". Group Limits for conglomerates are set-up and approved to guide subsidiaries and affiliates of the Group. Consolidated exposures are regularly reported to senior management, the EXCOM, and the ROC.

#### Credit risk at initial recognition

The Group uses internal credit assessment and approvals at various levels to determine the credit risk of exposures at initial recognition. Assessment can be quantitative or qualitative and depends on the materiality of the facility or the complexity of the portfolio to be assessed.

### Modification

In certain circumstances, the Group modifies the original terms and conditions of a credit exposure to form a new loan agreement or payment schedule. The modifications can be given depending on the borrower's or counterparty's current or expected financial difficulty. The modifications may include, but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of periodic payments and accrual of interest and charges.

On March 24, 2020, Republic Act (RA) No. 11469 or the "Bayanihan to Heal as One Act" (Bayanihan 1) was enacted declaring a state of national emergency over the entire country to control the spread of the COVID-19. Among the provisions of Bayanihan 1 is the implementation of a 30-day grace period for all loans with principal and/or interest falling due within the period of the Enhanced Community Quarantine without incurring interest on interest, on penalties, fees and other charges. Further, on September 11, 2020, RA No. 11494 or the "Bayanihan to Recover as One Act" (Bayanihan 2) was enacted and part of the provisions of the Bayanihan 2 is the implementation of a one-time 60-day grace period to be granted for the payment of all existing, current and outstanding loans falling due, or any part thereof, on or before December 31, 2020, without incurring interest on

interest, penalties, fees and other charges, thereby extending the maturity of said loans. In addition, Bayanihan 2 allows loans to be settled on a staggered basis without interest on interests, penalties, fees or other charges until December 31, 2020 or as may be agreed upon by both parties.

As of December 31, 2020, the impact of loan modifications as a result of the Bayanihan 1 and Bayanihan 2 Acts amounted to a loss of ₱1.7 billion for the Group and ₱1.2 billion for the Parent Company. For the year ended December 31, 2023 and 2022, total accretion arising from the accretion of the modified loans arising from the Bayanihan 1 and Bayanihan 2 Acts amounted to ₱70.1 million and ₱107.0 million, respectively, for the Group, and nil for the Parent Company.

## Maximum exposure to credit risk

An analysis of the maximum credit risk exposure (net of allowance for ECL) relating to financial assets with collateral or credit enhancements is shown below:

The maximum exposure to credit risks for the other financial assets is limited to their carrying values as of December 31, 2023 and 2022.

Collaterals on loans and receivables includes real estate and chattel mortgages, guarantees, and other registered securities over assets. Generally, collateral is not held over loans and advances to banks, except for reverse repurchase agreements and certain due from other banks. Collateral usually is not held against investment securities, and no such collateral was held as of December 31, 2023 and 2022. Estimates of fair values of the collateral are based on the value of collateral assessed at the

time of borrowing and are regularly updated according to internal lending policies and regulatory guidelines. The Group is not permitted to sell or repledge the collateral in the absence of default by the counterparty.

The following tables show the effect of rights of set-off associated with the recognized financial assets and financial liabilities:

## Excessive risk concentration

Credit risk concentrations can arise whenever a significant number of borrowers have similar characteristics and are affected similarly by changes in economic or other conditions. The Parent Company analyzes the credit risk concentration to an individual borrower, related group of accounts, industry, internal rating buckets, and security. For risk concentration monitoring purposes, the financial assets are broadly categorized into (1) loans and receivables and (2) trading and financial investment securities. To mitigate risk concentration, the Parent Company constantly checks for breaches in regulatory and internal limits.

Concentration of risks of financial assets with credit risk exposure
Below is an analysis of concentrations of credit risk at the statement of financial position date based on carrying amount:

Credit quality per class of financial assets
The credit quality of financial assets is assessed and managed using external and internal ratings (applying ICRRS).

<sup>\*</sup> Comprised of due from BSP, due from other banks and interbank loans receivable and SPURA.

\*\* Comprised of debt securities at FVOC1 and investment securities at amortized cost.

\*\*\* Comprised of applicable accounts under other assets, financial guarantees and loan commitments and other credit-related liabilities.

\*\*\*\* Comprised of loans and investments to the National Government.

# The ICRRS contains the following:

a. Borrower Risk Rating (BRR) - an assessment of the credit worthiness of the borrower (or guarantor) without considering the type or amount of the facility and security arrangements. It is an indicator of the probability that a borrower cannot meet its credit obligations when they fall due. The components of the assessment are described below:

Component	Description	Credit Factor Weight
Financial Condition	Refers to the financial condition of the borrower based on audited financial statements as indicated by certain financial ratios. The Financial Factor Evaluation is conducted manually.	40.00%
Industry Analysis	Refers to the prospects of the industry, as well as the company's performance and position in the industry.	30.00%
Management Quality	Refers to the management's ability to run the company successfully.	30.00%

- b. Facility Risk Factor (FRF) determined for each individual facility considering the term of the facility, security arrangement and quality of documentation. This factor can downgrade or upgrade the BRR based on the elements relating to cover (collateral including pledged cash deposits and guarantee), quality of documentation and structure of transactions.
- c. Adjusted Borrower Risk Rating combination of BRR and FRF.

#### Loans and receivables

The credit quality is generally monitored using the 10-grade ICRRS, which is integrated in the credit process. The validation of the individual borrower's risk rating is performed by the Credit Group to maintain accurate and consistent risk ratings across the credit portfolio. For commercial loans, the credit quality with the corresponding ICRRS Grade and description follows:

## High Grade

## 1 - Excellent

An excellent rating is given to a borrower with a very low probability of going into default and with high degree of stability, substance and diversity. Borrower has access to raise substantial amounts of funds through public market at any time; very strong debt service capacity and has conservative balance sheet ratios. Track record in profit terms is very good. Borrower exhibits highest quality under virtually all economic conditions.

# 2 - Strong

This rating is given to borrowers with low probability of going into default in the coming year. Normally has a comfortable degree of stability, substance and diversity. Under normal market conditions, borrower has good access to public markets to raise funds. Have a strong market and financial position with a history of successful performance. Overall debt service capacity is deemed very strong; critical balance sheet ratios are conservative. Concerned multinationals or local corporations are well capitalized.

#### Standard Grade

#### 3 - Good

This rating is given to smaller corporations with limited access to public capital markets or to alternative financial markets during favorable economic and/or market conditions. As it bears characteristics of some degree of stability and substance, probability of default is quite low. However, susceptibility to cyclical changes and more concentration of business risk, by product or market, may be present. Typical is the combination of comfortable asset protection and an acceptable balance sheet structure. Debt service capacity is strong.

# 4 - Satisfactory

A 'satisfactory' rating is given to a borrower where clear risk elements exist and probability of default is somewhat greater. Due to volatility of earnings and overall performance, borrower normally has limited access to public markets. Borrower should be able to withstand normal business cycles, but any prolonged unfavorable economic period would create deterioration beyond acceptable levels. With the combination of reasonable sound asset and cash flow protection, the debt service capacity is adequate. Reported profits in the past year and is expected to report a profit in the current year.

#### 5 - Acceptable

An 'acceptable' rating is given to a borrower whose risk elements are sufficiently pronounced although borrower should still be able to withstand normal business cycles. Any prolonged unfavorable economic and/or market period would create an immediate deterioration beyond acceptable levels. Risk is still acceptable as there is sufficient cash flow either historically or expected in the future from new business or projected finance transaction; an existing borrower where the nature of the exposure represents a higher risk because of extraordinary developments but for which a decreasing risk within an acceptable period can be expected.

#### Watchlist Grade

# 5 - Watchlist

This rating is given to a borrower that belongs to an unfavorable industry or has company-specific risk factors which represent a concern. Operating performance and financial strength may be marginal and it is uncertain if borrower can attract alternative course of finance.

#### 6 - Watchlist

Borrower finds it hard to cope with any significant economic downturn and a default in such a case is more than a possibility. Credit exposure is not at risk of loss at the moment but performance of the borrower has weakened which, unless present trends are reversed, could lead to losses.

### Classified Grade

## 7 - Especially Mentioned

This rating is given to a borrower that exhibits pronounced weaknesses that deserve management's close attention. These potential weaknesses, if left uncorrected, may affect the repayment of the loan and thus, increase credit risk of the Group. Classification can be worsened if borrower is endorsed to Special Accounts Management Group for collection.

#### 8 - Substandard

These are loans or portions thereof which appear to involve a substantial and unreasonable degree of risk to the Group because of unfavorable record or unsatisfactory characteristics. There exists the possibility of future losses to the Group unless given closer supervision. Borrower has well-defined weaknesses or weaknesses that jeopardize loan liquidation. Such well-defined weaknesses may include adverse trends or development of financial, managerial, economic or political nature, or a significant weakness in collateral.

## 9 - Doubtful

This rating is given to a nonperforming borrower whose loans or portions thereof have the weaknesses inherent in those classified as Substandard, with the added characteristics that existing facts, conditions, and values make collection or liquidation in full, highly improbable and in which substantial loss is probable.

#### 10 - Loss

This rating is given to a borrower whose loans or portions thereof are considered uncollectible or worthless and of such little value that their continuance as bankable assets is not warranted although the loans may have some recoveries or salvage value. The amount of loss is difficult to measure and it is not practical or desirable to defer writing off these basically worthless assets even though partial recovery may be obtained in the future.

The credit quality of consumer loan applicants is currently evaluated using quantitative and qualitative criteria. For booked consumer loans, the description of credit quality is as follows:

### High Grade

# Good credit rating

This rating is given to a good repeat client with very satisfactory track record of its loan repayment (paid at least 50.00%) and whose account did not turn past due during the entire term of the loan.

### Standard Grade

#### Good

A good rating is given to accounts which did not turn past due for 90 days and over.

#### Limited

This rating is given to borrowers who have average track record on loan repayment (paid less than 50.00%) and whose account did not turn past due for 90 days and over.

### Substandard Grade

#### Poor

A poor rating is given to accounts who reached 90 days past due regardless of the number of times and the number of months past due.

#### Poor litigation

This rating is given to accounts that were past due for 180 days and over and are currently being handled by lawyers.

### **Impaired**

## Poor repossessed

This rating is given to accounts whose collaterals were repossessed.

### Poor written-off

This rating is given to accounts that were recommended for write-off.

For booked credit card receivables, the description of credit quality is as follows:

## Excellent

These are customers that have exhibited the best payment behavior and are generally those without history of past due which have been paying the outstanding balance in full over a period of twelve (12) months.

### Very Satisfactory

These are customers that have exhibited the good payment behavior and are generally those without history of past due but could have revolved over a period of twelve (12) months.

# Satisfactory

These are customers that have shown history of past due but not impaired, and are still within the average level of the credit card portfolio which remains to be profitable.

#### Poor

These are customers that are past due but not yet impaired and could still be cured by collection mitigation strategies.

## Default

These are customers that are already impaired. Recovery strategies are needed to reduce exposure to these customers.

### Investment securities

In ensuring quality investment portfolio, the Group uses the credit risk rating from the published data providers like Moody's, Standard & Poor's (S&P) or other reputable rating agencies. The following indicates the levels of equivalent credit quality and its relevant external rating:

Credit Quality	External Rating									
High grade	Aaa	Aa1	Aa2	A1	A2	A3	Baa1	Baa2	Baa3	
Standard grade	Ba1	Ba2	Ba3	B1	B2					
Substandard grade	B3	Caa1	Caa2	Caa3	Ca	C				
Impaired	D									

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to those rated by external rating agencies as 'Investment grade' (that is, those under High grade in the table above).

