¹ As a percentage of average daily NAV for the month valued at (in USD Mns): **340.88**

INVESTMENT OBJECTIVE AND STRATEGY

The Fund intends to achieve for its participants liquidity and income that is higher than that of regular time deposit products by investing in a diversified mix of dollar-denominated deposits and other short-dated securities and money market instruments with remaining term to maturity of not more than three (3) years, and has a maximum weighted average portfolio duration of one (1) year or less.

The Fund aims to outperform its benchmark, which is the 3 Month US Treasury Bill Yield, net of applicable taxes.

CLIENT SUITABILITY

A client profiling process is performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are encouraged to update the resulting profile every three (3) years or if there's any change in his/her personal/financial circumstances. Before deciding to invest, clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, or seek an independent/professional opinion when necessary.

The METRO\$ MONEY MARKET FUND is suitable only for investors who:

- Have a Conservative profile.
- Want relatively higher return than regular deposit products.
- Prefer a fund with an investment horizon of at least 30 days.
- Are qualified to participate in this fund. Participation in the Fund shall be open to Filipino individuals, resident and non-resident aliens and corporate accounts.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

| | |
|------------------------------------|--|
| Liquidity Risk: | The possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a price that could result in a loss. This may be caused by low trading volume due to different reasons such as securities with small or few outstanding issues, absence of buyers and/or sellers (limited buy/sell activity) or underdeveloped capital market. |
| Credit Risk / Default Risk: | The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of fixed income security which the borrower issued. This inability of the borrower or counterparty to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security. |
| Reinvestment Risk: | The possibility of having lower returns or earnings when funds mature and are reinvested. Investors in the UITF who redeem and realize their gains run the risk of reinvesting their funds in an alternative investment outlet with lower yields. Similarly, the UIT fund manager is faced with the risk of not being able to find better yielding alternative investment outlets as some of the securities in the fund matures. |
| Foreign Exchange Risk: | The possibility for an investor to experience losses due to fluctuations in foreign exchange rates. The exchange rates depend upon a variety of global and local factors, e.g. interest rates, economic performance, and political developments. |
| Country Risk: | The possibility for an investor to experience losses arising from investments in securities issued by/in foreign countries due to the political, economic and social structures of these countries. There are risks in foreign investments due to the possible internal and external conflicts, currency devaluations, foreign ownership limitations and tax increases of the foreign country involved which are difficult to predict but must be taken into account in making such investments. |
| Other Risks: | Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by Metrobank. These transactions may include own-bank deposits; purchase of own-institution or affiliate obligations (stocks, mortgages); purchase of assets from or sales to own institution, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts. |

The Fund invests only in assets which are evaluated using a rigorous internal scoring model required under the Trustee's accreditation process and BSP regulations. Internal risk limits and position limits together with regulatory exposure limits are monitored, reviewed and strictly adhered to on a daily basis. The Fund may also use financial derivatives solely for hedging risk exposures.

THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC). RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY. WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT. THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

**FUND PERFORMANCE AND STATISTICS as of
May 29, 2026**
(Purely for reference purposes and is not a guarantee of future results)

NAVPU GRAPH

NAVPU OVER THE PAST 12 MONTHS

| | |
|---------|----------|
| Highest | 1.179706 |
| Lowest | 1.141003 |

STATISTICS

| | |
|---|-------|
| Weighted Average Duration (in years) | 0.12 |
| Volatility, Past 1 Year (in %) ² | 0.19% |
| Sharpe Ratio ³ | -2.37 |
| Information Ratio ⁴ | -2.01 |

² Volatility measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time. The lower the number, the more stable the Fund's return is relative to its average return over time. Starting December 2017, computation is based on the annualized standard deviation of monthly returns.

³ Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

⁴ Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk. (For benchmark details, please refer to benchmark information section.)

