1/ Unweighted values must be calculated as outstanding balances maturing or callable within 30 days (for inflows and outflows).

2/ Weighted values must be calculated after the application of respective haircuts (for HQLA) or inflow and outflow rates (for inflows or outflows).

3/ Adjusted values must be calculated after the application of both: (i) haircuts (for total HQLA) and inflow and outflow rates (for Total Net Cash Outflow); and (ii) applicable cap and ceiling (i.e., cap on Level 2 assets for HQLA and ceiling on inflows).

Datapoints used were the simple average of the quarterly CONSO report as of March 31, 2025, June 30, 2025, September 30, 2025, and December 31, 2025.