The following table shows the credit quality of loans and advances to banks, gross of allowance for credit losses, as of December 31, 2023 and 2022. All loans and advances to banks are classified as Stage 1 in 2023 and 2022.

# Liquidity Risk

Liquidity risk is the current and prospective risk to earnings or capital arising from the inability to meet its obligations when they become due. This may be caused by the inability to liquidate assets or to obtain funding to meet the liquidity needs. The Group manages its liquidity risk by holding adequate stock of high-quality liquid assets, analyzing net funding requirements over time, diversifying funding sources and contingency planning.

To measure the prospective liquidity needs, the Group uses Maximum Cumulative Outflow (MCO), a liquidity gap tool to project short-term and long-term cash flow expectations on a business-as-usual condition.

The MCO is generated by distributing the cash flows of the Group's assets, liabilities and off-balance sheet items to time bands based on cash flow expectations such as contractual maturity, nature of the account, behavioral patterns, projections on business strategies, and/or optionality of certain products. The incorporation of behavioral cash flow assumptions and business projections or targets results in a dynamic gap report that realistically captures the behavior of the products and creates a forward-looking cash flow projection.

Cash flows from assets are considered as cash inflows, while cash flows from liabilities are considered cash outflows. The net cash flows are determined for each given time period. If the inflows exceed the outflows, the Group is said to have a positive liquidity gap or has excess funds for the given time bucket. Conversely, if the outflows exceed the inflows, the Group is said to have a negative liquidity gap or has funding needs for the given time bucket.

The MCO is monitored regularly to ensure that it remains within the set limits. The Parent Company generates and monitors daily its MCO, while the subsidiaries generate the report at least monthly. The liquidity profile of the Group is reported monthly to the Parent Company's ALCO and ROC.

To supplement the business-as-usual scenario parameters reflected in the MCO report, the Group also conducts liquidity stress testing to determine the impact of extreme factors, scenarios and/or events to the Group's liquidity profile. Liquidity stress testing exercise is performed quarterly on a per firm basis, and at least annually on the Group-wide level.

#### Financial assets

Analysis of debt securities into maturity groupings is based on the expected date on which these assets will be realized. For other financial assets, the analysis into maturity groupings is based on the remaining period from the end of the reporting period to the contractual maturity date or, if earlier, the expected date the assets will be realized.

## Financial liabilities

The maturity groupings are based on the remaining period from the end of the reporting period to the contractual maturity date. When a counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Group can be required to pay.

The tables below summarize the maturity profile of financial instruments and gross-settled derivatives based on contractual undiscounted cash flows:

<sup>\*</sup>Does not include derivatives embedded in financial and non-financial contracts.

### Market Risk

Market risk is the possibility of loss to future earnings, fair values or future cash flows that may result from changes in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates, and other market factors. Market risk originates from holdings in foreign currencies, debt securities and derivatives transactions.

Depending on the business model for the product, that is, whether they belong to the trading book or banking book, the Group applies different tools and processes to manage market risk exposures. Risk limits, approved by the BOD, are enforced to monitor and control this risk. RSK, as an independent body under the ROC, performs daily market risk analyses to ensure compliance to policies and limits, while Treasury Group manages the asset/liability risks arising from both banking book and trading operations in financial markets. The ALCO, chaired by the President, manages market risks within the parameters approved by the BOD.

As part of group supervision, the Parent Company regularly coordinates with subsidiaries to monitor their compliance to their respective risk tolerances and to ensure alignment of risk management practices. Each subsidiary has its own risk management unit responsible for monitoring its market risk exposures. The Parent Company, however, requires regular submission of market risk profiles from subsidiaries which are presented to ALCO and ROC in both individual and consolidated forms to provide senior management and ROC a holistic perspective and ensure alignment of strategies and risk appetite across the Group.

# Market risk - trading book

In measuring the potential loss in its trading portfolio, the Parent Company uses Value-at-Risk (VaR). VaR is an estimate of the potential decline in the value of a portfolio, under normal market conditions, for a given "confidence level" over a specified holding period. The Parent Company measures and monitors the Trading Book VaR daily and this value is compared against the set VaR limit. Meanwhile, the Group VaR is monitored and reported monthly.

## VaR methodology assumptions and parameters

Historical Simulation (HS) is used to compute the VaR. This method assumes that market rates volatility in the future will follow the same movement that occurred within the 260-day historical period. In calculating VaR, a 99.00% confidence level and a one-day holding period are assumed.

This means that, statistically, within a one-day horizon, the trading losses will exceed VaR in 1 out of 100 trading days.

Like any other model, the HS method has its own limitations. To wit, it cannot predict volatility levels which did not happen in the specified historical period. The validity of the VaR model is verified through a daily backtesting analysis, which examines how frequently both actual and hypothetical daily losses exceed VaR. The result of the daily backtesting analysis is reported to the ALCO and ROC monthly.

A summary of the VaR levels of the trading portfolio of the Parent Company appears below:

	Rates and FX	Fixed Income	FX Options
As of December 31, 2023			
December 29	₽390.72	₽122.48	₽3.96
Average	278.53	196.01	24.70
Highest	453.90	302.01	108.94
Lowest	117.61	118.45	0.28
As of December 31, 2022			
December 29	₽320.71	₽170.14	₽1.13
Average	286.32	201.64	1.05
Highest	596.04	495.86	9.07
Lowest	83.06	94.88	0.07

Rates and Foreign Exchange (FX) VaR is the correlated VaR of the following products: FX spot, outright forward, non-deliverable forwards, FX swaps, interest rate swaps, and cross-currency swaps. The Fixed Income VaR is the correlated VaR of these products: peso and foreign currency bonds, bond forwards and credit default swaps (CDS).

Subsidiaries with trading books perform daily mark-to-market valuation and VaR calculations for their exposures. Risk exposures are bounded by a system of risk limits and monitoring tools to effectively manage these risks.

The table below summarizes the VaR levels of PSBank:

	Bonds		
	PHP	FX	
As of December 31, 2023			
December 29	<b>₽1.447</b>	<b>₽1.212</b>	
Average	0.214	1.356	
Highest	1.455	2.319	
Lowest	0.001	0.617	
As of December 31, 2022			
December 29	₽0.001	₽0.857	
Average	0.002	1.669	
Highest	0.001	0.263	
Lowest	_	_	

The limitations of the VaR methodology are recognized by supplementing VaR limits with other position and sensitivity limit structures and by doing stress testing analysis. These processes address potential product concentration risks, monitor portfolio vulnerability and give the management an early advice if an actual loss goes beyond what is deemed to be tolerable to the Group and the Parent Company, even before the VaR limit is hit.

Stress testing is performed by the Parent Company on a quarterly basis and the results are reported to the ALCO and, subsequently, to the ROC and BOD. On a group-wide perspective, stress testing is done, at least, annually. The results are reported by the Parent Company's Risk Management Group to the BOD through ROC.

# Market risk - banking book

The Group has in place their own risk management system and processes to quantify and manage market risks in the banking book. To the extent applicable, these are generally aligned with the Parent's framework/tools.

The Group assesses interest rate risk in the banking book using measurement tools such as Interest Rate Repricing Gap, Earnings-at-Risk (EaR), Delta Economic Value of Equity (D.EVE) and Sensitivity Analysis.

Interest Rate Repricing Gap is a tool that distributes rate-sensitive assets and liabilities into predefined tenor buckets according to time remaining to their maturity (if fixed rate) or repricing (if floating rate). Items lacking definitive repricing schedules (for example, current and savings account) and items with actual maturities that could vary from contractual maturities (for example, securities with embedded options) are assigned to repricing tenor buckets based on an analysis of historical patterns, past experience and/or expert judgment.

EaR measures the possible decline in the Group's net interest income as a result of adverse interest rate movements, given the current repricing profile. It is a tool used to evaluate the sensitivity of the accrual portfolio to changes in interest rates in the adverse direction over the next twelve (12) months.

# EaR methodology assumptions and parameters

The Group calculates EaR using Historical Simulations (HS) approach, with one-year horizon and using five years data. EaR is then derived as the 99th percentile biggest drop in net interest income.

The table below shows the EaR profile of the Parent Company and certain subsidiaries as of December 31, 2023 and 2022:

	Parent			
	Company	<b>PSBank</b>	ORIX Metro	Group
2023	( <del>P</del> 4,963.09)	<b>(₽460.20)</b>	<b>(₽29.18)</b>	(₱5,008.08)
2022	( <del>P</del> 4,422.29)	( <del>P</del> 448.88)	(₱28.18)	( <del>P</del> 4,671.29)

The Parent Company generates and monitors daily its EaR exposure while the subsidiaries generate their EaR reports at least monthly.

The Parent Company employs the Delta EVE model to measure the overall change in the economic value of the bank at one point. It reflects the changes in the net present value of its banking book at different interest rate shocks and stress scenarios. ΔEVE is calculated by slotting the notional repricing cash flows arising from rate-sensitive assets and liabilities into pre-defined tenor buckets. The present value of the net repricing cash flows is then calculated using various interest rate scenarios prescribed by Basel, as well as scenarios internally developed by the Parent Company. For 2023 and 2022, the ΔEVE of the Parent Company ranges from (₱1.65 billion) to (₱0.0 billion) and (₱0.1 billion) to (₱0.5 billion), respectively. As of December 31, 2023 and 2022, the ΔEVE stood at (₱2.3 billion) (0.91% of Common Equity Tier 1 (CET1) Capital) and (₱1.2 billion) (0.56% of CET1 Capital), respectively. The Parent Company has adequate capital to support potential change in value of equity even at worst stress scenario.

Aside from the tools above, the Parent Company and its subsidiaries perform regular sensitivity and stress testing analyses on their banking books to broaden their forward-looking analysis. This way, management can craft strategies to address and/or arrest probable risks, if necessary.

# Foreign currency risk

Foreign exchange risk is the probability of loss to earnings or capital arising from changes in foreign exchange rates. Foreign currency liabilities generally consist of foreign currency deposits in the Group's FCDU account. Foreign currency deposits are generally used to fund the Group's foreign currency-denominated loan and investment portfolio in the FCDU. Banks are required by the BSP to match the foreign currency liabilities with the foreign currency assets held in FCDUs. Outside the FCDU, the Group has additional foreign currency assets and liabilities in its foreign branch network. The Group's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines.

The following table sets forth, for the year indicated, the impact of reasonably possible changes in the USD exchange rate and other currencies per Philippine peso on pre-tax income and equity:

			Consol	lidated					Parent Co	ompany		
	<b>2023</b> 2022				2023			2022

Information relating to the Parent Company's currency derivatives is included in Note 8. As of December 31, 2023 and 2022, the Parent Company has outstanding foreign currency spot transactions (in equivalent peso amounts) of ₱56.0 billion and ₱18.6 billion, respectively (sold), and ₱55.6 billion and ₱18.4 billion, respectively (bought).

The impact on the Parent Company's equity already excludes the impact on transactions affecting the statements of income.

# IBOR reform

Following the decision by global regulators to phase out IBORs and replace them with alternative benchmark reference rates, the Parent Company created a transition team early on to assess the business and customer impact and to establish a viable transition and communication plan. The team involves stakeholders from different units across the Parent Company and ensures compliance with the requirements of BSP Memorandum No. M-2020-083 (Transition from the LIBOR and Reporting Requirements on LIBOR-Related Exposures). The Parent Company is continuously working on the transition of its IBOR exposure to RFRs.

