<i>Metrobank-Trust Banking Group</i>	<i>HSBC</i>	<i>SGV & Co.</i>	<i>Qualified Expenses</i>

¹ As a percentage of average daily NAV for the month valued at (in USD Mns): **1.88**

INVESTMENT OBJECTIVE AND STRATEGY

The Fund intends to achieve for its participants income and potential returns that are higher than regular traditional deposit products by investing in a diversified portfolio of dollar-denominated fixed income securities and instruments with a maximum weighted average duration of three years.

The Fund's benchmark is the 35% JP Morgan Philippines Total Return (JACIPHTR) and 65% Philippine Dollar Deposit Rate Savings Deposit (PPSDUS\$).

CLIENT SUITABILITY

A client profiling process is performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are encouraged to update the resulting profile every three (3) years or if there's any change in his/her personal/financial circumstances. Before deciding to invest, clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, or seek an independent/professional opinion when necessary.

The METRO\$ MAX-3 BOND FUND is suitable only for investors who:

- Have a Moderate profile.
- Want potential returns that are higher than regular deposit products and are willing to be exposed to some risk in consideration of higher returns.
- Recommended investment horizon is at least one (1) year.
- Participation in the Fund shall be open to Filipino individuals, resident and non-resident aliens and corporate accounts.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Interest Rate Risk:	The possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
Market/Price Risk:	The possibility for an investor to experience losses due to changes in the market prices of bonds. It refers to the portfolio's exposure to marked-to-market valuation due to market price fluctuations of the bonds.
Liquidity Risk:	The possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a price that could result in a loss. This may be caused by low trading volume due to different reasons such as securities with small or few outstanding issues, absence of buyers and/or sellers (limited buy/sell activity) or underdeveloped capital market.
Credit Risk / Default Risk:	The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of fixed income security which the borrower issued. This inability of the borrower or counterparty to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security.
Reinvestment Risk:	The possibility of having lower returns or earnings when funds mature and are reinvested. Investors in the UITF who redeem and realize their gains run the risk of reinvesting their funds in an alternative investment outlet with lower yields. Similarly, the UIT fund manager is faced with the risk of not being able to find better yielding alternative investment outlets as some of the securities in the fund matures.
Foreign Exchange Risk:	The possibility for an investor to experience losses due to fluctuations in foreign exchange rates. The exchange rates depend upon a variety of global and local factors, e.g. interest rates, economic performance, and political developments.
Country Risk:	The possibility for an investor to experience losses arising from investments in securities issued by/in foreign countries due to the political, economic and social structures of these countries. There are risks in foreign investments due to the possible internal and external conflicts, currency devaluations, foreign ownership limitations and tax increases of the foreign country involved which are difficult to predict but must be taken into account in making such investments.
Other Risks:	Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by Metrobank. These transactions may include own-bank deposits; purchase of own-institution or affiliate obligations (stocks, mortgages); purchase of assets from or sales to own institution, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts.

The Fund invests only in high-credit quality assets which are evaluated using a rigorous internal scoring model required under the Trustee's accreditation process and BSP regulations. Internal risk limits and position limits together with regulatory exposure limits are monitored, reviewed and strictly adhered to on a daily basis. The Fund may also use financial derivatives solely for hedging risk exposures.

THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).

RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY.

WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.

THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

Lowest	1.772360

STATISTICS

Weighted Average Duration (in years) 2.82

Volatility, Past 1 Year (in %)² 2.55%

Sharpe Ratio³ 0.34

Information Ratio⁴ 1.24

² Volatility measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time. The lower the number, the more stable the Fund's return is relative to its average return over time. Starting December 2017, computation is based on the annualized standard deviation of monthly returns.

³ Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

⁴ Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

Unit Investment Trust Funds

INVESTMENT POLICY

The Fund may be invested and reinvested in the following instruments:

- i. US Dollar-denominated deposits;
- ii. US Dollar-denominated money market instruments;
- iii. Tradable Philippine US Dollar-denominated sovereign fixed income securities;
- iv. Tradable Philippine US Dollar-denominated corporate fixed income securities;
- v. Tradable US Dollar-denominated subordinated fixed income instruments issued by corporations and financial institutions;
- vi. Financial derivatives instruments solely for the purpose of hedging risk exposures of the existing investments of the Fund, provided these are accounted for in accordance with existing BSP hedging guidelines and disclosed to participants; and
- vii. Other Investments allowed under regulations issued by the Bangko Sentral ng Pilipinas.