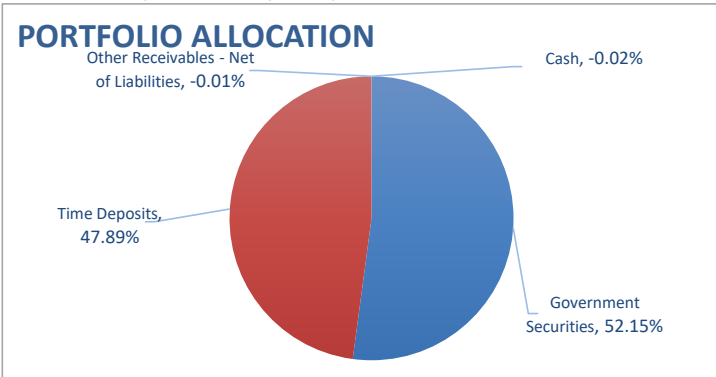

CUMULATIVE PERFORMANCE

Unit Investment Trust Funds

INVESTMENT POLICY

The Fund may be invested and reinvested in the following instruments:

- i. US Dollar-denominated deposits with local banks/branches of foreign banks operating in the Philippines;
- ii. US Dollar-denominated money market instruments;
- iii. Tradable Philippine US Dollar-denominated sovereign fixed income securities; and
- iv. Other Investments allowed under regulations issued by the Bangko Sentral Ng Pilipinas.

BENCHMARK INFORMATION

The benchmark of the fund is the 3-month US Treasury Bill Yield, net of applicable taxes.

The benchmark is appropriate for the fund as it is invested in short-term money market instruments, and complements the maximum duration of (1) one year.

Key Characteristics of the Benchmark. The 3-month US Treasury Bill Yield represents the indicative yield for investing in US government-issued Treasury bills with a tenor of 3 months.

Further details regarding the benchmark are available from Bloomberg, and the website of the US Department of the Treasury.

COOLING-OFF PERIOD

Pursuant to regulations on Financial Consumer Protection, the TRUSTOR (individual participants) shall have the right to cancel their initial subscriptions or contributions, without penalty, upon written notice to the Trustee within two (2) banking days immediately following the signing of agreement or contract evidencing their participation in the Fund. Further, the net amount of payment or delivery due the TRUSTOR shall be based on the transaction day's NAVPU when notice of redemption, termination or cancellation was received.

OUTLOOK AND STRATEGY

Old Story: US-Iran conflict.

New Story: Strong technology earnings

The vicious stock market rally pushed prices to new consecutive all-time highs, as if the war never occurred.

The Fed kept rates unchanged at 3.75% in May as the U.S. economy remained strong as the AI revolution lifts the economy despite weak job growth. The consensus of policymakers was scattered given rising economic uncertainty stemming from the US-Iran conflict. Consumers are about to face "compounded inflation", inflation coming from resilient growth and the shocks from the Middle East conflict.

1Q-2026 growth jumped to 2.7% QoQ as investment and government spending offset a weakening consumer. The AI CAPEX cycle continues to lift the U.S. economy despite energy headwinds from the Middle East crisis. An AI driven productivity cycle is likely to take place with jobless recovery likely unfold as economic prospects broaden, underemployment (job to skill mismatch) will be high given the process impact of AI. Meanwhile, inflation jumped to 3.8%, the highest level seen since September 2022 as energy prices were absorbed by the consumers and producers. Personal income MoM expanded 0.6% while personal spending was at 0.9% MoM, an indicator of price pressures eating into saving. The risk of second round effects of inflation are high as food prices spike and paid prices by manufacturer rise to the highest level since 2022.

U.S.PMI for services eased to neutral at 50.7 as price pressures affect discretionary spending. But the resilient US economy has started to reflect in manufacturing with a print of 55.1, the strongest since May 2022. Unemployment inched tower to 4.3%.

In May, US10Y yields spiked to a high of 4.68% before closing at 4.43% as bond yields reflected accelerating inflationary pressures. The US30Y temporarily breached above the long-term resistance of 5%, signaling inflation concerns and fiscal dominance. New Fed Chair Kevin Warsh will be in the spotlight as he lines-up his reforms in the Fed. Initial sentiment suggest policy easing with shrinking of the balance sheet, this will result in a steep yield curve.

The fund remain invested mostly in high yielding Dollar Time Deposits and US Treasury Bills.

IMPORTANT NOTICE

Metropolitan Bank and Trust Company is regulated by the Bangko Sentral ng Pilipinas (BSP). For any inquiries and complaints relating to Trust Products and Services you may (1) call our hotline: 8-8700-700 (Mondays-Fridays from 9:00am to 6:00pm); (2) send an email to customercare@metrobank.com.ph; or (3) visit our website at <https://www.metrobank.com.ph/invest/uitf> to know more.