IBOR reform exposes the Parent Company to various risks, which the project team is managing and monitoring closely. These risks include but are not limited to the following:

- Conduct risk arising from discussions with clients and market counterparties due to the amendments required to existing contracts necessary to effect IBOR reform.
- Financial risk to the Parent Company and its clients that markets are disrupted due to IBOR reform giving rise to financial losses.

- Pricing risk from the potential lack of market information if liquidity in IBORs reduces and RFRs are illiquid and unobservable.
- Operational risk arising from changes to the Parent Company's IT systems and processes, also the risk of payments being disrupted if an IBOR ceases to be available.

The tables below show the Group and the Parent Company's exposure to significant IBORs subject to reform that have yet to transition to risk free rates as of December 31, 2022:

		Consolidated					
	_	Deriva	ative Assets	<b>Derivative Liabilities</b>

	₽83,169	₽3,522	₽27,694	₽6,822	₽88,475			

#### Capital Management

The primary objectives of the Group's capital management are to ensure that it complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholders' value.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders, return capital structure, or issue capital securities. No changes were made in the objectives, policies and processes from the previous year.

## **BSP** Reporting

# Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the compliance with regulatory requirements and ratios is based on the amount of the "unimpaired capital" (regulatory net worth) as reported to the BSP, which is determined on the basis of regulatory accounting policies that differ from PFRS in some respects.

The Group complied with BSP Circular No. 781, *Basel III Implementing Guidelines on Minimum Capital Requirements*, which provides the implementing guidelines on the revised risk-based capital adequacy framework, particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. BSP Circular No. 781 sets out a minimum CET1 ratio of 6.00% and Tier 1 capital ratio of 7.50%; capital conservation buffer of 2.50% comprised of CET1 capital and Total Capital Adequacy Ratio (CAR) of 10.00%. These ratios shall be maintained at all times. Further, BSP Circular No. 856 covers the implementing guidelines on the framework for dealing with

domestic systemically important banks (DSIBs) in accordance with the Basel III standards. Banks identified as DSIBs shall be required to have higher loss absorbency, on top of the minimum CET1 capital and capital conservation buffer (CCB) and countercyclical capital buffer (CCYB).

The details of CAR, as reported to the BSP, as of December 31, 2023 and 2022 follow:

	Consolid	ated Parent Con		npany	
	2023	2022	2023	2022	
Tier 1 capital	₽355,786	₽316,142	₽345,921	₽306,824	
CET1 Capital	355,786	316,142	345,921	306,824	
Less: Required deductions	33,739	33,001	101,305	101,457	
Net Tier 1 Capital	322,047	283,141	244,616	205,367	
Tier 2 capital	15,532	14,337	12,724	11,935	
Total Qualifying Capital	₽337,579	₽297,478	₽257,340	₽217,302	
Credit Risk-Weighted Assets	₽1,550,881	₽1,429,964	₽1,296,218	₽1,191,825	
Market Risk-Weighted Assets	106,231	68,546	91,609	55,124	
Operational Risk-Weighted Assets	189,471	184,027	152,223	135,512	
Total Risk-Weighted Assets	1,846,583	1,682,537	1,540,050	1,382,461	
CET1 Ratio*	17.44%	16.83%	15.88%	14.86%	
Tier 1 capital ratio	17.44%	16.83%	15.88%	14.86%	
Total capital ratio	18.28%	17.68%	16.71%	15.72%	

<sup>\*</sup> of which capital conservation buffer in 2023 and 2022 is 11.44% and 10.83% for the Group and 9.88% and 8.86%, respectively, for the Parent Company.

Qualifying capital and risk-weighted assets (RWA) are computed based on BSP regulations. Under Basel III, the regulatory qualifying capital of the Parent Company consists of CET1 capital, which comprises paid-up common stock, additional paid-in capital, retained earnings, including current year profit, retained earnings reserves, OCI and non-controlling interest less required regulatory deductions. The other component of regulatory capital is Tier 2 (supplementary) capital, which includes unsecured subordinated debts and general loan loss provision. RWA consist of total assets excluding cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits and other non-risk items determined by the Monetary Board (MB) of the BSP. Operational RWA are computed using the Basic Indicator Approach.

The Group and its individually regulated operations have complied with all externally imposed capital requirements throughout the year.

The Internal Capital Adequacy Assessment Process (ICAAP) supplements the BSP's risk-based capital adequacy framework. In compliance with this, the Group has adopted and developed its ICAAP framework to ensure that appropriate level and quality of capital are maintained by the Group. Under this framework, the assessment of risks extends beyond the Pillar 1 set of credit, market and operational risks and onto other risks deemed material by the Group. The level and structure of capital are assessed and determined in light of the Group's business environment, plans, performance, risks and budget as well as regulatory edicts.

## Basel III Leverage Ratio (BLR)

BSP Circular Nos. 881 and 990 cover the implementing guidelines on the BLR framework designed to act as a supplementary measure to the risk-based capital requirements and shall not be less than 5.00%. Effective July 1, 2018, the monitoring of the leverage ratio was implemented as a Pillar I minimum requirement.

The details of the BLR, as reported to the BSP, as of December 31, 2023 and 2022 follow:

	Consol	lidated	Parent Company		
	2023	2022	2023	2022	
Tier 1 Capital	₽322,047	₱283,141	₽244,616	₽205,367	
Exposure Measure	₽3,505,850	₽3,016,548	₽3,101,480	₽2,598,795	
BLR	9.19%	9.39%	7.89%	7.90%	

Under the framework, BLR is defined as the capital measure divided by the exposure measure. Capital measure is Tier 1 capital. Exposure measure is the sum of on-balance sheet exposures, derivative exposures, security financing exposures and off-balance sheet items.

## Liquidity Coverage Ratio (LCR)

BSP Circular No. 905 provides the implementing guidelines on LCR and disclosure standards that are consistent with the Basel III framework. The LCR is the ratio of high-quality liquid assets to total net cash outflows which should not be lower than 100.00%. Compliance with the LCR minimum requirement commenced on January 1, 2018 with the prescribed minimum ratio of 90.00% for 2018 and 100.00% effective January 1, 2019. As of December 31, 2023 and 2022, the LCR in single currency as reported to the BSP, was at 269.51% and 244.84%, respectively, for the Group, and 300.62% and 265.21%, respectively, for the Parent Company.

# Net Stable Funding Ratio (NSFR)

On June 6, 2018, the BSP issued BSP Circular No.1007 covering the implementing guidelines on the adoption of the Basel III Framework on Liquidity Standards – NSFR. The NSFR is aimed to promote long-term resilience against liquidity risk by requiring banks to maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. It complements the LCR, which promotes short term resilience of a bank's liquidity profile. Banks shall maintain an NSFR of at least 100 percent (100%) at all times. The implementation of the minimum NSFR shall be phased in to help ensure that covered banks can meet the standard through reasonable measures without disrupting credit extension and financial market activities. An observation period was set from July 1 to December 31, 2018. Effective, January 1, 2019, banks shall comply with the prescribed minimum ratio of 100%. As of December 31, 2023 and 2022, the NSFR as reported to the BSP, was at 140.79% and 158.25%, respectively, for the Group, and 140.65% and 156.73%, respectively, for the Parent Company.

#### 5. Fair Value Measurement

## Financial Instruments

The methods and assumptions used by the Group and the Parent Company in estimating the fair values of financial assets and financial liabilities are:

Cash and other cash items, due from BSP and other banks and interbank loans receivable and SPURA

The carrying amounts of instruments with long-term maturities are not material to the financial statements, thus, fair values of these instruments were based on their carrying amounts.

# Trading and investment securities

Fair values of debt and equity securities are generally based on quoted market prices. Where the debt securities are not quoted or the market prices are not readily available, the Group and the Parent Company obtained valuations from independent parties offering pricing services, used adjusted quoted market prices of comparable investments, or applied discounted cash flow methodologies.

For equity securities that are not quoted, remeasurement to their fair values is not material to the financial statements.

#### Derivative instruments

Fair values are estimated based on quoted market prices, prices provided by independent parties, or prices derived using acceptable valuation models. The models utilize published underlying rates (for example, interest rates, FX rates, CDS rates, FX volatilities and spot and forward FX rates) and are implemented through validated calculation engines.

#### Loans and receivables

Fair values of the Group's loans and receivables are estimated using the discounted cash flow methodology, using current incremental lending rates for similar types of loans. Where the instrument reprices on a quarterly basis or has a relatively short maturity, the carrying amounts approximate fair values.

#### Liabilities

Fair values are estimated using the discounted cash flow methodology using the Group's current borrowing rate for similar borrowings with maturities consistent with those remaining for the liability being valued, if any. The carrying amounts of demand and savings deposit liabilities and other short-term liabilities approximate fair values considering that these are either due and demandable or with short-term maturities.

## Non-Financial Assets

# Investment properties

Fair value of investment properties is determined based on valuations performed by independent and in-house appraisers using a valuation technique with significant inputs that are not based on observable market data (Level 3). The valuation of investment properties was based on the Sales Comparison Approach and considered recent sales of similar or substitute properties in the same areas where the investment properties are located, taking into account the economic conditions prevailing at the time of the valuation. Other factors considered were the location and shape of the properties, environmental issues, development controls such as the height restrictions, building coverage and floor area ratio restrictions, among others. The fair value of investment properties is based on its highest and best use, which is their current use.

The following tables summarize the carrying amounts and fair values of assets and liabilities, analyzed among those whose fair value is based on:

- Quoted market prices in active markets for identical assets or liabilities (Level 1);
- Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and

• Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

As of December 31, 2023 and 2022, there were no transfers between levels of the fair value hierarchy.

When fair values of listed equity and debt securities, as well as publicly traded derivatives at the statement of financial position date are based on quoted market prices or binding dealer price quotations, without any adjustments for transaction costs, the instruments are included within Level 1 of the hierarchy.

For all other financial instruments, fair value is determined using valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist and other revaluation models. Instruments included in Level 3 include those for which there is currently no active market.

# 6. **Segment Information**

The Group's operating businesses are recognized and managed separately according to the nature of services provided and the different markets served with segment representing a strategic business unit. Operating segments are reported in accordance with internal reporting to the Senior Management who is responsible for allocating resources to the segments and assessing its performance. The financial reporting basis used in the internal reporting is PFRS.

The Group's business segments follow:

- Consumer Banking principally providing consumer type loans and support for effective sourcing and generation of consumer business;
- Corporate Banking principally handling loans and other credit facilities and deposit and current accounts for corporate and institutional customers;
- Investment Banking principally arranging structured financing, and providing services relating to privatizations, initial public offerings, mergers and acquisitions; and providing advisory services primarily aimed to create wealth to individuals and institutions;
- Treasury principally providing money market, trading and treasury services, as well as the management of the Group's funding operations by use of treasury bills, government securities and placements and acceptances with other banks, through treasury and corporate banking;
- Branch Banking principally handling branch deposits and providing loans and other loan related businesses for domestic middle market clients; and
- Others principally handling other services including but not limited to remittances, leasing, account financing, and other support services. Other operations of the Group comprise the operations and financial control groups.