BENCHMARK INFORMATION

The Fund's benchmark is a blended benchmark composed of 35% JP Morgan Philippines Total Return index and 65% Philippine Dollar Deposit Rate Savings Deposit.

The benchmarks provide references for acceptable returns on a dollar-denominated medium risk fixed income portfolio comprised of short-to-medium term fixed income investments and liquidity placements. The benchmark is heavily weighted on the PPSDUS\$ to reflect a maximum fund duration of 3 years.

Key Characteristics of the Benchmarks. The JP Morgan Philippines Total Return (JACIPHTR) tracks the total return of USD-denominated debt in the Asia (ex-Japan) region issued by the Philippine Government and Philippine Corporates. It includes bonds issued by Sovereign, Quasi-Sovereign and Corporate entities from the Philippines. The index caters to both investment-grade and non-investment-grade bond universe from the region and uses middle rating of the Moody's, S&P, and Fitch ratings. The Philippine Dollar Deposit Rate Savings Deposit (PPSDUS\$) represents the average USD savings deposit rates of contributing banks, as compiled by the BSP.

Further details regarding the benchmark are available from Bloomberg and at the official websites of J.P. Morgan Markets and the Bangko Sentral ng Pilipinas.

COOLING-OFF PERIOD

Pursuant to BSP Circular No. 857, the TRUSTOR (individual participants) shall have the right to cancel their initial subscriptions or contributions, without penalty, upon written notice to the Trustee within two (2) banking days immediately following the signing of agreement or contract evidencing their participation in the Fund. Further, the net amount of payment or delivery due the TRUSTOR shall be based on the transaction day's NAV_{pu} when notice of redemption, termination or cancellation was received.

OUTLOOK AND STRATEGY

The loudest U.S. Presidential election will shape the next four years. In a deeply divided nation, existential rhetoric has been prevalent as polar opposite worldviews compete to become the world's most powerful political figure.

After the FOMC's 50-bp reduction in September, the central bank is expected to ease by another 25-bp in November, two days after the Presidential election. Fed Chair Powell has stated that the institution will remain neutral and unbiased of any political pressure and will depend on incoming data in managing monetary policy. The U.S. economy remained resilient in Q3 2024, expanding 2.8% QoQ, as personal consumption increased due to the summer. Inflation inched lower from 2.5% to 2.4% YoY, as housing prices remained sticky, with the index rising to 425.2.

While the near-term risk of inflation remains low, data for the month was expected to be distorted due to the hurricanes. For the month, U.S. unemployment declined to 4.1% with only 12k jobs added, and manufacturing prices rose due to the disruptions. The early recession indicator called the Sahn Rule fell below the 0.5 mark, indicating reduced stress in the job market.

Consumer confidence jumped back to 108.7 from 98.7, supported by strong personal consumption, which increased from 2.8% to 3.7% QoQ. Manufacturing PMI increased to 48.5 while services slowed to 55.

The yields of the 2-year US Treasury (US2Y) vs. the 10-year US Treasury (US10Y) have uninverted, a historical indicator that suggests a recession may be approaching. The US10Y rose 50-bps to 4.28% following the Fed's 50-bp cut on a "buy the rumor, sell the news" event. Incoming policies spark renewed inflationary concerns on top of record debt levels. The 4.4% is a critical resistance level as it separates the disinflationary economic phase and a "no landing" scenario. A break above this level would spur cross-asset volatility. Increased global liquidity is expected to create a reflationary environment until Q1 2025.

The 2024 U.S. Presidential elections will likely add noise to an already volatile macroeconomic environment. Tensions in the Middle East are expected to have limited impact as long as escalation remains contained within the warring nations. Fiscal and monetary easing by various central banks aims to prevent growth deterioration, and risk assets are expected to outperform in the short term, given continued government support.

The fund has expressed an overweight duration stance to maximize exposure to rate cuts amid this disinflationary economic phase. The fund will stay cognizant of the effects from the incoming political regime in the U.S. and the reflationary environment.

IMPORTANT NOTICE

Metropolitan Bank and Trust Company is regulated by the Bangko Sentral ng Pilipinas (BSP). For any inquiries and complaints relating to Trust Products and Services you may (1) call our hotline: 8-8700-700 (Mondays-Fridays from 9:00am to 6:00pm); (2) send an email to customercare@metrobank.com.ph; or (3) visit our website at <https://www.metrobank.com.ph/invest/uitf> to know more.