Segment assets are those operating assets that are employed by a segment in its operating activities and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis. Segment liabilities are those operating liabilities that result from the operating activities of a segment and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis.

Interest income is reported net, as management primarily relies on the net interest income as performance measure, not the gross income and expense. The Group has no significant customers which contributes 10.00% or more of the consolidated revenue net of interest expense. Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is charged/credited to business segments based on a pool rate which approximates the cost of funds.

The following table presents revenue and income information of operating segments presented in accordance with PFRS and segment assets and liabilities:

	Consumer Banking	Corporate Banking	Investment Banking	Treasury	Branch Banking	Others	Total
2023							
Results of Operations

	₽536,623	₽530,464	₽442,674	₽418,047	

The equity securities are irrevocably designated at FVOCI as these are held for long term-strategic purpose rather than for trading. These equity securities include golf club shares and non-marketable equity securities. In 2023 and 2022, as part of its risk management, the Group disposed equity securities at FVOCI with total carrying value of \$\mathbb{P}94.1\$ million and \$\mathbb{P}6.8\$ million, respectively, and recognized gain (loss) on disposal charged against 'Surplus' of (\$\mathbb{P}84.6\$ million) and \$\mathbb{P}1.4\$ million, respectively. Dividends recognized for the disposed equity securities in 2023 and 2022 amounted to nil and \$\mathbb{P}0.2\$ million, respectively.

Outstanding equity securities at FVOCI as of December 31, 2023 and 2022 generated dividends amounting to \$\frac{1}{2}\$47.8 million and \$\frac{1}{2}\$42.5 million, respectively for the Group, and \$\frac{1}{2}\$14.9 million and \$\frac{1}{2}\$7.8 million, respectively, for the Parent Company.

As of December 31, 2023 and 2022, the ECL on debt securities at FVOCI (included in 'Net unrealized gain (loss) on investment securities at FVOCI') amounted to ₱809.5 million and ₱740.8 million respectively, for the Group and the Parent Company (Note 15).

As of December 31, 2023 and 2022, investment securities at FVOCI include floating and fixed rate private notes with total carrying value of USD 11.0 million and USD10.8 million, respectively (with peso equivalent of \$\mathbb{P}606.4\$ million and \$\mathbb{P}604.0\$ million, respectively) which are pledged by the Parent Company's New York Branch in compliance with the regulatory requirements of the Federal Deposit Insurance Corporation and the Office of the Controller of the Currency in New York.

Movements in net unrealized gains (losses), including share in net unrealized gains (losses) of subsidiaries (Note 11), presented under 'Equity' in the statements of financial position are as follows:

#### Investment in CIRCA

On May 4, 2022, the stockholders of CIRCA 2000 Homes, Inc. approved the shortening of its corporate term to end on December 31, 2024 through an amendment of its Articles of Incorporation (AOI). The amended AOI was approved by the SEC on June 10, 2022.

#### Investment in Orix Metro

On April 20, 2022, the BOD of Orix Metro approved the voluntary surrender of its quasi banking license. This was approved by the BSP on June 23, 2022.

#### Investment in FMIC

On September 15, 2023, the SEC approved the following amendments on the Articles of Incorporation of FMIC:

- 1. Deletion of the primary purpose pertaining to the quasi-banking and trust activities of FMIC in view of BSP's approval to surrender its quasi-bank and trust license on March 25, 2021;
- 2. Decrease in the number of authorized common shares of FMIC from 800,000,000 to 16,000,000 shares and increase in the par value from P10.00 to P500.00 per share.

As of December 31, 2023 and 2022, the carrying amount of goodwill of the Group amounted to ₱4.7 billion, of which ₱4.5 billion pertains to the goodwill arising from the acquisition of the then Solidbank Corporation, which was merged with FMIC.

<sup>\*</sup> Represents investment in a JV of the Group and effective ownership interest of the Parent Company through PSBank.

The principal place of business of these associates is in the Philippines.

#### Investment of FMIC in LCMC

FMIC has the ability to exercise significant influence through a 5-year agreement with Philex Mining Corporation to jointly vote their 16.7% ownership. As of December 31, 2023 and 2022, LCMC-A shares are trading at \$\mathbb{P}0.08\$ per share and \$\mathbb{P}0.109\$ per share, respectively, and LCMC-B shares are trading at \$\mathbb{P}0.078\$ per share and \$\mathbb{P}0.107\$ per share, respectively. As of December 31, 2023 and 2022, there has been a significant decline in the fair value of the shares compared to the acquisition cost. In 2023 and 2022, the Group recognized impairment loss on the investment in LCMC amounting to \$\mathbb{P}458.3\$ million and \$\mathbb{P}211.6\$ million, respectively (Note 3).

#### Investment in NLI

On November 27, 2019, the stockholders of NLI approved the shortening of its corporate term to end on December 31, 2021, but subsequently approved on March 24, 2021 to extend the term up to June 30, 2022. NLI filed the amended Articles of Incorporation (for the shortening of its corporate term up to January 30, 2022) with SEC and this was approved by the SEC on July 6, 2021.

As of December 31, 2023 and 2022, foreclosed investment properties still subject to redemption period by the borrowers amounted to \$\mathbb{P}\$1.1 billion and \$\mathbb{P}\$1.6 billion, respectively, for the Group, and \$\mathbb{P}\$462.2 million and \$\mathbb{P}\$189.9 million, respectively, for the Parent Company.

As of December 31, 2023 and 2022, aggregate market value of investment properties amounted to ₱16.1 billion and ₱16.3 billion, respectively, for the Group, and ₱8.3 billion and ₱8.7 billion, respectively, for the Parent Company, of which ₱9.1 billion and ₱9.4 billion, respectively, for the Group, and ₱8.1 billion and ₱8.5 billion, respectively, for the Parent Company were determined by independent external appraisers. Information about the fair value measurement of investment properties are also presented in Note 5.

Rental income on investment properties (included in 'Leasing income' in the statements of income) in 2023, 2022 and 2021 amounted to \$\frac{1}{2}92.8\$ million, \$\frac{1}{2}86.4\$ million and \$\frac{1}{2}90.0\$ million, respectively, for the Group (Note 13).

Direct operating expenses on investment properties that generated rental income (included under 'Litigation expenses') in 2023, 2022 and 2021 amounted to \$\frac{1}{2}\$4.0 thousand, \$\frac{1}{2}\$68.2 thousand and \$\frac{1}{2}\$47.3 thousand, respectively, for the Group. Direct operating expenses on investment properties that did not generate rental income (included under 'Litigation expenses') in 2023, 2022 and 2021 amounted to \$\frac{1}{2}\$389.7 million, \$\frac{1}{2}\$23.6 million and \$\frac{1}{2}\$23.3 million, respectively, for the Group and \$\frac{1}{2}\$78.6 million, \$\frac{1}{2}\$42.9 million and \$\frac{1}{2}\$57.1 million, respectively, for the Parent Company (Note 25).

Net gains from sale of investment properties (included in 'Profit from assets sold' in the statements of income) in 2023, 2022 and 2021 amounted to ₱1.7 billion, ₱442.6 million and ₱432.6 million, respectively, for the Group, and ₱1.6 billion, ₱208.4 million and ₱117.7 million, respectively, for the Parent Company.

#### 13. Leases

#### Group as a Lessee

As of December 31, 2023 and 2022, 59.51% and 59.40%, respectively, of the Parent Company's branch sites are under lease arrangements. Also, some of its subsidiaries lease the premises occupied by their Head Offices and most of their branches. The lease contracts are for periods ranging from 2 to 30 years and some are renewable at the Group's option under certain terms and conditions. Various lease contracts include escalation clauses, which bear an annual rent increase of 2% to 20% in 2023 and 2022. As of December 31, 2023 and 2022, the Group has no contingent rent payable.

The carrying amounts of lease liabilities (included in 'Other Liabilities' in Note 21) are as follows:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Balance at January 1	₽5,661	₽5,084	₽3,845	₽3,185
Additions	2,253	2,360	1,579	1,621
Expiry/early termination	(6)	(19)	_	(11)
Accretion of interest	340	256	223	142
Payments	(2,121)	(1,968)	(1,302)	(1,115)
Others	(363)	(52)	(327)	23
Balance at December 31	₽5,764	₽5,661	<b>₽</b> 4,018	₽3,845

The Group and the Parent Company recognized the following:

		Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021	
Interest expense on lease liabilities	₽340	₽256	₽244	₽223	₽142	₽137	
Rent expense from short-term leases and	d						
leases of low-value assets*	725	841	813	698	633	612	
* Included under 'Occupancy and equipment -1	related cost'						

Future minimum rentals payable under non-cancelable leases follows:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Within one year	₽1,454	₽1,772	₽847	₽905
After one year but not more than				
five years	3,209	3,291	1,908	2,233
More than five years	2,060	1,299	1,967	1,176
	₽6,723	₽6,362	₽4,722	₽4,314

As of December 31, 2023 and 2022, the Parent Company has undiscounted potential future rental payments arising from extension options expected not to be exercised and thus, not included in the calculation of lease liability amounting to ₱67.6 million.

### Group as a Lessor

The Group has entered into commercial property leases on its investment property portfolio, consisting of the Group's available office spaces and investment properties and lease agreements over various items of machinery and equipment which are non-cancelable and have remaining non-cancelable lease terms of between one to seven years. In 2023, 2022 and 2021, leasing income on investment properties amounted to ₱1.9 billion, ₱1.9 billion and ₱1.8 billion, respectively, for the Group, and ₱78.3 million, ₱80.3 million and ₱103.8 million, respectively, for the Parent Company.

Future minimum rentals receivable under non-cancelable operating leases follows:

	Consolidated		Parent Company	
_	2023	2022	2023	2022
Within one year	₽1,304	₽1,959	₽55	₽48
After one year but not more than				
five years	1,058	1,750	90	35
More than five years	10	-	-	-
	₽2,372	₽3,709	₽145	₽83

#### Finance Leases

Lease contract receivables under finance leases, which are accounts of ORIX Metro, are due in monthly installments with terms ranging from one to seven years. These are broken down as follows (Note 9):

	2023	2022
Within one year	₽382	₽477
After one year but not more than five years	1,591	2,149
Greater than five years	=	3
	₽1,973	₽2,629

The amounts of "transfers to (from)" include the changes in the ECL on the exposures transferred from one stage to another during the year.

As of December 31, 2023 and 2022, the ECL allowances on loan commitments and financial guarantees are included in 'Miscellaneous liabilities' under 'Other liabilities' (Note 21).

The ECL allowance on accounts receivables of the Group and the Parent Company based on their aging as of December 31, 2023 and 2022 follows:

	Conse	olidated	Parent Company		
Age of accounts receivables	2023	2022	2023	2022	
Up to 1 month	₽69	₽103	₽63	₽57	
> 1 to 2 months	3	7	1	1	
> 2 to 3 months	1	9	_	1	
More than 3 months	3,261	3,268	2,718	2,727	
Total ECL	₽3,334	₽3,387	₽2,782	₽2,786	

Below is the breakdown of provision for (reversal of) credit and impairment losses:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
Financial assets and other credit-related						
exposures:						
Loans and receivables	₽7,996	₽7,777	₽11,651	<b>₽</b> 6,187	₽5,740	₽7,683
Investment securities at FVOCI	(62)	29	18	_	_	_

Due from other banks	(4)	(13)	_	_	_	_
	7,929	7,783	11,696	6,187	5,740	7,683
Non-financial assets:						
Investment properties	12	104	28	_	_	_
Goodwill	474	_	_	_	_	_
Investments in associates and a						
joint venture	459	212	132	474	_	_
Other assets	104	13	(22)	_	_	_
	1,049	329	138	474	_	_
	₽8,978	₽8,112	₽11,834	₽6,661	₽5,740	₽7,683

With the foregoing level of allowance for credit and impairment losses, management believes that the Group has sufficient allowance to take care of any losses that the Group may incur from the non-collection or non-realization of its receivables and other risk assets.

# 16. Deposit Liabilities

The LTNCDs of the Group and the Parent Company consist of the following:

BSP Approval Date	Interest Rate	Issue Date	Maturity Date	2023	2022
Parent Company					_
August 12, 2016	3.50%	September 19, 2016	September 19, 2023	₽-	₽8,650
August 12, 2016	3.88%	July 20, 2017	July 20, 2024	3,750	3,750
July 19, 2018	5.38%	October 4, 2018	April 4, 2024	8,680	8,680
			-	12,430	21,080
PSBank					
July 13, 2018	5.00%	August 9, 2018	February 9, 2024	5,084	5,078
			•	₽17,514	₽26,158

As of December 31, 2023 and 2022, 17.27% and 19.18%, respectively, of the total interest-bearing deposit liabilities of the Group, and 14.04% and 11.32%, respectively, of the total interest-bearing deposit liabilities of the Parent Company are subject to periodic interest repricing. In 2023, 2022 and 2021 the outstanding peso deposit liabilities (excluding LTNCDs above) of the Group and the Parent Company earn annual fixed interest rates ranging from 0.06% to 6.59%, while the outstanding foreign currency-denominated deposit liabilities earn annual fixed interest rates ranging from 0.00% to 8.84%, from 0.00% to 8.84% and from 0.00% to 3.75%, respectively for the Group and from 0.00% to 8.84%, from 0.00% to 8.84%, and from 0.00% to 2.50%, respectively, for the Parent Company.

Interest expense on deposit liabilities consists of:

	(	Consolidated			ent Company	
	2023	2022	2021	2023	2022	2021

	₽41,120	₽11,420	₽5,502	₽33,640	₽7,129	₽2,835

# Reserve Requirement

In 2020, BSP Circular Nos. 1082 and 1092 were issued reducing the reserve requirements against deposit and deposit substitute liabilities. Non-FCDU deposit liabilities of the Parent Company and deposit substitutes of FMIC (until March 24, 2021) and ORIX Metro are subject to required reserves of 12% from 14% effective reserve week April 3, 2020 while non-FCDU deposit liabilities of PSBank are subject to required reserves of 3% from 4% effective reserve week July 31, 2020. Reserves requirement for peso-denominated LTNCDs are still at 4%. The required reserves can be kept in the form of deposits maintained in the demand deposit accounts with the BSP and any government securities used as compliance until they mature. Further, BSP Circular No. 1100 issued in 2020 and amended by BSP Circular No. 1155 issued in 2022 allowing banks to use peso denominated loans that are granted after March 15, 2020 to (1) micro-small-and-medium-enterprises (MSMEs) and (2) large enterprises excluding banks and non-bank financial institutions with quasibanking functions that met the definition of MSMEs/large enterprise as alternative compliance with the reserve requirements. The use of MSMEs loans/loans to large enterprises as allowable alternative compliance with reserve requirements was available until June 30, 2023 only. The Parent Company and PSBank were in compliance with the reserve requirements as of December 31, 2023 and 2022.

The total statutory and liquidity reserves (included in 'Due from BSP' account) as reported to the BSP are as follows:

	2023	2022
Parent Company	<b>₽</b> 198,061	₽215,074
PSBank	9,746	37,554
	₽207,807	₽252,628

# 17. Bills Payable and Securities Sold Under Repurchase Agreements

This account consists of borrowings from:

	Cons	Consolidated		
	2023	2022	2023	2022
SSURA	₽134,800	₽67,120	₽132,234	₽65,934

Specific terms of these bonds follow:

## Parent Company

- ₱23.7 billion fixed rate bonds issued on October 28, 2022 with issue price at 100% face value, which bear an interest rate of 5.00% per annum, payable quarterly in arrears on January 28, April 28, July 28 and October 28 of each year, commencing on January 28, 2023. The bonds will mature on April 28, 2024. Total bond issuance costs amounted to ₱194.8 million.
- ₱19.0 billion fixed rate bonds issued on June 4, 2021 with issue price at 100% face value, which bear an interest rate of 3.60% per annum, payable quarterly in arrears on March 4, June 4, September 4 and December 4 of each year, commencing on September 4, 2021. The bonds will mature on September 4, 2026. Total bond issuance costs amounted to ₱156.0 million.
- ₱13.75 billion fixed rate bonds issued on October 24, 2019 with issue price at 100% face value, which bear an interest rate of 4.50% per annum, payable quarterly in arrears on January 24, April 24, July 24 and October 24 of each year, commencing on October 24, 2019. The bonds matured on April 24, 2023. Total bond issuance costs amounted to ₱122.1 million.
- US\$500 million senior unsecured notes issued on July 15, 2020 with issue price at 99.096% face value, which bear an interest rate of 2.125% per annum, payable semi-annually in arrears on January 15 and July 15 of each year, commencing on January 15, 2021. The bonds will mature on January 15, 2026. Total bond issuance costs amounted to ₱484.9 million.

#### **PSBank**

• ₱4.65 billion fixed rate bonds issued on February 4, 2020 with issue price at 100% face value, which bear an interest rate of 4.50% per annum, payable quarterly in arrears on February 4, May 4, August 4 and November 4 of each year, commencing on May 4, 2020. The bonds matured on February 4, 2023. Total bond issuance costs amounted to ₱42.7 million.

Interest expense on bonds payable in 2023, 2022 and 2021 amounted to ₱3.1 billion, ₱3.0 billion and ₱4.4 billion, respectively, for the Group, and ₱3.1 billion, ₱2.8 billion and ₱3.8 billion, respectively, for the Parent Company. As of December 31, 2023 and 2022, unamortized bond issue costs amounted to ₱313.1 million and ₱585.7 million, respectively, for the Group, and ₱313.1 million and ₱584.1 million, respectively, for the Parent Company.

#### Reserve Requirement

Peso-denominated bonds are subject to reserves equivalent to 3% in 2023 and 2022. The Parent Company and PSBank were in compliance with such requirements as of December 31, 2023 and 2022.

#### 20. Subordinated Debts

This account consists of the Parent Company's Peso Notes:

			Carrying Value		Marl	ket Value
	Maturity Date	Face Value	2023	2022	2023	2022
2023	December 20, 2023	₽1,170	₽–	₽1,169	₽_	₽1,187

2023 Peso Notes - issued by Metrobank Card Corporation on December 20, 2013 at 100.00% of the principal amount of P1.2 billion (absorbed by the Parent Company on January 3, 2020 relative to the merger)

- Bear interest at 6.21% per annum payable quarterly in arrears every 20<sup>th</sup> of March, June, September and December each year, commencing on March 20, 2014.
- Basel III compliant unsecured subordinated notes qualified as Tier 2 capital as approved by the BSP on February 17, 2013.
- In case of insolvency or liquidation of MCC, the notes will be subordinated in the right of payment of principal and interest to all depositors and other creditors of MCC, except those creditors expressed to rank equally with, or behind holders of the notes.
- If a non-viability trigger event occurs, MCC shall immediately write down some or all of the notes in accordance with the BSP's determination.
- Subject to the written approval of the BSP, MCC may redeem all and not less than the entire outstanding 2023 Notes, at a redemption price equal to the face value together with the accrued and unpaid interest based on the interest rate. The notes matured on December 20, 2023.

In 2023 and 2022, the Parent Company is in compliance with the terms and conditions upon which these subordinated notes have been issued.

In 2023, 2022 and 2021, interest expense on subordinated debts included in 'Interest expense on bills payable and SSURA, bonds payable, subordinated debts and others' amounted to ₱71.2 million, ₱73.7 million and ₱73.7 million (including amortization of debt issue cost and premium of ₱1.0 million, ₱1.1 million and ₱1.1 million).

# 21. Non-equity Non-controlling Interest and Other Liabilities

## Non-equity Non-controlling Interest

This account arises when mutual funds are consolidated and where the Group holds less than 100.00% of the investment in these funds. When this occurs, the Group acquires a liability in respect of non-controlling interests in the funds of which the Group has control. Such non-controlling interests are distinguished from equity non-controlling interests in that the Group does not hold an equity stake in such funds. Further, income (loss) attributable to non-equity non-controlling interests amounting to (\$\Percept{P}124.0\$ million), \$\Percept{P}462.7\$ million, and (\$\Percept{P}152.4\$ million) in 2023, 2022 and 2021, respectively, is included under 'Trading and securities gain (loss) - net' in the statements of income (Note 8).

#### Other Liabilities

This account consists of:

	Consolid	Paren	t Company		
-	2023	2022	2023	2022

# 23. Capital Stock

As of December 31, 2023 and 2022, this account consists of (amounts in millions, except par value and number of shares):

	Shares	Amount
Authorized		_
Common stock – ₱20.00 par value	6,000,000,000	
Preferred stock – ₱20.00 par value	1,000,000,000	
Common stock issued and outstanding		
Balance at January 1 and December 31	4,497,415,555	₽89,948

As of December 31, 2023 and 2022, treasury shares totaling 1,289,543 and 1,328,487, respectively, represent shares of the Parent Company held by FMIC's mutual fund subsidiary (Note 32).

Preferred shares are non-voting except as provided by law; have preference over Common Shares in the distribution of dividends; subject to such terms and conditions as may be determined by the BOD and to the extent permitted by applicable law, may or may not be redeemable; and shall have such other features as may be determined by the BOD at the time of issuance.

On March 15, 2013, the BOD of the Parent Company approved (a) the amendment of the Articles of Incorporation (AOI) to increase the authorized capital stock and (b) the declaration of 30.00% stock dividend, which were ratified by the stockholders representing at least 2/3 of the outstanding capital stock on April 15, 2013. These were subsequently approved by the BSP on May 15, 2013 and by the SEC on August 13, 2013. Following this, the authorized capital stock of the Parent Company increased from ₱50.0 billion to ₱100.0 billion consisting of 4.0 billion common shares and 1.0 billion preferred shares, both with par value of ₱20.00 per share. The 30.00% stock dividend equivalent to 633,415,049 common shares amounting to ₱12.7 billion represents at least the minimum 25.00% subscribed and paid-up capital for the increase in the authorized capital stock referred to above which was issued/paid on September 16, 2013 with record date on September 3, 2013. On September 10, 2013, the PSE approved the listing of such additional common shares.

On January 21, 2015, the Parent Company's BOD approved the Stock Rights Offer (SRO) by way of issuance from the unissued portion of the authorized capital stock which was noted by BSP with the issuance of a letter of no objection to the Rights Issue on February 17, 2015. On February 24, 2015, the SEC confirmed the exemption of this issuance of ₱32.0 billion worth of common shares from the registration requirements under Section 8 of the SRC. On February 25, 2015, the PSE approved the listing of up to 500.0 million common shares to cover the SRO to all stockholders of record as of March 18, 2015. On April 7, 2015, following regulatory approvals, the Parent Company concluded the ₱32.0 billion SRO, involving 435,371,720 common shares with par value of ₱20.00 priced at ₱73.50 per share and listed with the PSE on the same date. The difference between the issued price and the par value is recognized as 'Capital paid in excess of par value'.

On January 17, 2018, the Parent Company's BOD approved the SRO by way of issuance of up to a maximum of 819,827,214 common shares to raise additional capital of up to ₱60.0 billion. This was noted by the BSP with the issuance of a letter of no objection to the rights issue on January 29, 2018. On April 4, 2018, following the regulatory approvals, the Parent Company concluded the ₱60.0 billion SRO, involving 799,842,250 common shares with par value of ₱20.00 priced at ₱75.00 per share and listed on the PSE on April 12, 2018. Transaction costs on the SRO amounting to ₱878.2 million were charged against 'Capital paid in excess of par value'.

On February 13, 2019, the BOD of the Parent Company approved (a) the amendment of the AOI to increase the authorized capital stock from ₱100.0 billion to ₱140.0 billion and (b) the declaration of a 13% stock dividend equivalent to 517,401,955 shares amounting to ₱10.3 billion representing the minimum 25% subscription and paid-up capital for the increase in the authorized capital stock which were ratified by the stockholders representing at least 2/3 of the outstanding capital stock on April 24, 2019. These were approved by the BSP on August 8, 2019 and by the SEC on October 4, 2019. Following this, the authorized capital stock of the Parent Company increased from ₱100.0 billion to ₱140.0 billion consisting of 6.0 billion common shares and 1.0 billion preferred shares, both with par value of ₱20.0 per share. On October 16, 2019, the Parent Company received the SEC Order fixing the Record Date of the 13% stock dividend on October 31, 2019. The 13% stock dividend was issued on November 26, 2019 with record date on October 31, 2019. On November 19, 2019, the PSE approved the listing of such stock dividend.

All issued and outstanding shares of the Parent Company are listed with the PSE (Note 1). As of December 31, 2023 and 2022, there are 2,950 and 2,954 holders, respectively, of the listed shares of the Parent Company, with share price closed at \$\mathbb{P}51.30\$ and \$\mathbb{P}54.00\$ a share, respectively.

The history of share issuances during the last ten years follows:

Year	Issuance	Listing Date	Number of Shares Issued
2019	Stock dividend	November 26, 2019	517,400,519
2018	Stock rights	April 12, 2018	799,842,250
2015	Stock rights	April 7, 2015	435,371,720
2013	Stock dividend	September 16, 2013	633,415,049

Details of the Parent Company's cash dividend distributions from 2021 to 2023 follow:

Date of Declaration	Per Share	Total Amount	Record Date	Payment Date
February 22, 2023	₱0.80 (regular)	₽3,598	September 8, 2023	September 22, 2023
February 22, 2023	0.80 (regular)	3,598	March 17, 2023	March 31, 2023
February 22, 2023	1.40 (special)	6,296	March 17, 2023	March 31, 2023
February 23, 2022	0.80 (regular)	3,598	September 9, 2022	September 23, 2022
February 23, 2022	0.80 (regular)	3,598	March 17, 2022	March 31, 2022
February 23, 2022	1.40 (special)	6,296	March 17, 2022	March 31, 2022
February 17, 2021	1.00 (regular)	4,497	March 5, 2021	March 18, 2021
February 17, 2021	3.00 (special)	13,492	March 5, 2021	March 18, 2021

On February 23, 2022, the BOD of the Parent Company approved a new dividend policy of increasing the regular cash dividends from P1.00 to P1.60 per share for the year, payable on semi-annual basis at P0.80 per share.

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 16 issued in September 2023 differs to a certain extent from the computation following BSP guidelines.

# 24. Surplus Reserves

This account consists of:

	2023	2022
Reserve for trust business (Note 29)	₽2,164	₽2,046
Reserve for self-insurance	588	567
	₽2,752	₽2,613

In compliance with existing BSP regulations, 10.0% of the Parent Company's income from trust business is appropriated to surplus reserves. This yearly appropriation is required until the surplus reserve for trust business equals 20.0% of the Parent Company's regulatory net worth.

Reserve for self-insurance represents the amount set aside to cover losses due to fire, defalcation by and other unlawful acts of the Parent Company's personnel or third parties.

# 25. Other Operating Income and Expenses

## Service Charges, Fees and Commissions

The table below presents the disaggregation of service charges, fees and commission by business segment:

	Consolidated		Parent Company		y	
	2023	2022	2021	2023	2022	2021
Consumer banking	₽8,036	₽7,234	₽5,749	₽7,486	₽6,735	₽5,247
Branch banking	4,017	3,978	3,391	2,898	2,860	2,428
Corporate banking	1,007	920	876	937	851	801
Investment banking/treasury	750	823	698	552	658	374
Others*	2,580	2,080	2,704	1,206	669	1,285
	₽16,390	₽15,035	₽13,418	₽13,079	₽11,773	₽10,135

<sup>\*</sup>Others include the remittance business of the Group and the Parent Company.

The remaining performance obligations on revenue contracts with customers of the Group under PFRS 15, which are expected to be recognized beyond one year amounting to ₱943.3 million and ₱757.1 million (included in 'Deferred revenues' under 'Other liabilities') as of December 31, 2023 and 2022, respectively, refer to the customer loyalty program of the Parent Company. The customer loyalty points have no expiration and redemptions can go beyond one year.

#### Miscellaneous Income and Expenses

In 2023, 2022 and 2021, miscellaneous income includes gain on initial recognition of investment properties and other non-financial assets amounting to ₱836.1 million, ₱1.3 billion and ₱812.5 million, respectively, for the Group, and ₱104.6 million, ₱82.7 million and ₱41.0 million, respectively, for the Parent Company; recovery on charged-off assets amounting to ₱1.2 billion, ₱1.2 billion and ₱1.4 billion, respectively, for the Group, and ₱856.4 million, ₱858.5 million and ₱1.0 billion, respectively, for the Parent Company; and IT service fees and other income amounting to ₱471.1 million, ₱645.4 million and ₱797.2 million, respectively, for the Group, and ₱294.3 million, ₱328.2 million and ₱565.5 million, respectively, for the Parent Company (Note 32).

#### Miscellaneous expenses consist of:

	₽20,911	₽18,970	₽17,896	₽17,115	₽14,915	₽14,026

<sup>\*</sup> Other expenses mainly include membership fees, donation, freight charges and other business expenses.

# 26. Notes to Statements of Cash Flows

The amounts of interbank loans receivable and SPURA, gross of allowance for credit losses, considered as cash and cash equivalents follow:

_	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
Interbank loans receivable and SPURA Interbank loans receivable and SPURA not considered as cash and cash	₽73,015	₽73,763	₽70,475	₽59,219	₽65,550	₽55,999
equivalents	(9,333)	(7,977)	(14,413)	(477)	(5,993)	(9,971)
	₽63,682	₽65,786	₽56,062	₽58,742	₽59,557	₽46,028

Significant non-cash transactions of the Group and the Parent Company include:

- Additions to ROU assets as disclosed in Note 10;
- Foreclosures of properties or additions to investment and chattel properties as disclosed in Notes 12 and 14, respectively;
- Reclassifications of BUC and Furniture, Fixtures and Equipment (FFE) (Note 10);
- Reclassifications of software cost from customized system development costs (Note 14).

The table below provides for the changes in liabilities arising from financing activities in 2023, 2022 and 2021:

	Consolidated

Others include the effect of cash flows of liabilities arising from operating activities.

# 27. Retirement Plan and Other Employee Benefits

The Parent Company and most of its subsidiaries have funded non-contributory defined benefit retirement plans covering all their respective permanent and full-time employees. Benefits are based on the employee's years of service and final plan salary.

For employees of the Parent Company, retirement from service is compulsory upon the attainment of the 55<sup>th</sup> birthday or 30<sup>th</sup> year of service, whichever comes first.

The existing regulatory framework, RA No. 7641, *Retirement Pay Law*, requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided, however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan. The Parent Company and most of its subsidiaries meet the minimum retirement benefit specified under RA No. 7641.

The principal actuarial assumptions used in determining retirement liability of the Parent Company and significant subsidiaries are shown below:

	Parent Company	FMIC	PSBank	ORIX Metro
As of January 1, 2023 Average remaining working life Discount rate Future salary increases	9.49 years 7.12% 7.00%	7 to 9years 6.95% to 7.20% 5.75% to 6.00%	9 Years 7.11% 5.50%	10 to 24 years 7.30% to 7.60% 7.00%
As of January 1, 2022 Average remaining working life Discount rate Future salary increases	10.76 years 5.06% 6.00%	7 to 10 years 4.75% to 5.13% 4.0% to 5.0%	9 years 4.94% 4.00%	11 to 24 years 5.0% to 5.6% 7.00%

Discount rates used in computing for the present value of the DBO of the Parent Company and significant subsidiaries as of December 31, 2023 and 2022 follow:

	Parent				
	Company	FMIC	PSBank	ORIX Metro	
2023	6.08%	6.03% to 6.09%	6.06%	6.50%	
2022	7.12%	6.95% to 7.20%	7.11%	7.30% to 7.60%	

The net retirement liability (asset) of the Group and the Parent Company is presented in the following accounts in the statements of financial position:

	Consolic	Consolidated		mpany
	2023	2022	2023	2022
Other assets (Note 14)	(₽212)	( <del>P</del> 487)	₽_	(₱95)
Other liabilities (Note 21)	2,910	72	2,553	
	₽2,698	( <del>P</del> 415)	₽2,553	(₱95)

The defined benefit plan exposes the Group and the Parent Company to actuarial risk, such as longevity risk, interest rate risk and market (investment risk).

The fair value of plan assets by each class as at the end of the statement of financial position date are as follows:

	Consolidated		Parent (	Company
	2023	2022	2023	2022
Cash and cash equivalents	₽90	₽945	₽1	₽44

The Group and the Parent Company expect to contribute to the defined benefit retirement plans the required funding for normal cost in 2024 amounting to ₱401.0 million and ₱20.7 million, respectively.

The average duration of the DBO of the Group as of December 31, 2023 and 2022 are as follows:

	Parent			
	Company	FMIC	PSBank	ORIX Metro
2023	9.62 years	6.14 to 11.46 years	9.57 years	7.6 to 10.9 years
2022	8.26 years	6.57 to 11.04 years	9.27 years	8.2 to 10.3 years

Shown below is the maturity analysis of the undiscounted benefit payments:

	Parent Company	FMIC	PSBank	ORIX Metro
As of December 31, 2023	1 1			
Less than 1 year	₽3,201	₽61	₽332	₽26
1 to less than 5 years	11,876	218	1,611	276

20 years and above	14,277	160	1,745	_

In addition, the Parent Company has a Provident Plan which is a supplementary contributory retirement plan to and forms part of the main plan, the Retirement Plan, for the exclusive benefit of eligible employees of the Parent Company in the Philippines. Based on the provisions of the plan, upon retirement or resignation, a member shall be entitled to receive as retirement or resignation benefits 100.00% of the accumulated value of the personal contribution plus a percentage of the

accumulated value arising from the Parent Company's contributions in accordance with the completed number of years serviced. The Parent Company's contribution to the Provident Fund in 2023 and 2022 amounted to ₱342.2 million and ₱321.2 million, respectively.

As of December 31, 2023 and 2022, the retirement funds of the Group's employees amounting to ₱25.7 billion and ₱24.4 billion, respectively, are being managed by its trust banking unit. The Parent Company has a Trust Committee that is mandated to approve the plan, trust agreement, investment plan, including any amendments or modifications thereto, and other activities of the retirement plan. Certain members of the BOD of the Parent Company are represented in the Trust Committee.

#### 28. Income and Other Taxes

Under Philippine tax laws, the Parent Company and its domestic subsidiaries are subject to percentage and other taxes (presented as 'Taxes and licenses' in the statements of income), as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax (GRT) and documentary stamp tax (DST). Income taxes include regular corporate income tax (RCIT) and final taxes paid on gross interest income from government securities and other deposit substitutes.

On March 26, 2021, Republic Act (RA) No. 11534, otherwise known as Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act was signed into law. CREATE reduced the RCIT rate for large corporations from 30.00% to 25.00% effective July 1, 2020. With the implementation of this Act, the allowable deduction for interest expense was reduced from 33% to 20% of the interest income subjected to final tax.

The regulations also provide for Minimum Corporate Income Tax (MCIT) of 2.00% (provided that effective July 1, 2020 until June 30, 2023, the rate shall be 1%) on modified gross income and allow Net Operating Loss carry-over (NOLCO). The MCIT and NOLCO may be applied against the Parent Company's and its domestic subsidiaries' income tax liability and taxable income, respectively, over a three-year period from the year of inception. RA No. 11494 or the Bayanihan to Recover as One Act (Bayanihan Act) extended the allowable carry-over period of NOLCO to the next five (5) consecutive years following the year of loss for losses incurred during the taxable years 2020 and 2021. The NOLCO for such can be carried over as deduction even after the expiration of the Bayanihan Act, provided that same are claimed within the next five (5) consecutive taxable years immediately following the year of the loss.

Current tax regulations also provide for the ceiling on the amount of EAR expense (Note 25) that can be claimed as a deduction against taxable income. Under the regulation, EAR expense allowed as a deductible expense for a service company like the Parent Company and its domestic subsidiaries is limited to the actual EAR paid or incurred but not to exceed 1.00% of net revenue.

Income derived by the FCDU from foreign currency-denominated transactions with non-residents, OBUs, local commercial banks including branches of foreign banks, is tax-exempt while interest income on foreign currency loans from residents other than OBUs or other depository banks under the expanded system is subject to 10.00% income tax. In addition, interest income on deposit placements with other FCDUs and offshore banking units (OBUs) is taxed at 15.00%.

Following are the applicable taxes and tax rates for the foreign branches of the Parent Company:

Foreign Branches	Tax Rates
USA - New York Branch	21.00% federal income tax; 9% state tax;
	city tax of 7.25% in 2022-2023 and 6.50% in 2021; 2.175% MTA tax
Japan - Tokyo and Osaka Branches	23.20% income tax; various rates for business taxes and local business taxes,
Korea - Seoul and Pusan Branches	income tax of 20.90% in 2023 and 22.00% in 2021-2022; 0.50% education tax,
Taiwan – Taipei Branch	20.00% income tax; 5.00% gross business receipts tax; 5.0% value-added tax

The provision for income tax consists of:

	Consolidated			Par	ent Company

MCIT	_	1	_	_
Others	203	180	105	100
	15,198	14,268	12,303	12,440
Deferred tax liability on:				
Unrealized gain on initial measurement				
of investment properties	537	541	137	132
Leasing Income differential between				
finance and operating lease	163	266	_	_
Retirement asset	53	84	_	24
Unrealized foreign exchange gains	266	_	266	_
Others	8	15	_	10
	1,027	906	403	166
Net deferred tax assets	₽14,171	₽13,362	₽11,900	₽12,274

In 2023 and 2022, deferred tax credited to OCI amounted to ₱233 million and ₱2.14 billion, respectively, for the Group, and ₱502 billion and ₱1.98 billion, respectively, for the Parent Company.

The Parent Company and certain subsidiaries did not recognize deferred tax assets on the following temporary differences:

	Consolidated		Parent Cor	npany
_	2023	2022	2023	2022
Allowance for credit and impairment losses	₽9,534	₽14,781	₽8,857	₽8,857
NOLCO	2,416	1,465	899	435
MCIT	14	7	_	_
	₽11,964	₽16,253	₽9,756	₽9,292

The Group believes that it is not reasonably probable that the tax benefits of these temporary differences will be realized in the future.

There are no income tax consequences attaching to the payment of dividends by the Group to its shareholders. There are no temporary differences arising from undistributed profits of subsidiaries, branches, associates and a JV.

Details of the excess MCIT credits of the Group follow:

Inception Year				
	Expiry Year	Amount	Used/Expired	Balance

# 29. Trust Operations

Properties held by the Parent Company and PSBank in fiduciary or agency capacity for their customers are not included in the accompanying statements of financial position since these are not their resources.

In compliance with current banking regulations relative to the Parent Company and PSBank's trust functions, the following are government securities deposited with the BSP:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Investment securities at amortized cost	₽7,559	₽7,511	₽7,559	₽7,511
Investment securities at FVOCI	124	181	_	_
	₽7,683	₽7,692	₽7,559	₽7,511

# 30. Commitments and Contingent Liabilities

In the normal course of the Group's operations, there are various outstanding commitments and contingent liabilities which are not reflected in the accompanying financial statements. No material losses are anticipated as a result of these transactions. The summary of contingencies and commitments at their peso-equivalent contractual amounts arising from off-balance sheet items follows:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Trust Banking Group accounts (Note 29)	₽497,607	₽510,510	₽485,425	₽505,715
Credit card lines	276,839	233,331	276,839	233,331
Undrawn commitments - facilities to lend	53,729	24,578	53,729	24,578
Unused commercial letters of credit (Note 32)	50,476	49,097	45,558	45,740
Bank guaranty with indemnity agreement (Note 32)	11,732	18,023	11,732	18,023
Outstanding guarantees	6,637	3,769	6,637	3,769
Credit line certificate with bank commission	3,963	4,771	3,963	4,771
Inward bills for collection	1,662	2,071	1,661	2,071
Outstanding shipside bonds/airway bills	1,436	1,294	656	1,294
Late deposits/payments received	944	1,047	943	1,047
Outward bills for collection	639	710	559	707
Confirmed export letters of credits	44	278	-	43
Others	32,729	35,709	602	1,004
	₽938,437	₽885,188	₽888,304	₽842,093

Several suits and claims relating to the Group's lending operations and labor-related cases remain unsettled. In the opinion of management, these suits and claims, if decided adversely, will not involve sums having a material effect on the Group's financial statements.

# 31. Earnings per Share

The basis of calculation for earnings per share attributable to equity holdings of the Parent Company follows (amounts in millions, except for earnings per share):

	2023	2022	2021
a. Net income attributable to equity holders of the			_
Parent Company	<b>₽</b> 42,238	₽32,776	₽22,156
b. Weighted average number of outstanding			
common shares of the Parent Company	4,496	4,496	4,496
c. Basic/diluted earnings per share (a/b)	₽9.39	₽7.29	₽4.93

## 32. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions or if they are subjected to common control or common significant influence such as subsidiaries and associates of subsidiaries or other related parties. Related parties may be individuals or corporate entities and are classified as entities with significant influence, subsidiaries, associates, other related parties and key personnel (Notes 2 and 11).

The Group has several business relationships with related parties. Transactions with such parties are made in the ordinary course of business and on substantially same terms, including interest and collateral, as those prevailing at the time for comparable transactions with other parties. These transactions also did not involve more than the normal risk of collectibility and did not present other unfavorable conditions.

The Parent Company has a Related Party Transactions Committee (RPTC) and a Related Party Transactions Management Committee (RPTMC), both of which are created to assist the BOD in ensuring that transactions with related parties are reviewed to assess risks and are subjected to appropriate restrictions to ensure that these are conducted at arm's-length terms and that corporate or business resources of the Parent Company are not misappropriated or misapplied. After appropriate review, RPTMC (through RPTC) and RPTC disclose all information and endorses to the BOD with recommendations, the proposed related party transactions. The members of the RPTC are appointed annually by the BOD, composed of at least three (3) Board non-executive members, two (2) of whom should be independent directors, including the Chairman. Currently, RPTC is composed of three (3) independent directors (including the Committee's Chairman); the head of Internal Audit Group (as Resource Person); and the Compliance Officer (as the Committee Secretary) and meets monthly or as the need arises. On the other hand, RPTMC members are appointed annually by the President, composed of at least four (4) members. RPTC's and RPTMC's review of the proposed related party transactions considers the following:

- a. Identity and relationship of the parties involved in the transaction;
- b. Terms of the transaction and whether these are no less favorable than terms generally available to an unrelated third party under the same circumstances;
- c. Business purpose, timing, rationale and benefits of the transaction;
- d. Approximate monetary value of the transaction and the approximate monetary value of the related party's interest in the transaction;
- e. Valuation methodology used and alternative approaches to valuation of the transaction;
- f. Information concerning potential counterparties in the transaction;
- g. Description of provisions or limitations imposed as a result of entering into the transaction;
- h. Whether the proposed transaction includes any potential reputational risk issues that may arise as a result of or in connection with the transaction;
- i. Impact to a director's independence;
- j. Extent that such transaction or relationship would present an improper conflict of interest; and
- k. The availability of other sources of comparable products or services.

The committees ensured that all related party transactions for the financial year are conducted in fair and at arm's-length terms.

Further, no director or officer participates in any discussion of a related party transaction for which he, she, or any member of his or her immediate family is a related party, including transactions of subordinates, except in order to provide material information on such related party transaction to RPTC.

Major subsidiaries, which include FMIC, PSBank, and MBCL, have their own respective RPTCs which assist their respective BODs in ensuring that transactions with related parties are reviewed to assess risks and are subjected to appropriate restrictions to ensure that these are conducted at arm's-length terms and that their corporate or business resources are not misappropriated or misapplied.

Details on significant related party transactions of the Group and the Parent Company follow (transactions with subsidiaries have been eliminated in the consolidated financial statements):

Interest income	3	Interest income on receivables from customers (Note 9)			

<sup>\*</sup> Includes accrued interest

As of December 31, 2023 and 2022, government bonds with total face value of ₱60.0 million (classified as 'Investment securities at amortized cost as of December 31, 2023 and 2022), are pledged by PSBank to the Parent Company to secure the latter's payroll account with PSBank. Also, the Parent Company has assigned to PSBank government securities with total face value of ₱3.5 billion (classified as 'Investment securities at amortized cost') to secure PSBank's deposits to the Parent Company

Receivables from customers and deposit liabilities and their related statement of financial position and statement of income accounts resulted from the lending and deposit-taking activities of the Group and the Parent Company. Together with the sale of investment properties, borrowings, contingent accounts including derivative transactions, outright purchases and sales of securities and foreign currency buy and sell, leasing of office premises, securing of insurance coverage on loans and property risk, and other management services rendered, these are conducted in the normal course of business, at arm's-length transactions and are generally settled in cash. The amounts and related volumes and changes are presented in the summary above. Terms of receivables from customers, deposit liabilities and borrowings are also disclosed in Notes 9, 16 and 17, respectively, while other related party transactions above have been referred to their respective note disclosures.

The compensation of the key management personnel of the Group and the Parent Company follows:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
Short-term employee benefits	₽4,734	₽4,232	₽3,817	₽3,832	₽3,303	₽2,902
Post-employment benefits	116	140	120	81	86	84
	₽4,850	₽4,372	₽3,937	₽3,913	₽3,392	₽2,986

Director's fees and bonuses of the Parent Company in 2023, 2022 and 2021 amounted to ₱70.2 million, ₱68.1 million and ₱68.0 million, respectively.

### Transactions with Retirement Plans

Under PFRS, certain post-employment benefit plans are considered as related parties. The Parent Company has business relationships with a number of related party retirement plans pursuant to which it provides trust and management services to these plans. Certain trustees of the plans are either officers or directors of the Parent Company and/or the subsidiaries. Income earned by the Parent Company from such services amounted to ₱160.2 million, ₱127.0 million and ₱98.2 million in 2023, 2022 and 2021, respectively. In 2023, 2022 and 2021, the Parent Company purchased securities totaling ₱8.1 billion, ₱7.4 billion and ₱4.9 billion, respectively, from its related party retirement plans and also sold securities totaling ₱10.4 billion, ₱13.0 billion and ₱6.1 billion,

respectively, and recognized net trading losses of ₱0.4 million and ₱8.0 million in 2023 and 2022, and net trading gains of ₱15.1 million in 2021, respectively. Further, as of December 31, 2023 and 2022, the total outstanding deposit liabilities of the Group from these related party retirement funds amounted to ₱120.2 million and ₱515.2 million, respectively. Interest expense on deposit liabilities amounted to ₱25.3 million, ₱2.9 million and ₱0.4 million in 2023, 2022 and 2021, respectively.

As of December 31, 2023 and 2022, the related party retirement plans also hold investments in the equity shares of various companies within the Group amounting to \$\mathbb{P}\$138.7 million and \$\mathbb{P}\$16.0 million, respectively, with unrealized trading losses of \$\mathbb{P}\$31.7 million and \$\mathbb{P}\$76.0 million, respectively, and investments in mutual funds and trust funds of various companies within the Group amounting to \$\mathbb{P}\$1.4 billion and \$\mathbb{P}\$440.7 million, respectively, with unrealized trading gains of \$\mathbb{P}\$108.7 million in 2023 and unrealized trading losses of \$\mathbb{P}\$6.2 million in 2022, respectively. Further as of December 31, 2023, investments in the corporate bonds of the Parent Company by the related party retirement plans amounted to \$\mathbb{P}\$49.4 million with unrealized trading gain of \$\mathbb{P}\$0.2 million. In 2023, 2022 and 2021, realized trading gains/(losses) recognized by the related party retirement plans amounted to \$\mathbb{P}\$5.9 million), (\$\mathbb{P}\$3.7 million) and \$\mathbb{P}\$2.2 million, respectively, and dividend income recognized amounted to \$\mathbb{P}\$1.4 million, \$\mathbb{P}\$1.2 million, and \$\mathbb{P}\$1.5 million, respectively.

### 33. Foreign Exchange

Closing rates as of December 31 and WAR for each of the year ended December 31 are as follows:

		BAP	
	2023	2022	2021
Closing	<b>₽</b> 55.37	₽55.76	₽51.00
WAR	55.63	54.50	49.28

### 34. Other Matters

The Group has no significant matters to report in 2023 on the following:

- a. Known trends, events or uncertainties that would have material impact on liquidity and on the sales or revenues.
- b. Explanatory comments about the seasonality or cyclicality of operations.
- c. Issuances, repurchases and repayments of debt and equity securities except for the maturities of the ₱8.65 billion LTNCD of the Parent Company as discussed in Note 16; the ₱13.75 billion fixed rate bonds of the Parent Company and the ₱4.65 billion fixed rate bonds of PSBank as discussed on Note 19; and the ₱1.17 billion subordinated debts of the Parent Company as discussed in Note 20.
- d. Unusual items as to nature, size or incidents affecting assets, liabilities, equity, net income or cash flows except for the payment of cash dividends by the Parent Company, as discussed in Note 23.
- e. Effect of changes in the composition of the Group during the year, including business combinations, acquisition or disposal of subsidiaries and long-term investments, restructurings, and discontinuing operations.

## 35. Subsequent Events

- a. On January 18, 2024, the BOD of PSBank declared a 7.50% regular cash dividend for the fourth quarter of 2023 amounting to ₱320.14 million or ₱0.75 per share payable on February 19, 2024 to all stockholders at record date as of February 2, 2024.
- b. On February 9, 2024, the ₱5.1 billion LTNCD of PSBank matured.
- c. On February 21, 2024, the BOD of the Parent Company approved a new dividend policy of increasing the regular cash dividends from ₱1.60 per share to ₱3.00 per share for the year, payable on a semi-annual basis at ₱1.50 per share. In addition, a special cash dividend of ₱2.00 per share was also declared. The first tranche of the regular cash dividend of ₱1.50 per share and special cash dividend of ₱2.00 per share are payable on March 25, 2024 to all stockholders of record as of March 8, 2024.

### 36. Approval of the Release of the Financial Statements

The accompanying financial statements of the Group and of the Parent Company were authorized for issue by the BOD on February 21, 2024.

### 37. Report on the Supplementary Information Required under BSP Circular No. 1074

### Supplementary Information Under BSP Circular No. 1074

On January 8, 2020, the Monetary Board approved the amendments to the relevant provisions of the Manual of Regulations for Banks and Manual of Regulations for Foreign Exchange Transactions. Among the provisions is the requirement to include the following additional information to the Audited Financial Statements.

# a. Quantitative indicators of financial performance The following basic ratios measure the financial performance of the Group and the Parent Company:

		Consolidate	Parent Company			
	2023	2022	2021	2023	2022	2021
Return on average equity (1)	12.51%	10.29%	6.89%	12.49%	10.27%	6.88%
Return on average assets (2)	1.42%	1.23%	0.89%	1.61%	1.41%	1.03%
Net interest margin on average						
earning assets (3)	3.90%	3.56%	3.39%	3.83%	3.47%	3.14%

<sup>(1)</sup> Net income attributable to equity holders of the Parent Company for the year divided by average total equity attributable to the Parent Company.

The Group and the Parent Company consider its common stock and subordinated debts as capital instruments eligible as Tier 1 and Tier 2 capitals.

#### c. Significant Credit Exposures

Significant credit exposures as to industry, gross of unearned discount and capitalized interest, follows:

<sup>(2)</sup> Net income attributable to equity holders of the Parent Company for the year divided by average total assets (3) Net interest income for the year divided by average interest-earning assets.

b. Description of capital instrument issued

The Group considers that concentration of credit exists when total loan exposure to a particular industry or economic sector exceeds 30.00% of total loan portfolio.

### d. Breakdown of loans

The following table shows information relating to receivables from customers by collateral, gross of unearned discounts and capitalized interest:

	Consolidated				Parent Company			
	2023		2022		2023		2022	
	Amount	%	Amount	%	Amount	%	Amount	%
Secured by:								
Other securities	₽262,418	16.74	₽263,540	18.09	₽262,418	19.24	₽263,540	20.71
Chattel	93,544	5.97	86,128	5.91	19,899	1.46	17,760	1.40
Real estate	88,400	5.64	90,259	6.20	57,233	4.20	59,898	4.71
Equity securities	52,186	3.33	45,867	3.15	6,544	0.48	5,270	0.41
Deposit hold-out	37,781	2.41	42,721	2.93	37,183	2.72	42,124	3.31
Others	13,573	0.87	14,958	1.03	454	0.03	374	0.03
	547,902	34.96	543,473	37.31	383,731	28.13	388,966	30.57
Unsecured	1,019,144	65.04	913,256	62.69	980,543	71.87	883,454	69.43
	₽1,567,046	100.00	₽1,456,729	100.00	₽1,364,274	100.00	₽1,272,420	100.00

Non-performing loans (NPLs) included in the total loan portfolio of the Group and the Parent Company, as reported to the BSP, are presented below:

	Conse	olidated	Parent Company		
_	2023	2022	2023	2022	
Gross NPLs	₽26,180	₽27,341	₽19,518	₽20,146	
Less allowance for credit losses	18,658	19,013	15,372	15,472	
Net carrying amount	₽ 7,522	₽8,328	₽4,146	₽4,674	

Under banking regulations, loan accounts shall be considered non-performing, even without any missed contractual payments, when they are considered impaired under existing accounting standards, classified as doubtful or loss, in litigation, and/or there is evidence that full repayment of principal or interest is unlikely without foreclosure of collateral, if any. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than ninety (90) days from contractual due date, or accrued interests for more than ninety (90) days have been capitalized, refinanced, or delayed by agreement. Restructured loans shall be considered non-performing. However, if prior to restructuring, the loans were categorized as performing, such classification shall be retained. Moreover, NPLs shall remain classified as such until (a) there is sufficient evidence to support that full collection of principal

and interests is probable and payments of interest and/or principal are received for at least six (6) months; or (b) written-off. Microfinance and other small loans with similar credit characteristics shall be considered non-performing after contractual due date or after they have become past due.

### e. Information on related party loans

In the ordinary course of business, the Group has loan transactions with investees and with certain directors, officers, stockholders and related interests (DOSRI) based on BSP Circular No. 423 dated March 15, 2004, as amended. Existing banking regulations limit the amount of individual loans to DOSRI, 70.00% of which must be secured, to the total of their respective deposits and book value of their respective investments in the lending company within the Group. In the aggregate, loans to DOSRI generally should not exceed the respective total equity or 15.00% of the respective total loan portfolio, whichever is lower, of the Parent Company, PSBank, FMIC, and ORIX Metro.

The following table shows information on related party loans as reported to the BSP:

202	23	2022

BSP Circular Nos. 560 and 654 provide the rules and regulations that govern loans, other credit accommodations and guarantees granted to subsidiaries and affiliates of banks and quasi-banks which require that the total outstanding loans, other credit accommodations and guarantees to each of the bank's/quasi-bank's subsidiaries and affiliates shall not exceed 10.00%, while a separate individual limit of 25.00% for those engaged in energy and power generation, of the net worth of the lending bank/quasi-bank, provided that the unsecured portion of which shall not exceed 5.00% or 12.50%, respectively, of such net worth. Further, the total outstanding loans, credit accommodations and guarantees to all subsidiaries and affiliates shall not exceed 20.00% of the net worth of the lending bank/quasi-bank; and the subsidiaries and affiliates of the lending bank/quasi-bank are not related interest of any director, officer and/or stockholder of the lending institution, except where such director, officer or stockholder sits in the BOD or is appointed officer of such corporation as representative of the bank/quasi-bank as reported to the BSP. As of December 31, 2023 and 2022, the total outstanding loans, other credit accommodations and guarantees to each of the Parent Company's subsidiaries and affiliates did not exceed 10.00% of the Parent Company's net worth, as reported to the BSP, and the unsecured portion did not exceed 5.00% of such net worth wherein the total outstanding loans, other credit accommodations and guarantees to all such subsidiaries and affiliates represent 12.34% and 13.50%, respectively,

of the Parent Company's net worth. The Parent Company has no outstanding loans, other credit accommodations and guarantees to subsidiaries and affiliates engaged in energy and power generation.

Total interest income on DOSRI loans in 2023, 2022 and 2021 amounted to ₱461.9 million, ₱264.8 million and ₱257.0 million, respectively, for the Group, and ₱457.1 million, ₱259.4 million and ₱251.4 million, respectively, for the Parent Company.

f. Secured Liabilities and Assets Pledged as Security
